The Complicated Ape Bryce Winn, 2022-07-27 The Complicated Ape The Windows of the Eyes The Roots of the Soul The Devil s Gift and Our Divine Curse By Bryce Winn We live under an illusion that we live in a world of harsh divisions People don t want unity because we have an affinity for totalitarianism because we have a common ideal food and security and we identify as the victim and likewise identify a group of oppressors rather than any specific individual so invite the tyrannical excess of our position and impose it on people because people don t normally care if it doesn t affect them and all the better if it benefits them Ecofeminism and Pantheism has been abandoned by many philosophers and thinkers because of there lack of there inconsistencies and lack of identity but these belief systems can lead to the synchronicity of opposites

such as the masculine and the feminine eastern and western religions and republican and democrats Ecofeminism and a Pantheism can orient us towards compassion and humility which should be the foundation of our ethos Animal cruelty tribalism religion and atheism are psychological indicators of a suffering society There is a correlation between how societies become cruel and societal erosion The environment is the heart of the economy because of the resources it offers but the genocide of native animals and ecocide often coincide with a cruel society Once a society degenerates into ignorance resentment betrayal division fragmentation and corruption then society will become cruel and become totalitarian and then it will eventually collapse The source of psychological suffering and what leads to crime and wickedness is the fall from nature and the separation of the family household The way that societies become cruel begin with betrayal deception and rejection and a societal indicator of this when we see isolation alienation and tyranny and this is caused by family friends and the state Because this resentment towards life and towards state accumulates over generations and is passed down through the form of childhood trauma In other words we have a non ending cycle of resentful parents which leads them to be tyrannical and this accumulates and makes up society and then we make our children internalize the problems of society through shame dumping blame shifting worship and dogmatic intrusion We do this because children are extensions of ourselves All issues in society start in the family household
