Scoring Instructions

- Remove the perforated strips, and detach the top part of the carbonless form to reveal the scoring sheet.
- Transfer the circled score for each item to the box provided in that item row.
- Sum the item scores in each column, and enter the subtotal in the box at the bottom of the column.
- Transfer the scale subtotals for items 1-32 to the appropriate boxes in the row for subtotals at the bottom of the facing page.
- Sum the two subtotals for each scale, and enter the total in the total raw score score box above the scale name.
- Transfer each scale raw score to the raw score column in the Scoring Summary Table.
- Sum the raw scores for the Inhibit and Self-Monitor scales to obtain the raw score for the Behavior Regulation Index (BRI).
- Sum the raw scores for the Shift and Emotional Control scales to obtain the raw score for the Emotion Regulation Index (ERI).
- Sum the raw scores for the Initiate, Working Memory, Plan/Organize, Task-Monitor, and Organization of Materials scales to obtain the raw score for the Cognitive Regulation Index (CRI).
- Sum the raw scores for the three indexes (BRI, ERI, CRI) to obtain the raw score for the Global Executive Composite (GEC).
- Locate the appropriate normative table in Appendix A of the BRIEF² Professional Manual. Find the raw score for each scale, index, or GEC in the raw score column, and then move across the row to the corresponding T score and percentile. Enter the T score and percentile in the appropriate boxes in the Scoring Summary Table.
- Locate the 90% confidence interval (CI) value for each scale, index, and GEC at the bottom of the appropriate column in the normative table. Calculate the low end and high end of the interval, and enter those values in the appropriate spaces in the Scoring Summary Table.

The focus of this book is on three influential cognitive motives achievement affiliation and power motivation Incentive based theories of achievement affiliation and power motivation are the basis for competence seeking behaviour relationship building leadership and resource controlling behaviour in humans In this book we show how these motives can be modelled and embedded in artificial agents to achieve behavioural diversity Theoretical issues are addressed for representing and embedding computational models of motivation in rule based agents learning agents crowds and evolution of motivated agents Practical issues are addressed for defining games mini games or in game scenarios for virtual worlds in which computer controlled motivated agents can participate alongside human players The book is structured into four parts game playing in virtual worlds by humans and agents comparing human and artificial motives game scenarios for motivated agents and evolution and the future of motivated game playing agents It will provide game programmers and those with an interest in artificial intelligence with the knowledge required to develop diverse believable game playing agents for virtual worlds □□□□, 1969 **Handbook of Personality** Oliver P. John, Richard W.

Robins, Lawrence A. Pervin, 2010-11-24 This authoritative handbook is the reference of choice for researchers and students of personality Leading authorities describe the most important theoretical approaches in personality and review the state of the science in five broad content areas biological bases development self and social processes cognitive and motivational processes and emotion adjustment and health Within each area chapters present innovative ideas findings research designs and measurement approaches Areas of integration and consensus are discussed as are key questions and controversies still facing the field **Personality in the Social Process** J. Aronoff, J. P. Wilson, 2014-06-11 First published in 1985 This book presents a new way to ask an old question Many fields have considered the nature of the influence that members of a group exert on the course of social events Social science provides another way to examine this issue Moreover social science has a particular strength It helps us to phrase questions more precisely than before it encourages us to follow a line of reasoning

systematically and it requires us to evaluate our ideas in light of a particular kind of evidence The authors want to use these strengths to explore systematically the ways that factors in the person and in the environment together may shape the emergence of social behavior
