Lost Worlds Adventures In The Tropical Rainforest:

Lost Worlds Bruce M. Beehler, 2008-10-01 Perhaps it is not possible to experience all the mysterious sounds the unfamiliar smells and the spectacular sights of a tropical rainforest without ever visiting one But this exhilarating and honest book comes wondrously close to taking the reader on such a journey Bruce M Beehler a widely traveled expert on birds and tropical ecology recounts fascinating details from twelve field trips he has taken to the tropics over the past three decades As a researcher he brings to life the exotic rainforests and the people who inhabit them as a conservationist he makes a plea for better ways of managing rainforests a resource that the world cannot do without Drawing on his experiences in Papua New Guinea India Madagascar Indonesia the Philippines Panama and the Ivory Coast Beehler describes the surprises both pleasant and unpleasant of doing science and conservation in the field He explains the role that rainforests play in the lives of indigenous peoples and the crucial importance of understanding local cultures customs and politics The author concludes with simple but tough solutions for maintaining rainforest health expressing fervent hope that his great grandchildren and others may one day also hear the rainforest whisper its secrets

Lost Worlds Bruce McP. Beehler, 2008 Bird and tropical ecology expert Bruce Beehler discusses his experiences while performing his field research in Papua New Guinea India Madagascar Indonesia the Philippines Panama and the Ivory Coast and defines the role that rainforests play in the lives of the indigenous peoples that occupy them

The Woodhen Clifford Frith, 2013-06-12 This book tells the fascinating success story of saving the flightless Woodhen of Lord Howe Island This unique large rail an iconic and highly endangered Australian bird was at the very brink of extinction with just 15 individuals found in 1980 when bold and risky actions were taken to save it The book begins with the discovery and ecology of Lord Howe Island It then details the history of the Woodhen its place among the rails and their evolution of flightlessness the planning implementation and trials tribulations and successes of the captive breeding programme and the

way in which the wild population recovered The ecology behaviour and breeding biology of this unique flightless island rail are also discussed The text is accompanied by numerous photographs and drawings This is a story of survival yet the bird remains highly endangered as it is under constant potential threat which could tip it over the brink and to extinction The Woodhen provides gripping insights into the potential for both losing and saving vertebrate species Winner of a 2014 Whitley Awards Certificate of Commendation for Historical Zoology

Natural Encounters Bruce M. Beehler, 2019-05-21 A twelve month excursion through nature s seasons as recounted by a lifetime naturalist In this personal encyclopedia of nature s seasons lifetime naturalist Bruce Beehler reflects on his three decades of encountering nature in Washington D C The author takes the reader on a year long journey through the seasons as he describes the wildlife seen and special natural places savored in his travels up and down the Potomac River and other localities in the eastern and central United States Some of these experiences are as familiar as observing ducks on the National Mall in Washington D C or as unexpected as collecting fifty million year old fossils on a Potomac beach Beyond our nation s capital Beehler describes trips to nature s most beautiful green spaces up and down the East Coast that he says should be on every nature lover s bucket list Combining diary entries riffs on natural subjects field trips photographs and beautiful half tone wash drawings this book shows how many outdoor adventures are out there waiting in one s own backyard The author inspires the reader to embrace nature to achieve a more peaceful existence

Engaged Anthropology Stuart Kirsch, 2018-03-30 Does anthropology have more to offer than just its texts In this timely and remarkable book Stuart Kirsch shows how anthropology can and why it should become more engaged with the problems of the world Engaged Anthropology draws on the author s experiences working with indigenous peoples fighting for their environment land rights and political sovereignty Including both short interventions and collaborations spanning decades it recounts interactions with lawyers and courts nongovernmental organizations scientific experts and transnational corporations This unflinchingly honest account addresses the unexamined backstage of engaged anthropology Coming at a time when some question the viability of the discipline the message of this powerful and original work is especially welcome as it not only promotes a new way of doing anthropology but also compellingly articulates a new rationale for why anthropology matters

Australia's Lost World Michael Archer, Suzanne Hand, Suzanne J. Hand, Henk Godthelp, 2000 In Queensland in northeast Australia lies one of the most significant fossil deposits in the world Riversleigh Here the remains of many thousands of weird and wonderful prehistoric animals have been superbly preserved in the limestone outcrops There are marsupial lions carnivorous kangaroos 23 foot long pythons primitive platypuses and early ancestors of the now extinct Tasmanian tiger So important is this site to our understanding of what has happened to Australia and its living cargo over the last 25 million years that Riversleigh has been inscribed on the World Heritage List Michael Archer Suzanne J Hand and Henk Godthelp the principal scientists on a remarkable excavation since 1976 explain the vast environmental and geographic changes that have occurred in this area since Australia broke away from the

supercontinent of Gondwana and how the animals on board this continental raft evolved through the ages Photographs and evocative artwork bring to life the teeming tropical world that once existed in the now arid wastes of Riversleigh and the authors discuss some of the unusual techniques used on a dig They describe how to recognize fossils how to date them and how to reconstruct extinct animals from them Originally published as Riversleigh The Story of Animals in Ancient Rainforests of Inland Australia this award winning book is being issued for the first time in the United States *Official Meeting*

50 Simple Steps to Save the World's Rainforests Kim Henderson, The Green Patriot Working Group, 2012-03-12 Despite the very best conservation and environmental policy making efforts at least 80 000 acres of tropical rainforest disappear each day If action is not taken now experts estimate that the world's rainforests will mostly disappear within 50 years Currently the destruction of tropical forests is responsible for 17 percent of man made carbon emissions more than what comes from all the world's cars airplanes and ships combined Tropical rainforests need our help and that's where 50 Simple Steps to Save the World's Rainforests comes in The future of the world's rainforests lies to a large extent in the collective hands of consumers and how they shop since demand is what fuels the forces driving deforestation agriculture logging and resource extraction Through the 50 step journey you will learn how as a consumer you may unwittingly support rainforest destruction and more importantly precisely how you can make different choices that help save rainforests For example you will learn how your paper use and purchases of rayon clothing affect Indonesian rainforests where Sumatran tigers are critically endangered or how simply eating Brazil nuts helps save the Amazon rainforest You will discover how the cultivation of palm oil a common ingredient in confections baked goods soaps and biofuels is fueling rampant deforestation in Malaysia Indonesia and Papua New Guinea and how you can avoid it 50 Simple Steps to Save the Rainforests is the ultimate primer for anyone wanting to take action to help save this ecosystem which is so critical to the future of mankind **Birds**

in Books Aasheesh Pittie, 2010 The history of South Asian ornithology spans three centuries and records over 1200 species of birds This is the passionate work of hundreds of amateur and professional ornithologists The popular as well as scientific documentation of this region's avifauna is prodigious **Choice**, 2008 Adventure Guide to Costa Rica Bruce Conord, June Conord, 2002-03 Written by the authors of our award winning Yucatan Adventure Guide this book offers comprehensive coverage of Costa Rica and its people Travel to the major national parks and preserves hike in rain forests Explore the island's vibrant history culture and wildlife Firsthand advice on travel in the country's various environments mountain jungle beach city Plant and animal life archaeology history attractions on and off the regular tourist path *World Ecological Degradation* Sing C. Chew, 2001 Deforestation soil runoff salination pollution While recurrent themes of the contemporary world they are not new to us In this broad sweeping review of the environmental impacts of human settlement and development worldwide over the past 5 000 years Sing C Chew shows that these processes are as old as civilization itself With examples ranging from Ancient Mesopotamia to Malaya Mycenaean Greece to Ming China Chew shows that the processes of population growth intensive resource accumulation and urbanization in ancient and modern societies almost universally bring on ecological disaster which often contributes to the decline and fall of that society He then turns his eye to the development of the modern European world system and its impact on the environment Challenging us to change these long term trends Chew also traces the existence of environmental conservation ideas and movements over the span of 5 000 years Can we do it Look at Chew's evidence of the past five millennia and decide Ideal for courses in environmental history anthropology and sociology and world systems theory Encyclopedia of Science and Technology Communication Susanna Hornig Priest, 2010-07-14 In the academic world the term science communication refers both to a set of professions such as science journalism and public information work and to an interdisciplinary scholarly research specialization Much of this research is aimed at improving our understanding of the best ways to communicate complex information especially to people who are not scientists Science communication specialists are concerned with giving people useful information about health environment and technology as well as science itself In order to do this we also need to improve our understanding of how people think form opinions and process information Additionally professional practitioners in science communication are engaged in strategic and ethical decisions every day such as How should reporters cover the issue of climate change Should the views of scientists who do not believe that climate change has been caused by human activity be included alongside the views of those who do in order to give a balanced story or does this mislead the public into thinking that both of these positions are equally accepted within the scientific community The Encyclopedia of Science and Technology Communication provides information on the entire range of interrelated issues in this interdisciplinary field in one place along with clear suggestions on where to begin the search for more Geared towards undergraduate and graduate students in journalism communication mass communication and media studies as well as towards working journalists public information officers and

public relations specialists this encyclopedia introduces this vast fascinating field while challenging the reader to question assumptions inherent in communication across disciplinary boundaries
