## **Judging Addicts Drug Courts And Coercion In The Justice System Alternative Criminology:**

*Judging Addicts* Rebecca Tiger, 2013 The number of people incarcerated in the U S now exceeds 2.3 million due in part to the increasing criminalization of drug use over 25% of people incarcerated in jails and prisons are there for drug offenses *Judging Addicts* examines this increased criminalization of drugs and the medicalization of addiction in the U S by focusing on drug courts where defendants are sent to drug treatment instead of prison Rebecca Tiger explores how advocates of these courts make their case for what they call enlightened coercion detailing how they use medical theories of addiction to justify increased criminal justice oversight of defendants who through this process are defined as both sick and bad Tiger shows how these courts fuse punitive and therapeutic approaches to drug use in the name of a progressive and enlightened approach to addiction She critiques the medicalization of drug users showing how the disease designation can complement rather than contradict punitive approaches demonstrating that these courts are neither unprecedented nor unique and that they contain great potential to expand punitive control over drug users Tiger argues that the medicalization of addiction has done little to stem the punishment of drug users because of a key conceptual overlap in the medical and punitive approaches that habitual drug use is a problem that needs to be fixed through sobriety *Judging Addicts* presses policymakers to implement humane responses to persistent substance use that remove its control entirely from the criminal justice system and ultimately explores the nature of crime and punishment in the U S today

**Rethinking Drug Courts: International Experiences of a US Policy Export** John Collins, Winifred Agnew-Pauley, Alexander Soderholm, 2019-02-15 What are drug courts Do they work Why are they so popular Should countries be expanding them or rolling them back These are some of the questions this volume attempts to answer Simultaneously popular and problematic loved and loathed drug courts have proven an enduring topic for discussion in international drug policy debates Starting in Miami in the 1980s and being exported enthusiastically across the world we now have a range of international case studies to re-examine their effectiveness Whereas traditional debates tended towards binaries like do they work this volume attempts to unpick their export and implementation contextualising their efficacy Instead of a simple yes or no answer the book provides key insights into the operation of drug courts in various parts of the world The case studies range from a relatively successful small scale model in Australia to the large and unwieldy business of drug courts in the US to their failed scale up in Brazil and the small and institutionally adrift models that have been tried in England Scotland Wales and Ireland The book concludes that although drug courts can be made to work in very specific niche contexts the singular focus on them as being close to a silver bullet obscures the real issues that societies must address including but not limited to a more comprehensive and full spectrum focus on diverting drug involved individuals away from the criminal justice system

**Ghost Criminology** Michael Fiddler,Theo Kindynis,Travis Linnemann,2022-01-18 Bringing together prominent early contributions from this emergent perspective the volume traces the origins theory and methodology of a nascent ghost criminology From the powers of exorcism and erasure marshaled by state agents street level struggles over memorialization and memory to the lingering violence of crime scenes and the ghostly traces of outlaw artists Ghost Criminology is a book attuned to that which is well theorized in other disciplines the spectral hauntological apparitional Each of the writers assembled here shares as Mark Fisher 2017 put it a fascination for the outside that which

lies beyond standard perception cognition and experience As such this collection uses cutting edge social and cultural theory to tangle with some of criminology s most stubborn revenants the politics of criminalization the commodification of crime and violence the haunting power of the image as well as the unheard and disregarded cries of the dead ***Courting Kids*** Carla J. Barrett,2013 Despite being labeled as adults the approximately 200 000 youth under the age of 18 who are now prosecuted as adults each year in criminal court are still adolescents and the contradiction of their legal labeling creates numerous problems and challenges In *Courting Kids* Carla J Barrett takes us behind the scenes of a unique judicial experiment called the Manhattan Youth Part a specialized criminal court set aside for youth prosecuted as adults in New York City Focusing on the lives of those coming through and working in the courtroom Barrett s study reflects the costs challenges and consequences the tough on crime age has had especially for young men of color Through observation interviews and the construction of court narratives that trace several kids through the progression of their cases Barrett shows how members of the court worked to develop a humanizing model of justice cognizant of the often difficult realities of adolescent lives Skillfully engaging with some of the most critical issues facing our justice system today from routine judicial practices to the appropriate legal responses to serious adolescent transgression *Courting Kids* is a compelling study of the law in action

sometimes through illegal activity Some are still closeted to their fellow gang members and families yet others fight to defend members of the gay community even those who they deem to be fags despite distaste for these flamboyant members of the community

*The New True Crime* Diana Rickard, 2023-09-05 How serialized crime shows became an American obsession TV shows and podcasts like *Making a Murderer* Serial and *Atlanta Monster* have taken the cultural zeitgeist by storm and contributed to the release of wrongly imprisoned people such as Adnan Syed The popularity of these long form true crime docuseries has sparked greater attention to issues of inequality power social class and structural racism More and more the American public is asking Who is and is not deserving of punishment and who is and is not protected by the law In *The New True Crime* Diana Rickard argues that these new true crime series deserve our attention for what they reveal about our societal understanding of crime and punishment and for the new light they shine on the inequalities of the criminal justice system Questioning the finality of verdicts framing facts as in the eye of the beholder these new series unmoor our faith in what is knowable even as Rickard critically notes they often blur the lines between fact and fiction With a focus on some of the most popular true crime podcasts and streaming series of the last decade Rickard provides an in depth analysis of the ways in which this new media which allows for binge listening or watching makes crime into a public spectacle and conveys ideological messages about punishment to its audience Entertainment values have always been entwined with crime news reporting Newsworthy stories Rickard reminds us need to involve sex violence or a famous person and contain events that can be framed in terms of individualism and conservative ideologies about crime Even as these old tropes of innocent victims and deviant bad guys still dominate these docuseries Rickard also unpacks how the new true crime has been influenced by the innocence movement a diverse group of organizers and activists be they journalists lawyers formerly incarcerated people or family members who now have a place in mainstream consciousness as DNA evidence exonerates the wrongly convicted *The New True Crime* questions the knowability of truth and probes our anxieties about the real nature of true crime media For fans of true crime shows and anyone concerned about justice in America this book will prove to be essential reading

*Halfway House* Liam Martin, 2021-10-19 *Halfway House* draws on three and a half years of intensive ethnographic fieldwork to open a window on the little known web of organizations governing prisoner reentry at the frontier of mass incarceration It tells the story of Joe Badillo along with a small cast of connected characters by following the ups and downs of his unfolding experience as he leaves jail and searches for a place in the world outside while confronting overwhelming obstacles Joe s first stop after release is Bridge House and the author moves into the program as a researcher around the same time he arrives the beginnings of the long term collaboration at the heart of the book This deeply personal account is weaved into a larger analysis of the halfway house as an institution a site of punishment and carceral control as well as housing and social support With a national push underway for decarceration and alternatives to imprisonment it provides an opportunity to rethink the pitfalls and possibilities of using the halfway house to challenge the worst excesses of

mass incarceration      Progressive Punishment Judah Schept, 2015-12-04 The growth of mass incarceration in the United States eludes neat categorization as a product of the political Right Liberals played important roles in both laying the foundation for and then participating in the conservative tough on crime movement that is largely credited with the rise of the prison state But can progressive polities with their benevolent intentions nevertheless contribute to the expansion of mass incarceration In Progressive Punishment Judah Schept offers an ethnographic examination into that liberal discourses about therapeutic justice and rehabilitation can uphold the logic practices and institutions that comprise the carceral state Schept examines how political leaders on the Left despite being critical of mass incarceration advocated for a justice campus that would have dramatically expanded the local criminal justice system At the root of this proposal Schept argues is a confluence of neoliberal style changes in the community that naturalized prison expansion as political common sense for a community negotiating deindustrialization urban decline and the devolution of social welfare While the proposal gained momentum local activists worked to disrupt the logic of expansion and instead offer alternatives to reduce community reliance on incarceration A well researched and well narrated study Progressive Punishment provides an important and novel perspective on the relationship between liberal politics neoliberalism and mass incarceration from back cover      **Comic Book Crime** Nickie D. **The Little Old Lady Killer** Susana Vargas Cervantes, 2019-08-20 The surprising true story of Mexico's hunt arrest and conviction of its first female serial

killer For three years amid widespread public outrage police in Mexico City struggled to uncover the identity of the killer responsible for the ghastly deaths of forty elderly women many of whom had been strangled in their homes with a stethoscope by someone posing as a government nurse When Juana Barraza Samperio a female professional wrestler known as la Dama del Silencio the Lady of Silence was arrested and eventually sentenced to 759 years in prison for her crimes as the Mataviejitas the little old lady killer her case disrupted traditional narratives about gender criminality and victimhood in the popular and criminological imagination Marshaling ten years of research and one of the only interviews that Juana Barraza Samperio has given while in prison Susana Vargas Cervantes deconstructs this uniquely provocative story She focuses in particular on the complex gendered aspects of the case asking Who is a killer Barraza with her manly features and strength her career as a masked wrestler in lucha libre and her violent crimes is presented here as a study in gender deviance a disruption of what scholars call mexicanidad or the masculine notion of what it means to be Mexican Cervantes also challenges our conception of victimhood specifically who counts as a victim The Little Old Lady Killer presents a fascinating analysis of what serial killing often considered killing for the pleasure of killing represents to us *America's Jails* Derek Jeffreys, 2018-06-05 A look at the contemporary crisis in U S jails with recommendations for improving and protecting the dignity of inmates Twelve million Americans go through the U S jail system on an annual basis Jails which differ significantly from prisons are designed to house inmates for short amounts of time and are often occupied by large populations of legally innocent people waiting for a trial Jails often have deplorable sanitary conditions and there are countless records of inmates being brutalized by staff and other inmates while in custody Local municipalities use jails to institutionalize those whom they perceive to be a threat so hundreds of thousands of inmates suffer from mental illness People abandoned by families or lacking health insurance or those who cannot afford bail often cycle in and out of jails In *America's Jails* Derek Jeffreys draws on sociology philosophy history and his personal experience volunteering in jails and prisons to provide an understanding of the jail experience from the inmates perspective focusing on the stigma that surrounds incarceration Using his research at Cook County Jail the nation's largest single site jail Jeffreys attests that jail inmates possess an inherent dignity that should govern how we treat them Ultimately fundamental changes in the U S jail system are necessary and *America's Jails* provides specific policy recommendations for changing its poor conditions Highlighting the experiences of inmates themselves *America's Jails* aims to shift public perception and understanding of jail inmates to center their inherent dignity and help eliminate the stigma attached to their incarceration Hacked Kevin F. Steinmetz, 2016-11-29 Inside the life of a hacker and cybercrime culture Public discourse from pop culture to political rhetoric portrays hackers as deceptive digital villains But what do we actually know about them In *Hacked* Kevin F Steinmetz explores what it means to be a hacker and the nuances of hacker culture Through extensive interviews with hackers observations of hacker communities and analyses of hacker cultural products Steinmetz demystifies the figure of the hacker

and situates the practice of hacking within the larger political and economic structures of capitalism crime and control This captivating book challenges many of the common narratives of hackers suggesting that not all forms of hacking are criminal and contrary to popular opinion the broader hacker community actually plays a vital role in our information economy Hacked thus explores how governments corporations and other institutions attempt to manage hacker culture through the creation of ideologies and laws that protect powerful economic interests Not content to simply critique the situation Steinmetz ends his work by providing actionable policy recommendations that aim to redirect the focus from the individual to corporations governments and broader social issues A compelling study Hacked helps us understand not just the figure of the hacker but also digital crime and social control in our high tech society

**Policing Pain** Kevin Revier, 2025-11-11 How the medicalization of addiction during the U S opioid crisis has driven mass incarceration and mass policing in rural and deindustrialized communities The nationwide opioid public health emergency has led many advocates and public officials to call for drug policy reforms that reject traditional law and order approaches In Policing Pain Kevin Revier approaches the opioid epidemic from an abolitionist framework that seeks to treat people who use opioids not as so called criminals but as people in need of health care Based on two years of ethnographic research in Upstate New York a region highly impacted by overdoses job loss and deindustrialization Revier shows that incorporation of treatment within the criminal justice system has ultimately expanded the scope of the drug war turning individuals into treatable carceral subjects who are both medicalized and criminalized He argues that the incorporation of medical rhetoric and treatment within the criminal legal system maintains a carceral approach in rural and low income areas facing high rates of opioid overdose and economic disinvestment further entrenching the carceral state in the lives of people who use drugs Ultimately Policing Pain explores alternative strategies to promote harm reduction from an abolitionist ethic of care that advocates for people who use drugs while seeking to minimize criminal justice involvement in drug related issues
