

I knew that greenhouse gases were making the temperature rise, but I had assumed that there were cyclical variations or other factors that would naturally prevent a true climate disaster. And it was hard to accept that as long as humans kept emitting any amount of greenhouse gases, temperatures would keep going up.

I went back to the group several times with follow-up questions. Eventually it sank in. The world needs to provide more energy so the poorest can thrive, but we need to provide that energy without releasing any more greenhouse gases.

Now the problem seemed even harder. It wasn't enough to deliver cheap, reliable energy for the poor. It also had to be clean.

I kept learning everything I could about climate change. I met with experts on climate and energy, agriculture, oceans, sea levels, glaciers, power lines, and more. I read the reports issued by the Intergovernmental Panel on Climate Change (IPCC), the UN panel that establishes the scientific consensus on this subject. I watched *Earth's Changing Climate*, a series of fantastic video lectures by Professor Richard Wolfson available through the Great Courses series. I read *Weather for Dummies*, still one of the best books on weather that I've found.

What is e-book? Nicolae Sfetcu, 2014-05-10 The e-book guide for publishers, how to publish EPUB format, ebook readers and suppliers. An electronic book, also e-book, ebook, electronic book, digital book, is a book-length publication in digital form consisting of text, images or both and produced on, published through and readable on computers or other electronic devices. An e-book can be purchased, borrowed, downloaded and used immediately, whereas when one buys or borrows a book, one must go to a bookshop, a home library or public library during limited hours or wait for a delivery. Electronic publishing or ePublishing includes the digital publication of e-books and electronic articles and the development of digital libraries and catalogues. EPUB, short for electronic publication, alternatively capitalized as ePub, ePUB, EPub or epub, with EPUB preferred by the vendor, is a free and open e-book standard by the International Digital Publishing Forum (IDPF). Self-publishing is the publication of any book or other media by the author of the work without the involvement of an established third-party publisher. One of the greatest benefits brought about by ebooks software is the ability for anyone to create professional ebooks without having to fork out thousands of dollars to design and publish a book.
