Rubens and the Judgement of Paris Fiona Healy, 1997. The Judgement of Paris, the tale of the shepherd prince who gave Venus the prize in a beauty competition, was variously treated by classical writers and became a favourite theme for artists. No painter seems to have responded to the ancient story with more intelligence and enthusiasm than Peter Paul Rubens, who devoted at least eight pictures to it. A Judgement of Paris marks every stage in Rubens' career, so that the present survey, which includes familiar and unfamiliar works, allows an insight into his entire artistic development. Since his illustrations of the subject were intended for a variety of contexts, this study also addresses many aspects of Rubens's practice and production, as well as touching on his later reputation. Rubens's response to the theme is also seen in relation to earlier literary and pictorial tradition. Paris's decision had set a problem for moralists; for his choice had led indirectly to the onset of the Trojan War. Some commentators held that the young man, who had two other goddesses to choose from, should have preferred Minerva, patron of learning, or at least had opted sensibly for wealth in the person of Juno. Allegorical readings have some influence on the depiction and interpretation of the theme in the fifteenth and sixteenth centuries. It is shown how Rubens came to favour the Venetian artistic convention, which focussed on the moment prior to Paris's decision, thus effectively rejecting the interpretation of the Judgement as a moral condemnation. Rubens came to see the myth as a universal image of the problem of choice. But also more specifically, he seems to have associated Paris with the artist as arbiter of beauty, the final theme explored in this illuminating book.

 Oenone: Thou wert silent so long and hadst such a far away look in thine eyes that I wondered where thy fancy might be roving.
 Paris: Where else could it be but among yonder pile of glimmering palaces.
 Ah Oenone, a mighty yearning seems to draw me thither.

The judgment of Paris Daniel Purcell,1700 **Interpreting Cézanne** Sidney Geist,1988 In this remarkable book the sculptor and writer Sidney Geist presents a revolutionary interpretation of the art of C zanne Geist argues that C zanne s paintings are fertile with reflections of the artist s private world and passionate concerns Looking at more than two hundred works all reproduced in the book he identifies the symbolism that gives form to a hidden significance in the paintings concealed allusions to C zanne himself and to his relations with his wife and mother his father his son and his friend Zola as well as a circle of colleagues including Pissarro Frederic Bazille and Ambroise Vollard It is a complex pattern of symbols expressed in both secondary visual images and in verbal connections including rebuses and puns In reading these paintings for symbolic meaning Geist opens the way to a fuller understanding of C zanne as well as to new ways of looking at pictures Interpretation of this kind in its turn explains formal aspects of the paintings with a richness not possible in abstract analysis
