His paintings are not only full of references to ancient classical gods and goddesses but above all they reflect the courtly cosmos of the art chambers and wonder cabinets in which countless exotic and bizarre objects were housed With the decline of this allegorical world vision between the Renaissance and Mannerism Arcimboldo was forgotten only to be rediscovered by modern artists About the Series Each book in TASCHEN s Basic Art series features a detailed chronological summary of the life and oeuvre of the artist covering his or her cultural and historical importance a concise biography approximately 100 illustrations with explanatory captions
