Jose Marti Images Of Memory And Mourning:

Iosé Martí E. Bejel, 2016-07-14 This book is a critical study of visual representations of Jos Mart The National Hero of Cuba and the discourses of power that make it possible for Mart's images to be perceived as icons today It argues that an observer of Mart's icons who is immersed in the Cuban national narrative experiences a retrospective reconstruction of those images by means of ideologically formed national discourses of power Also the obsessive reproduction of Mart s icons signals a melancholia for the loss of the martyr hero But instead of attempting to forget Mart the book concludes that the utopian impulse of his memory should serve to resist melancholia and to visualize new forms of creative re significations of Mart and by extension the nation José Martí: Images of Memory and Mourning E. Bejel, 2012-08-16 This book is a critical study of visual representations of Jos Mart The National Hero of Cuba and the discourses of power that make it possible for Mart s images to be perceived as icons today It argues that an observer of Mart's icons who is immersed in the Cuban national narrative experiences a retrospective reconstruction of those images by means of ideologically formed national discourses of power Also the obsessive reproduction of Mart s icons signals a melancholia for the loss of the martyr hero But instead of attempting to forget Mart the book concludes that the utopian impulse of his memory should serve to resist melancholia and to visualize new forms of creative re significations of Mart and by extension the nation *Aesthetics and the Revolutionary* City James Clifford Kent, 2018-09-22 Aesthetics and the Revolutionary City engages in alternative ways of reading foreign visual representations of Havana through analysis of advertising images documentary films and photographic texts It explores key narratives relating to the projection of different Havana imaginaries and focuses on a range of themes including pre revolutionary Cuba the dream of revolution and the metaphor of the city frozen in time The book also synthesizes contemporary debates regarding the notion of Havana as a real and imagined city space and fleshes out its theoretical insights with a series of stand alone important case studies linked to the representation of the Cuban capital in the Western imaginary The interpretations in the book bring into focus a range of critical historical moments in Cuban history including the Cuban Revolution and the Special Period and consider the ways in which they have been projected in advertising documentary film and photography outside the island Cuba Louis A. Pérez, 2015 Spanning the history of the island from pre Columbian times to the present this highly acclaimed survey examines Cuba s political and economic development within the context of its international relations and continuing struggle for self determination The dualism that emerged in Cuban ideology between liberal constructs of patria and radical formulations of nationality is fully investigated as a source of both national tension and competing notions of liberty equality and justice Author Louis A P rez Jr integrates local and provincial developments with issues of class race and gender to give students a full and fascinating account of Cuba s history focusing on its struggle for nationality The Child in Contemporary Latin American Cinema Deborah Martin, 2019-01-04 What is the child for Latin American cinema This book aims to answer that question tracing the common tendencies of the representation

of the child in the cinema of Latin American countries and demonstrating the place of the child in the movements genres and styles that have defined that cinema Deborah Martin combines theoretical readings of the child in cinema and culture with discussions of the place of the child in specific national regional and political contexts to develop in depth analyses and establish regional comparisons and trends She pays particular attention to the narrative and stylistic techniques at play in the creation of the child's perspective and to ways in which the presence of the child precipitates experiments with film aesthetics Bringing together fresh readings of well known films with attention to a range of little studied works The Child in Contemporary Latin American Cinema examines films from the recent and contemporary period focussing on topics such as the death of the child in street child films the role of the child in post dictatorship filmmaking and the use of child characters to challenge gender and sexual ideologies The book also aims to place those analyses in a historical context tracing links with important precursors and paying attention to the legacy of the child's figuring in the mid century movements of melodrama and the New Latin American Cinema National Identity in 21st-Century Cuban Cinema Dunja Fehimović, 2018-08-10 National Identity in 21st Century Cuban Cinema tours early 21st century Cuban cinema through four key figures the monster the child the historic icon and the recluse in order to offer a new perspective on the relationship between the Revolution culture and national identity in contemporary Cuba Exploring films chosen to convey a recent diversification of subject matters genres and approaches it depicts a changing industrial landscape in which the national film institute ICAIC coexists with international co producers and small independent production companies By tracing the reappearance reconfiguration and recycling of national identity in recent fiction feature films the book demonstrates that the spectre of the national haunts Cuban cinema in ways that reflect intensified transnational flows of people capital and culture Moreover it shows that the creative manifestations of this spectre screen both hiding and revealing a persistent anxiety around Cubanness even as national identity is transformed by connections to the outside world **Between Empires** Koichi Hagimoto, 2013-11-19 In 1898 both Cuba and the Philippines achieved their independence from Spain and then immediately became targets of US expansionism This book presents a comparative analysis of late nineteenth century literature and history in Cuba and the Philippines focusing on the writings of Jos Mart and Jos Rizal to reveal shared anti imperial struggles Revolvers and Pistolas, Vaqueros and Caballeros D. H. Figueredo, 2014-12-09 This riveting expos reveals how a distorted belief in Anglo superiority necessitated the rewriting of American western history replacing heroic images of Mexican and Spanish cowboys with negative stereotypes Early Anglo settlers in the Old West crafted negative images of Latinos in part to help justify the takeover of land occupied by Mexicans and Spaniards at the time Unfortunately these depictions were perpetuated throughout the 20th century in art popular culture and media eventually reshaping the narrative of the American West to the exclusion of the non Anglo people This book contrasts dominant lore with historical reality to provide a broad overview of the history and contributions of Latinos in the Old West Author D H Figueredo sets out to debunk the myths and falsehoods of

the American West by chronicling the cultural perceptions that led to such historical inaccuracies Through spellbinding accounts chapters address such topics as the legends behind the caballeros Mexican culture in the Old West and the search for cities of gold in the Southwest Arranged chronologically and thematically the book examines how popular culture diminished the role of the Mexican vaqueros and illustrates how the image of the Anglo cowboy became the iconic symbol of the Old West Bandit Narratives in Latin America Juan Pablo Dabove,2017-07-12 Bandits seem ubiquitous in Latin American culture Even contemporary actors of violence are framed by narratives that harken back to old images of the rural bandit either to legitimize or delegitimize violence or to intervene in larger conflicts within or between nation states However the bandit seems to escape a straightforward definition since the same label can apply to the leader of thousands of soldiers as in the case of Villa or to the humble highwayman eking out a meager living by waylaying travelers at machete point Dabove presents the reader not with a definition of the bandit but with a series of case studies showing how the bandit trope was used in fictional and non fictional narratives by writers and political leaders from the Mexican Revolution to the present By examining cases from Argentina Brazil Mexico Peru and Venezuela from Pancho Villa s autobiography to Hugo Chavez s appropriation of his outlaw grandfather Dabove reveals how bandits function as a symbol to expose the dilemmas or aspirations of cultural and political practices including literature as a social practice and as an ethical experience

Reporting the Cuban Revolution Leonard Ray Teel, 2015-12-16 Reporting the Cuban Revolution reveals the untold story of thirteen American journalists in Cuba whose stories about Fidel Castro's revolution changed the way Americans viewed the conflict and altered U S foreign policy in Castro's favor Between 1956 and 1959 the thirteen correspondents worked underground in Cuba evading the repressive censorship of Fulgencio Batista's dictatorship in order to report on the rebellion led by Fidel Castro The journalists stories appeared in major newspapers magazines and national television and radio influencing Congress to abruptly cut off shipments of arms to Batista in 1958 Castro was so appreciative of the journalists efforts to publicize his rebellion that on his first visit to the United States as premier of Cuba he invited the reporters to a private reception at the Cuban Embassy in Washington where he presented them with engraved gold medals While the medals revealed Castro's perception of the correspondents as like minded partisans the journalists themselves had no such intentions Some had journeyed to Cuba in pursuit of scoops that could rejuvenate or jump start their careers others sought to promote press freedom in Latin America still others were simply carrying out assignments from their editors Bringing to light the disparate motives and experiences of the thirteen journalists who reported on this crucial period in Cuba s history Reporting the Cuban Revolution is both a masterwork of narrative nonfiction and a deft analysis of the tension between propaganda and objectivity in the work of American foreign correspondents **1898** Taina Beatriz Caragol-Barreto, Taína Caragol, Kate Clarke Lemay, Jorge Duany, Theodore S.
