Children's Literature in Action Sylvia M. Vardell, 2019-06-14 This practitioner oriented introduction to literature for children ages 5 12 covers the latest trends titles and tools for choosing the best books and materials as well as for planning fun and effective programs and activities The third edition of Children s Literature in Action provides an activity oriented survey of children s literature for undergraduate and graduate students seeking licensure and degrees that will lead to careers working with children in schools and public libraries Author Sylvia M Vardell

draws on her 30 years of university teaching and extensive familiarity with the major textbooks in the area of children's literature to deliver something different: a book that focuses specifically on the perspective and needs of the librarian with emphasis on practical action and library applications. Its contents address seven major genres: picture books, traditional tales, poetry, contemporary realistic fiction, historical fiction, fantasy, and informational books. Each chapter includes practical applications for the educator who shares books with children and who develops literature-based instruction. Chapters are enriched by author comments, collaborative activities, featured books, special topics, and activities including selected awards and celebrations, historical connections, recommended resources, issues for discussion, and assignment suggestions. This new edition incorporates the 2018 AASL National School Library Standards.

Travel the Globe Desiree Webber, Dee Ann Corn, Elaine R. Harrod, Sandy Shropshire, Shereen Rasor, Donna Norvell, 2012-12-12 This book assists the busy professional with ready-to-use materials to present entertaining educational and age appropriate programs that introduce young learners to countries and cultures around the world. The result of a collaboration of children's librarians and educators with over 70 years combined experience, *Travel the Globe* Story Times Activities and Crafts for Children, Second Edition, offers the busy librarian, teacher, or media specialist with ready-to-use resources that introduce children to countries and cultures around the world. It provides recommended books, stories, action rhymes, fingerplays, games, and activities that can be used to plan a series of programs or a single activity that are both entertaining and educational. The book is organized alphabetically by country, with simple, low cost craft ideas included in each chapter. All crafts use low cost supplies and are simple to prepare and execute. At least two craft projects are included in each chapter: one for preschoolers with suggestions for additional simplification, and another designed for children in kindergarten through third grade. The wide variety of resources within makes this book a valuable investment as it will be useful year after year with new presentations and activities.

Creativity and Children's Literature Marianne Saccardi, 2014-07-31 Today's students need to be able to do more than score well on tests; they must be creative thinkers and problem solvers. The tools in this book will help teachers and parents start students on the path to becoming innovative, successful individuals in the 21st century workforce. The children in classrooms today will soon become adult members of society; they will need to apply divergent thinking skills to be effective in all aspects of their lives, regardless of their specific occupation. How well your students meet complicated challenges and take advantage of the opportunities before them decades down the road will depend largely upon the kind of thinking they are trained and encouraged to do today. This book provides a game plan for busy librarians and teachers to develop their students' abilities to arrive at new ideas by utilizing children's books at hand. Following an introduction in which the author defines divergent thinking, discusses its

characteristics and establishes its vital importance chapters dedicated to types of literature for children such as fantasy poetry and non fiction present specific titles and relevant activities geared to fostering divergent thinking in young minds Parents will find the recommendations of the kinds of books to read with their children and explanations of how to engage their children in conversations that will help their creative thinking skills extremely beneficial The book also includes a case study of a fourth grade class that applied the principles of divergent thinking to imagine innovative designs and come up with new ideas while studying a social studies science unit on ecology
