Statement of inquiry		
Representations of relationships and models promote personal agency and positive attitudes to motivate and bring happiness to yourself and others.		
Inquiry questions		
Factual: What is the relationship between an expression and equation? Conceptual: How do diagrams and equations relate to one another? Debatable: What is the best diagram to show the relationships in expressions and equations?		
Objectives	Summative assessment	
Criterion D Objective D: Applying mathematics in real-life contexts i. identify relevant elements of authentic real-life situations ii. select appropriate mathematical strategies when solving authentic real life situations iii. apply the selected mathematical strategies successfully to reach a solution iv. explain the degree of accuracy of a solution v. describe whether a solution makes sense in the context of the authentic real-life situation.	Outline of summative assessment task(s) including assessment criteria: G-Your goal is to show how the representations of relationships and models promote personal agency and positive attitudes to motivate and bring happiness to yourself and others. R-You are a teacher at a school that has had a hard year with students who need cheering up. A-Your audience is the children on your middle school team and the principal of your school. S-You need to plan a party to bring happiness and motivation to your students who are having a hard year. P-You will use the relationships of quantities and visual models of party costs to determine the best combinations of food,	
	Relationship between summative assessment task(s) and statement of inquiry: The summative assessment task meets our goal of the statement of inquiry by having students connect their understanding of mathematical relationships and how they can be expressed as representations and models, and how that relates to a real-life problem to solve. Our statement of inquiry relates to the summative assessment through the creation of an end of the year celebration for their fellow
