

STUDY GUIDE FOR MODULE NO. 1

DEFINITION, GOALS, AND SCOPE OF SPECIAL AND INCLUSIVE EDUCATION

MODULE OVERVIEW

Proper and good education is very important for all of us. It facilitates quality learning all through the life among people of any age group, race, status, color, religion and region. It is the process of achieving knowledge, values, skills, beliefs, and moral habits. Education is very necessary for each and everyone in order to improve knowledge, way of living as well as social and economic status throughout the life. All citizens have the right to education even those persons with disabilities. Two concepts are important here i.e., Inclusive Education and Special Education.

Special education is the practice of providing individualised instruction and support to students with disabilities or learning difficulties. It is designed to be need-based and individualised, which means that every student in special education will have a different plan depending on their needs, abilities and goals. Inclusive education, on the other hand, is the practice of educating students with disabilities alongside their peers without disabilities, in the same classroom. It is meant for all learners. Inclusive education is based on the premise that all students develop and learn differently, and therefore one fixed way of teaching and learning cannot ensure successful outcomes for all. (Bhalla, 2020)

On this learning module, you will understand more the definition, goals, and scope of Special and Inclusive Education. Also, historical timeline will be discussed in this module to further understand and be aware of the development of Inclusive and Special Education.

MODULE LEARNING OBJECTIVES

At the end of this Module, you should be able to

1. To be able to define the different terms in Special and Inclusive Education
2. To be able to spell out the different acronyms related to Inclusive Education
3. To be able to construct meanings of the different terms and acronyms
4. To be able to make use of timeline in discussing the historical foundations of special and inclusive education

DEFINITION, GOALS, AND SCOPE OF INCLUSIVE AND SPECIAL EDUCATION

Definition**Inclusive Education**

Inclusive education means different and diverse students learning side by side in the same classroom. They enjoy field trips and after-school activities together. They participate in student government together. And they attend the same sports meets and plays.

Special Education

Special education (also known as special needs education, aided education, exceptional education or Special Ed) is the practice of educating students in a way that addresses their individual differences and needs. Ideally, this process involves the individually planned and systematically monitored arrangement of teaching procedures, adapted equipment and materials, and accessible settings. These interventions are designed to
