comprehensive introduction to the most important and interesting historical and contemporary facets of Judaism in America. Written by twenty four leading scholars from the fields of religious studies, American history and literature, philosophy, art history, sociology and musicology, the book adopts an inclusive perspective on Jewish religious experience. Three initial chapters cover the development of Judaism in America from 1654 when Sephardic Jews first landed in New Amsterdam until today. Subsequent chapters include cutting edge scholarship and original ideas while remaining accessible at an introductory level. A secondary goal of this volume is to help its readers better understand the more abstract term of religion in a Jewish context. Marty, 1997-06-21 In this second volume of two tracing the history of 20th century American religion, Martin E. Marty tells the story of how America has survived religious disturbances and culturally prospered from them. **E.Y. Mullins and The Axioms of Religion**, 2008 **Passing on the Faith** James L. Heft, 2009-08-25 From the beginning, the Abrahamic faiths—Judaism, Christianity, and Islam—have stressed the importance of transmitting religious identity from one generation to the next. Today, that sustaining mission has never been more challenged. Will young people have a faith to guide them? How can faith traditions anchor religious attachments in this secular, skeptical culture? The fruit of a historic gathering of scholars and religious leaders across three faiths and many disciplines, this important book reports on the religious lives of young people in today's world. It's also a unique inventory of creative and thoughtful responses from churches, synagogues, and mosques working to keep religion a significant force in those lives. The essays are grouped thematically. Opening the book, Melchor Sanchez de Toca and Nancy Ammerman explore fundamental issues that have an impact on religion from the cultural effects of global consumerism and personal technology to pluralism and individualism. In Part Two, leading investigators present three leading studies of religiosity among young people and college students in the United States, illuminating the gap between personal values and organized religion and the emergence of new, different forms of spirituality and faith. How religious institutions deal with these challenges forms the heart of the book in portraits of best practices developed to revitalize traditional institutions: from a synagogue in New York City and a Muslim youth camp in California to the famed French Catholic community of the late Brother John of Taizé. Finally, Jack Miles and Diane Winston weave the findings into a broader perspective of the future of religious belief, practice, and feeling in a changing world. Filled with real-world wisdom,

Passing the Faith will be an essential resource for anyone seeking to understand what religions must and can do to inspire a vigorous faith in the next generation
