

4.1.8.3 The senior aircraft operator representative shall make arrangements for transportation of uninjured persons from the accident site to the designated uninjured holding area. Transportation of the "walking injured" from the scene should be permitted only after consultation with the medical co-ordinator.

4.1.8.4 The aircraft operator staff shall proceed to the designated uninjured holding area. The senior aircraft operator representative at the uninjured holding area will appoint qualified receptionists, registrars, and welfare co-ordinators from the staff.

4.1.8.5 The aircraft operator representative who is in command of the uninjured holding area will oversee those operations by making arrangements for additional medical services (if required), commissary items, clothing, telephone facilities, etc.

4.1.8.6 The receptionists should meet the transporting vehicles as they arrive from the scene of the accident and direct the passengers to the registrars' tables where they will be processed. The receptionists should know where toilet facilities are located. Migration from the holding area should be prevented until each person transported to the holding area is identified and processed according to the airport emergency plan.

4.1.8.7 The registrars will record the passenger's name on the manifest and determine desired reservation requirements, i.e. hotel accommodations, air transportation or other modes of transportation, etc. Registrars should list any persons to be notified of the passenger's physical and/or mental condition and potential plans. The registrar will then place an identification tag or sticker (available from the emergency kit, see Appendix 7, paragraph 10) on the passenger. The registrars will direct the passengers to the welfare co-ordinators when registration has been completed.

4.1.8.8 Welfare co-ordinators and mental health specialists trained in stress management should:

- a) give support and comfort to relatives and friends of passengers and crew members on board the aircraft;
- b) register relatives and friends waiting at the airport for information about persons on board; and
- c) provide care, comfort, and assistance to the "walking injured", uninjured survivors and responding personnel (if required).

4.1.8.9 The aircraft operator or its representative will provide notification of the aircraft accident to:

- a) health and welfare agencies;
- b) customs, where applicable;
- c) immigration, where applicable;
- d) post office; and
- e) environmental agencies, where applicable.

4.1.8.10 A senior aircraft operator official will be responsible for the initial notification of relatives and friends.

4.1.8.11 News releases by aircraft operators will be prepared in co-ordination with the airport public information officer and liaison officers from other agencies involved in the accident.

4.1.8.12 The aircraft operator is responsible for the removal of the wrecked or disabled aircraft, but only after receiving authorization from the aircraft accident investigation authority. For further information, see the *Airport Services Manual* (Doc 9137), Part 5 — *Removal of Disabled Aircraft*.
