# Acid or Base?

Let's become more familiar with the things classified as acid or base. Each student will play this game individually, and two cards are placed in front with the words acid and base. For every category announced, each student will line up on the card acid or base if they think the said category belongs to acid or base; they will line up in the middle if it is neutral. The student/s who reaches the last category with all correct answers will have additional points. Mark a check for every category that you have the correct answer.
