Journal Of Mule Train Packing In Eastern Washington In The 1860s:

Journal of Mule Train Packing in Eastern Washington in the 1860's James W. Watt, 1928 **Frontier Cowboys and the Great Divide** Ken Mather, 2013-04-15 Despite being neighbouring provinces with long ranching histories British Columbia and Alberta saw their ranching techniques develop quite differently As most ranching styles were based on one of the two dominant styles in use south of the border BC ranchers tended to adopt the California style whereas Alberta took its lead from Texas But the different practices actually go back much further Cattle cultures in southwestern Spain sub Saharan Africa and the British highlands all shaped the basis of North American ranching Digging deep into the origins of cowboy culture Ken Mather tells the stories of men and women on the ranching frontiers of British Columbia and Alberta and reveals little known details that help us understand the beginnings of ranching in these two provinces **Hiking Washington's**

History Judy Bentley, 2013-12-20 Hiking Washington's History reveals the stories embedded in Washington's landscape This trail guide narrates forty historic trails ranging from short day hikes to three or four day backpacking trips over mountain passes Every region in the state is included from the northwesternmost tip of the continental United States at Cape Flattery to the remote Blue Mountains in the southeast Each chapter begins with a brief overview of the region's history followed by individual trail narratives and historical highlights Quotes from diaries journals letters and reports as well as contemporary and historic photographs describe sites and trails from Washington's past Each trail description includes a map and provides directions so hikers can follow the historic route Judy Bentley tells readers how to get there what to expect and what to look for Despite Washington State's rapid growth a remarkable number of historic trails have been preserved in national parks restored by cities and towns returned to public use by the railroads or opened to hikers by Native American tribes Some trails such as the Iron Goat Trail have been fully restored and interpreted Others such as the Naches Pass Trail have been abused but survive Some are easily accessible such as the Duwamish River Trail in Seattle and the Spokane House trails near Spokane Others such as Chief Joseph's Summer Trail require a half day journey just to reach the trailhead Hiking Washington's History is for hikers amateur historians newcomers unfamiliar with the state's history and Northwest natives who know only part of that history Savor the vicarious experience of a hike from a cozy chair on a rainy winter day or put your boots on and hit the trail when the sun shines Watch the book trailer <https://www.youtube.com/watch?v=5aulywhW2mY>

Trail North Ken Mather, 2018-06-12 Winner second prize 2019 British Columbia Lieutenant Governor's Medal for Historical Writing A revealing history of the ancient trail that served as a major transportation route between Washington and British Columbia and shaped the cultural and economic ties between the two jurisdictions Trails are the most enduring memorials of human occupation Long before stone monuments were created pathways throughout the world were being worn into hardness by human feet Travellers along the stretch of Highway 97 from Brewster Washington to Kamloops BC may not know that they are travelling a route as old as humankind's presence in the region In fact this north south valley a

natural corridor linking the two major river systems that drain the Interior Plateau has served as transportation route for tens of thousands of years Trail North traces the origins of this iconic trail among the Indigenous people of the Interior Plateau and its uses by the three different fur trading companies before turning its focus on the period of 1858 to 1868 when the trail was used by miners packers and cattlemen as the major entry point into British Columbia from Washington Territory The historical use of the trail in both jurisdictions is a fascinating episode in the history of the Pacific Northwest **Beaten Down** David Peterson del Mar,2011-10-01 Selected by Choice as an Outstanding Academic Title for 2003 The word violence conjures up images of terrorism bombings and lynchings Beaten Down is concerned with more prosaic acts of physical force a husband slapping his wife a parent taking a birch branch to a child a pair of drunken friends squaring off to establish who was the better man David Peterson del Mar accounts for the social relations of power that lie behind this intimate form of violence this white noise that has always been with us humming quietly between more explosive acts of violence Broad in its chronological and cultural sweep Beaten Down examines interpersonal violence in Washington Oregon and British Columbia beginning with Native American cultures before colonization and continuing into the mid twentieth century It contrasts the disparate ways of practicing and punishing interpersonal violence on each side of the U S Canadian border Del Mar concludes that we cannot comprehend the causes and moral consequences of a violent act without considering larger social relations of power whether between colonizers and original inhabitants between spouses between parents and children or between and among different ethnic groups The author has drawn on a vast array of vivid sources including newspaper accounts autobiographies novels oral histories historical and ethnographic publications and hundreds of detailed court cases to account for not only the relative frequency of different forms of violence but also the shifting definitions and perceptions of what constitutes violence This is a thoughtful and probing account of how and why people have hit each other and the manner in which opinion makers and ordinary citizens have censured defended or celebrated such acts Del Mar s conclusions have important implications for an understanding of violence and perceptions of violence in contemporary society

Harvest Heritage Richard D. Scheuerman,Alexander C. McGregor,2020-10-08 Using imported heirloom grains and fruits Spanish explorers fur traders missionaries and some Native Americans planted subsistence gardens in the Pacific Northwest After immigration surged in 1843 it took a surprisingly short time for the region s fertile lands to become a commercial agricultural powerhouse Demand for food exploded with the industrial revolution as well as the urbanization of Europe and eastern America and the doors of international export opened wide Agribusiness expanded to meet the need By 1890 advancements in mechanization seed quality irrigation and sustainable practices had spurred a farming boom Columbia Basin irrigation and the development of synthetic fertilizers as well as Cooperative Extension efforts and impressive work by agricultural researchers greatly boosted regional production Harvest Heritage explores the people history and major influences that shaped and transformed the Pacific Northwest s flourishing agrarian economy Of Forests and Fields

Mario Jimenez Sifuentez, 2016-03-08 2016 Choice Outstanding Academic Title Just looking at the Pacific Northwest's many verdant forests and fields it may be hard to imagine the intense work it took to transform the region into the agricultural powerhouse it is today Much of this labor was provided by Mexican guest workers Tejano migrants and undocumented immigrants who converged on the region beginning in the mid 1940s *Of Forests and Fields* tells the story of these workers who toiled in the fields canneries packing sheds and forests turning the Pacific Northwest into one of the most productive agricultural regions in the country Employing an innovative approach that traces the intersections between Chicana o labor and environmental history Mario Sifuentez shows how ethnic Mexican workers responded to white communities that only welcomed them when they were economically useful then quickly shunned them He vividly renders the feelings of isolation and desperation that led to the formation of ethnic Mexican labor organizations like the Pineros y Campesinos Unidos Noroeste PCUN farm workers union which fought back against discrimination and exploitation *Of Forests and Fields* not only extends the scope of Mexican labor history beyond the Southwest it offers valuable historical precedents for understanding the struggles of immigrant and migrant laborers in our own era Sifuentez supplements his extensive archival research with a unique set of first hand interviews offering new perspectives on events covered in the printed historical record A descendent of ethnic Mexican immigrant laborers in Oregon Sifuentez also poignantly demonstrates the links between the personal and political as his research leads him to amazing discoveries about his own family history www.mariosifuentez.com *We Are Aztlán!* Norma Cárdenas, Oscar Rosales Castañeda, Josué Q.
