Space, Time and Quantification in the YiChing Yancheng Yang, 2025-10-16 This book explores linguistic representations and cultural conceptualizations of the relationship between time and space in ancient China as expressed by the YiChing The YiChing an ancient Chinese divination manual based on hexagrams is one of the oldest of the Chinese classics and a foundational text for the Confucian and Daoist philosophical traditions Its hexagrams represent the internal logic of the world or universe as a dynamic whole alternating the processes of events based on the conceptual unity of space and time and their quantification This book is the first in depth examination of time and space and their quantification in the YiChing from the perspective of cognitive linguistics Through detailed analysis of motion and life metaphors it argues that space and time which in turn shapes how quantification is expressed is a unified concept in China Offering distinctive Chinese perspectives this insightful

Understanding the I Ching Hellmut Wilhelm,Richard Wilhelm,1995 The West's foremost translator of the I Ching Richard Wilhelm thought deeply about how contemporary readers could benefit from this ancient work and its perennially valid insights into change and chance For him and for his son Hellmut Wilhelm the Book of Changes represented not just a mysterious book of oracles or a notable source of the Taoist and Confucian philosophies In their hands it emerges as it did for C G Jung as a vital key to humanity's age old collective unconscious Here the observations of the Wilhelms are combined in a volume that will reward specialists and aficionados with its treatment of historical context and that will serve also as an introduction to the I Ching and the meaning of its famous hexagrams **The Allure of the Nation** Tze-ki Hon,2015-03-20

Covering half a century from 1895 to 1945 *The Allure of the Nation* examines three interlocking aspects of Chinese nationalist modernity 1 the quest to balance global connectivity and ethnic authenticity 2 the desire to balance national unity and local autonomy 3 the drive to balance history's place as a tool of political propaganda and as a weapon used to critique orthodoxy and political suppression By viewing the nation as a cluster of spatial temporal relations that link individuals to a territorial state this book provides a different view of early twentieth century China where the party state did not have full control of political and cultural affairs and alternative political perspectives such as local self government and democratic aristocracy could be freely expressed **Lectures on the I Ching** Richard Wilhelm,2014-07-14 Wilhelm frequently wrote and lectured on the Book of Changes supplying guidelines to its ideas and ways of thinking Collected here are four lectures he gave between 1926 and 1929 The lectures are significant not only for what they reveal about Chinese tradition and

culture but also for their reflections of the scholarly and cultural milieu prevalent in Germany during that time Originally published in 1979 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *Appropriating the Dao* Lukas K. Smith, 2013-05-20 From the founding of the Qin dynasty in 221 BCE to the present the Chinese have been preoccupied with the notion of ordering their world Efforts to create and maintain order are expressed not only in China s bureaucratic institutions and methods of social and economic organization but also in Chinese philosophy religious and secular ritual and comprehensive systems of classifying all natural and supernatural phenomena Mapping China and Managing the World focuses on Chinese constructions of order zhi and examines the most important ways in which elites in late imperial China sought to order their vast and variegated world This book begins by exploring the role of ancient texts and maps as the two prominent symbolic devices that the Chinese used to construct cultural meaning and looks at how changing conceptions of the world shaped Chinese cartography whilst both shifting and enduring cartographic practices affected how the Chinese regarded the wider world Richard J Smith goes on to examine the significance of ritual in overcoming disorder and by focusing on the importance of divination shows how Chinese at all levels of society sought to manage the future as well as the past and the present Finally the book concludes by emphasizing the enduring relevance of the Yijing Classic of Changes in Chinese intellectual and cultural life as well as its place in the history of Sino foreign interactions Bringing together a selection of essays by Richard J Smith one of the foremost scholars of Chinese intellectual and cultural history this book will be welcomed by Chinese and East Asian historians as well as those interested more broadly in the culture of China and East Asia

Revolution As Restoration Tze-Ki Hon, 2013-03-01 Revolution as Restoration examines the journal Guotui xueaao 1905 1911 to elucidate the momentous political and social changes in early twentieth century China Rather than viewing the journal as a collection of documents for studying a thinker e g Zhang Taiyan a concept e g national essence or an intellectual movement e g cultural conservatism this book focuses on the global network of commerce and communication that allowed independent publications to appear in the Chinese print market As such this book offers a different perspective on the

Chinese quest for modernity It shows that from the start the Chinese quest for modernity was never completely orchestrated by the central government nor was it static and monolithic as the teleology of revolution describes Book jacket The Primary Way Chung-ying Cheng,2020-09-01 In The Primary Way the distinguished scholar of Chinese philosophy Chung ying Cheng synthesizes his lifetime of work on the Yijing also known as the I Ching or Book of Changes Cheng offers a systematic engagement with the classic Chinese text as a philosophy that is still valuable and relevant today In contemporary philosophical terms Cheng has developed the ontological hermeneutics of the Yijing as well as its philosophical methodology of symbolic reference in a holistic and onto generative system of trigrams and hexagrams The book is organized around eight themes that illuminate Cheng s interpretation of the Yijing as a philosophy for creative human action and transformation He demonstrates how the philosophy of change in the Yijing embodies early Chinese ontology cosmology epistemology and virtue ethics in the interpretation of divinatory judgments Cheng s work shows how the philosophy of change contains a vision of humanity as creatively related to heaven and earth and how it gives positive meaning to any change as part of a ceaseless creativity With this understanding it enables humanity to develop its potential as a partner of heaven and earth
