

Health Issues in the Homeless Youth Population

Meera S. Beharry, MD, FAAP

Approximately 2 million youth in the US experience homelessness annually. A hidden and high-risk population, these youth have unique medical and psychosocial needs that contribute to or are a result of their homelessness.

Homeless youth often share temporary shelter with others, or congregate in secret locations due to fear of being discovered by parents, legal guardians, or law enforcement. Therefore, counts of homeless youth have yielded widely disparate numbers. The most commonly cited figure is that 1.5 million to 2 million American youth will experience homelessness each year.

Recent data from the Department of Housing and Urban Development (HUD) estimate that about 8,000 children younger than the age of 18 years and an additional 50,000 to 100,000 young people age 18 to 24 years are homeless on any given night.¹

HOMELESS YOUTH'S DEFINED

There are a variety of ways to define this population. Legal definitions of homelessness are provided by the McKinney-Vento Act and HUD. According to the McKinney-Vento Act, "homeless" people "lack a fixed, regular, and adequate nighttime residence." This definition includes children and young people who are living in shelters, hotels, bus stations, and cars. It also includes children in migratory and homeless families.²

HUD defines youth who are "unstable housed" as "unaccompanied youth who have not had a lease or ownership interest in a housing unit in at least 90 days, have had three or more moves in the past 90 days, and who are likely to continue to be unstably housed." While these definitions are helpful in program development, they are rather dry and of limited clinical use.

Clinicians and researchers who work with homeless youth have developed terms to reflect the etiology of homelessness. Youth who run away only for a few nights and return home are termed "situational runaways." When these young people no longer return home, they are called "run-aways." "Throw-aways" are young people who were kicked out of their homes for any reason. Youth generally cite family discord and abuse, family financial problems, or social differences from their family, such as teen pregnancy or different sexual orientation, as a reason for being thrown out. "Systemic youth" refers to young people who become homeless after exiting the foster care or juvenile justice system.³

Depending on the etiology of their situations, homeless adolescents will present with differing medical and psychosocial problems. However, for fear of being

This book presents an unflinching investigation of homelessness in the United States a problem that has been with us since the arrival of the first English settlers nearly 400 years ago The terms historically used to describe them include bums hobo migrants street people transients tramps and vagrants Just as varied as the words we have used to describe them are the reasons many people have found themselves living in the land of opportunity without permanent residence The book considers homelessness and its distinctive character in three periods of American history the era of tramps and hoboes in the late 1800s early 1900s the era of transients and migrants in the 1930s and the era of homeless and street people in the last 40 years It clarifies the multiple meanings of the word homeless today and demonstrates that homelessness is a symptom of more than one problem leading to confusion about the issue of homelessness and hampering attempts to reduce its occurrence Author Neil Larry Shumsky PhD also postulates that the treatment of homelessness in England before the colonization of North America laid the foundation of pervasive American attitudes and practices **Framing Class** Diana Kendall,2011-04-16 Framing Class explores how the media including television film and news depict wealth and poverty in the United States Fully updated and revised throughout the second edition of this groundbreaking book now includes discussions of new media updated media sources and provocative new examples from movies and television such as The Real Housewives series and media portrayals of the new poor and corporate executives in the recent recession The book introduces the concepts of class and media framing to students and analyzes how the media portray various social classes from the elite to the very poor Its accessible writing and powerful examples make it an ideal text or supplement for courses in sociology American studies and communications *No Way Home* Wayne Winegarden,Joseph Tartakovsky,Kerry Jackson,Christopher F.
