Journey Across Time Wrap Around Teacher Tests:

Navigating Teacher Licensure Exams Emery Petchauer, 2018-12-12 Navigating Teacher Licensure Exams offers practical empirically sourced insights into the high stakes licensure exams required in most states for teacher certification. This unique resource foregrounds the experiences of diverse preservice teachers including teachers of color to understand how they organize their preparation efforts, overcome self-doubt and anxiety, and navigate the high-pressure space of this important testing event. By situating these exams within their social and psychological contexts, presenting real-life cases of success and failure, and confronting innate perceptions of standardized tests, this book provides essential and highly practical support for preservice teachers, teacher educators, and departmental resource libraries.

Lady of the Dance Marie Duffy, 2017-03-13 Marie Duffy is one of the best choreographers in the world. She has been my dance master and right-hand person since 1996. She is like my twin sister; I will love her forever. Michael Flatley: Marie Duffy is the undisputed queen of Irish dancing; she has trained more world champions than any other teacher and has been Michael Flatley's right-hand woman for twenty years. She works tirelessly to promote Irish dance and culture internationally. In this honest and entertaining book, Marie gives us a behind-the-scenes glimpse into the world of professional Irish dance and draws back the curtain on her own fascinating and inspiring life. Marie first gained recognition dancing on entertainment shows in the 1960s and went on to become a hugely successful Irish dancing teacher. Watching the 1994 Eurovision Song Contest in her living room, Marie was filled with pride as she'd taught many of the dancers in the famous Riverdance interval act. Two years later, Marie received a phone call that transformed her life when Michael Flatley offered her a job on a new show he had devised. Lord of the Dance would go on to become a worldwide hit, beginning years of fruitful collaboration between Marie and Flatley. Sadly, however, Marie's professional highs have been accompanied by many personal lows, including the loss of her mother, who didn't live to see her daughter's success, and first husband Ian, and being diagnosed with breast cancer in 2010. Marie had a mastectomy, but in the showbiz tradition of the show, she must go on; she went back to her work rehearsing the dance troupe.

Jin In Time-Two Karin De Haven, 2020-12-17 Can ten wishes change her destiny? Seventeen-year-old Esme is about to find out when a bowler-hatted genie pops out of her grandmother's antique vase. Jin says he'll grant her ten life-changing wishes. At first, Esme gets off to a bumpy start with Jin and her wishes. But she soon finds herself falling for her Victorian genie. Things take a dangerous turn when Jin's former master, a diabolical Victorian magician, sends a message through the vase: he wants his genie back. Esme has a tough choice to make: work on rebuilding her relationship with her dad and a new life in Long Island, or use her last wish to save the genie she loves. If she travels back in time to Victorian England, will she ever be able to return home again? Find out more in *Jin in Time Two*, the second book in the *Time is Forever* Series by author Karin De Haven. offers the potential to streamline the execution of strategy and teaching. It accelerates the development of new courses and studies that are closely aligned to the needs of students. It supports the integration of new technologies without overburdening teachers and staff. Lean in the Classroom brings all these elements together into a coherent framework so schools can make necessary changes in one concerted effort. Teaching professional support managing the daily work and changing the way schools function are brought together as a schoolwide strategy to organize learning in a way that serves our students by making the most of their talents. This book is the first to define LE in all its aspects: course design, actual teaching and learning processes, school management, and the organization of supporting processes. It is firmly based on the Lean management philosophy in conjunction with pedagogy. The book draws on both scientific research in the field of Lean management in general and Lean education in particular. In addition, it is predicated on many years of hands-on experience applying Lean both inside and outside the education sector.
