Aiming at Amazon Aaron Shepard, 2009-12-31. This 2009 version of the book is the last version available. For partial updates, please visit Aaron Shepard's Publishing Page. Please note also that this book describes Amazon publishing BEFORE the introduction of Kindle books, which are discussed in later books of Aaron's. There has never been a self-publishing manual like this. Aiming at Amazon is NOT about getting your book into bookstores. Instead, it lays out an innovative approach that targets sales on Amazon.com. It reveals how to make a book sell well online with tips never before offered. And it shows you how Amazon REALLY works, not how self-proclaimed experts wish it did. You will learn why Amazon sales offer your best chance of success in self-publishing. Why letting Amazon order books directly from you is the least profitable approach. How to make your book most visible on Amazon. How to make your cover image most prominent. How to optimize content on Amazon's page for your book. How to increase Customer Reviews without violating Amazon's terms and conditions, as well as professional ethics. Why many Amazon marketing techniques highly recommended by other authors are nearly useless. Why it takes a full year for Amazon sales of your book to reach their peak.
