Third Edition ,1761 The Age of Dreaming Nina Revoyr,2021-05-26 In 1960s L A a Japanese American former silent film star investigates a mystery from his dark past in this novel by the author of Southland Jun Nakayama was a silent film star in the early days of Hollywood By 1964 he is living in complete obscurity until a young writer Nick Bellinger tracks him down for an interview When Bellinger reveals that he has written a screenplay with Nakayama in mind Jun is intrigued by the possibility of returning to movies But he begins to worry that someone might delve too deeply into the past and uncover the events that abruptly ended his career in 1922 Like the changing social and racial tides in California and the unsolved murder of his favorite director Spurred on by his fear of a potential misunderstanding Jun begins to track down his surviving acquaintances from his years as Perennial Pictures greatest star In the process he recounts the lives of several other figures from the silent film era Elizabeth Banks the working class girl from St Louis who becomes a major Hollywood diva Nora Minton Niles the dreamy childlike teenage star controlled by her ambitious mother Hanako Minatoya the elegant actress and playwright who serves as Jun s inspiration and foil And Ashley Bennett Tyler the British director whose guiding hand turns Jun into a star But what Jun ultimately discovers is far more complex and personal than even he could have imagined The Age of Dreaming alternates between the 1960s and the height of the silent film era telling the story of a man caught between worlds Jun must try to please both his Japanese and American fans and while he is adored by moviegoers especially women he s despised by public officials who see him as a threat to American power and racial purity Praise for The Age of Dreaming With Nabokov worthy sentences characters so real our hearts begin to beat with theirs and a story as deeply mysterious and riveting as any the Hollywood it conjures up could have created The Age of Dreaming is a masterpiece of the sort that doesn t just seduce the reader it leaves you transformed Revoyr deserves to be counted among the top ranks of novelists at work today Jerry Stahl author of I Fatty Brilliant and original The carefully restrained voice of its narrator recalls Ishiguro s The Remains of the Day Alison Lurie Pulitzer Prize winner Cunning Revoyr beautifully invokes Jun s self deceptions and his growing self awareness It s an enormously satisfying novel Publishers Weekly *The Day of rest* ,1876**

Children's Books from Other Countries Carl M. Tomlinson,1998-01-15 Every child is entranced by the magic of story regardless of national boundaries Many of the most memorable childhood stories have their origins in other countries Exposing children to this multi national body of literature introduces them to the great diversity of people and cultures that populate the world at a young age enabling them to become more thoughtful and generous individuals Children s Books from Other Countries is a complete and current guide to international children s literature The concept of a bibliography of international children s literature is not new In the past many books have accomplished this task The last two decades

however have not yet produced a current reference source devoted to international children's books. *Children's Books from Other Countries* wonderfully rectifies this lack of attention. An introductory essay provides an overview of the field including a discussion on the rationale of sharing international books with children, a brief history of the children's literature movement, related books and awards, and basic information about the International Board on Books for Young People (IBBY) and its American branch, the United States Board on Books for Young People (USBBY). An annotated bibliography contains over 700 titles from 29 different countries printed between 1950 and 1996. All titles are available in English; many have been translated, and others have originated in other English-speaking countries. The titles are organized by genre and have been selected for their high quality. They are primarily targeted for children ages 0-14, although a few outstanding young adult titles are included. Winners of the Mildred Batchelder Award and the Hans Christian Andersen Medal are listed in the appendix. Indexes include Author, Title, Index, Country of Origin, Index, and Subject Index. Affordable and readable, this timely resource is certainly a must for librarians and teachers and other professionals working with children. Sponsored by the United States

Learning Through Talk in the Early Years Elizabeth Sharp, 2005-09-14. This book is aimed at class teachers of Reception to Year 3 seeking ideas to develop their pupils' speaking and listening skills. The author describes each activity in an easy-to-follow format with links to the relevant curriculum targets. The most valuable part of the book is the commentary from the author's own teaching experience. This provides some useful insights, such as the fact that the flow of children's ideas was improved while they had a discussion while engaged in drawing. The book is easy to read. It provides a practical guide to some tried and tested speaking and listening activities which may be useful for the beginning Foundation or Key Stage 1 teacher. Special Do the children in your class need help with language and listening skills? Lots of ideas and suggestions for activities using and encouraging talk in the classroom make this book a lively practical guide to encouraging young children to develop their verbal reasoning skills and to communicate more effectively. There is advice on how to tie in these activities with the various curriculum subjects and the following are covered: setting up a talk corner, using story bags and story boxes, using Circle Time and playing games to encourage talk. In each activity, there are directions for helping children with Special Educational Needs, working with Teaching Assistants (TAs) and other adults in the classroom, planning and assessing work, and finding suitable resources. A selection of photocopiable material is included, and all the suggestions and ideas in the book have been tried and tested by the author in her own classroom. The focus of this book is on young children aged 5 to 8, but the activities can be adapted to suit those younger or older.
