Ice Age Civilizations:

Ice Age Civilizations James I. Nienhuis, 2006 The Life Cycle of Civilizations Stephen Blaha, 2002 This book is an expanded version of *The Rhythms of History* the book that made macro History into a semi quantitative Science New features include 1 an appendix showing how the history of Mayan civilization conforms to the book's Theory of Civilizations including the latest information from the newly discovered hieroglyphic texts at Dos Pilas Guatemala 2 an appendix on the sub Saharan African civilization Great Zimbabwe showing it fits the theory 3 a comparison of the theory with Toynbee's observations showing the many new features resulting from a quantitative theory 4 numerous historic pictures and illustrations of the civilizations of Mankind including a number of newly found pictures from the nineteenth century 5 a chapter describing the potentially disturbing implications of patterns in civilizations Are we free and the implications for the Philosophy of History and 6 expanded comments in many sections such as the sections on the future of Humanity the role of China and the Islamic West conflict The book begins with a hard hitting tell it like it is chapter on the current international situation with statements such as The United States and Western civilization is now engaged in a small Vietnam style war on a global scale at the time of this writing This war is still in the early stages of development The attack on the World Trade Center by Muslim terrorists may have the same significance for Western civilization that the Gothic invasion of Rome itself in the prime of the Empire the First Century AD had for the future of Rome They may be a premonition of things to come not necessarily soon but perhaps in a few centuries The Goths returned three centuries later and remained as permanent conquerors Over the long term the West must free itself from a dependence on Muslim oil Muslim oil revenues are the fuel for the development of weapons of mass destruction by Iran and Iraq In the future they will supply the revenues of an expansionist Islam As the silk trade looted the Roman Empire of its gold and reduced its economy the trade in oil is looting the West of its prosperity and freedom of action The rise and fall of oil prices has a significantly greater effect on the American and world economy than the raising and lowering of interest rates by central banks The book then describes a theory of civilizations that led to these observations Currently unfolding events seem to be fulfilling the predictions which were made last year including the new North Korean threat that seems to be consistent with a predicted breakdown in Japan North Korea will create major problems with Japan As this is being written Japan is moving Aegis destroyers nearer to North Korea and preparing for defense THE EVENTS DESCRIBED IN THIS BOOK AND ITS PREDECESSOR APPEAR TO BE HAPPENING AS PREDICTED LAST YEAR According to Theory of Civilizations the basis of civilizations was laid with a genetic mutation found by Ding et al 40 000 years ago that created bold enterprising individuals who became the leadership group of civilizations a group that Toynbee called the creative minority When the world's climate became warmer and more stable 10 000 years ago the seeds of civilizations began to germinate Thus the origin of civilizations is tied to human genetics The book then shows that a long term social behavior pattern of mankind based on four generation trends causes civilizations to develop and

oscillate in patterns of routs and rallies Civilizations rise and fall due to their internal human dynamics The theory of civilization is developed using equations and 68 diagrams that show a close detailed match between the theory and the actual history of all known Asian European and African civilizations over the last 5 500 years The theory projects the future of today s civilizations including the future of Western and Islamic civilizations It also successfully describes the interaction of barbarians and civilizations the interaction of two civilizations the impact of modern technology on civilizations it accounts for the Luddite reaction to the Industrial Revolution the impact of major environmental events on civilizations e g the collapse of Minoan civilization due to a volcanic eruption and the disintegration of civilizations It also accounts for the tremendous growth phases seen in many civilizations such as the building of the great pyramids in Egyptian civilizations Based on the theory fifteen new civilizations are identified including new prehistoric Chinese and Egyptian civilizations Having shown the success of the theory for earth civilizations it considers the form of extraterrestrial civilizations and calculates their impact on Western civilization should contact be established The book also shows the need for the colonization of space and nearby planets if mankind is to progress in the future The book analyzes the impact of the lengthening life spans of mankind on the future of civilizations Predictions are made for the state of the world for 2050 and 2100 A detailed understanding the past enables the theory of civilizations to make predictions for the future Defining Progress to be the sum of the world s civilizations the book shows that Progress seems to be approximately linearly increasing over the last 5 500 years A plot of Progress appears on the book s cover shown on this web page together with the contributions of each civilization to Progress The vertical order of the civilizations in the plot is arbitrary Older civilizations tend to be lower in the plot The book is a tour de force that makes History a Science rather than a collection of random events It is the first detailed mathematical treatment of history Although the book contains mathematics it is intended for the general reader as well as the mathematically inclined There are copious verbal descriptions of the theory as well as many figures plotting the theory versus historical events A qualitative descriptive theory of civilizations is also presented that is like a Dow Theory of Civilizations

Ice Age Hidden History Learn Alchemical,2025-08-28 What if the story of civilization did not begin in Mesopotamia Egypt or the Indus Valley but thousands of years earlier in the shadows of the Ice Age Ice Age Hidden History challenges the conventional timeline and explores the possibility that advanced human cultures once thrived long before recorded history only to be erased by floods climate upheaval and the rising seas of a world in transition From the megalithic enclosures of G bekli Tepe to the enigmatic Yonaguni Monument beneath the Pacific from the drowned plains of Doggerland to the colossal stones of Baalbek this book journeys across the globe to investigate anomalies that defy orthodox explanations Were these structures the work of scattered hunter gatherers or do they hint at a deeper legacy a mother culture whose knowledge and memory survive only in myths of flood fire and forgotten gods Drawing on archaeology geology genetics and comparative mythology Ice Age Hidden History reveals how fragile our vision of the past truly is and

how much remains buried beneath the earth and sea Far from idle speculation this is a serious inquiry into the gaps controversies and overlooked evidence that challenge the story we've been told Readers are invited to look again at the ruins the myths and the science and to consider the unsettling possibility that civilization is not a one way climb but a cycle of rise destruction and rebirth Ice Age Hidden History is for seekers of the ancient mysteries lovers of archaeology and anyone willing to entertain the notion that the human story is far older stranger and richer than we dare imagine **The**

Cro-Magnon Brian Fagan,2011-05-17 Cro Magnons were the first fully modern Europeans not only the creators of the stunning cave paintings at Lascaux and elsewhere but the most adaptable and technologically inventive people that had yet lived on earth The prolonged encounter between the Cro Magnons and the archaic Neanderthals between 45 000 and 30 000 years ago was one of the defining moments of history The Neanderthals survived for some 15 000 years in the face of the newcomers but were finally pushed aside by the Cro Magnons vastly superior intellectual abilities and cutting edge technologies What do we know about this remarkable takeover Who were these first modern Europeans and what were they like How did they manage to thrive in such an extreme environment And what legacy did they leave behind them after the cold millennia This is the story of a little known yet seminal chapter of human experience From publisher description

Maps of the Ancient Sea Kings Charles H. Hapgood,1966 Hapgood utilizes ancient maps as concrete evidence of an advanced worldwide civilization existing many thousands of years before ancient Egypt Hapgood concluded that these ancient mapmakers were in some ways much more advanced in mapmaking than any people prior to the 18th century Hapgood believes that they mapped all the continents This would mean that the Americas were mapped thousands of years

before Columbus Antarctica would have been mapped when its coasts were free of ice Hapgood supposes that there is evidence that these people must have lived when the Ice Age had not yet ended in the Northern Hemisphere and when Alaska was still connected with Siberia by the Pleistocene Ice Age land bridge The Conflict of the Ages Teacher Edition IV Ice Age Civilizations Michael J. Advanced Ice Age Civilizations and Atlantis , Lost Civilizations Jim Willis, 2019-10-01 Unearthing the scientific evidence myths and legends of ancient civilization The reminders of the Ancients are everywhere They are saved in remnants in archaeology They are found in reminiscences in mythology They are recorded in books story song and stone Who were these people aliens man or myths Do we still see their influences today What remains of these inhabitants of the jungles lost cities and dwellings underground underwater and beyond How did they rise Why did they fall Will they rise again From pyramids and underground bunkers to watery graves and ancient astronauts Lost Civilizations The Secret Histories and Suppressed Technologies of the Ancients examines the archaeological evidence and the traces left behind by more than 70 ancient civilizations including Atlantis G bekli Tepe Anasazi disappearance in the American Southwest Nazca Lines of Peru Turkey s atal y k Denisovan Ancestors departure Amazon Cities in the Jungle Neanderthal Ancestors extinction The Eden Stories of Theoretical Physics Underground Cities of the Grand Canyon And many more From ancient Egypt middle America and the Nubian Desert to the frozen Antarctica underwater ruins of Asia and clues of visits by ancient aliens Lost Civilizations explores the unanswered questions about the true origins of man Might there have been advanced civilizations long before the days of ancient Egypt and Mesopotamia What do 3D imaging and new underwater mapping technology reveal What do prehistoric artifacts architecture carvings maps and monoliths tell us Were rising waters erupting volcanoes catastrophic solar flares comet or asteroid fragments or some other unimaginable cataclysmic disasters the death of these advanced civilizations Touring the world and reviewing the scientific evidence this fascinating book ties together historical events in one part of the world that produced actual effects in others Uncovering hidden and suppressed pasts of technologically and culturally advanced ancient civilizations it looks at how modern civilization compares and contrasts to those who have gone before It will leave you with the sense that what has happened to past advanced civilizations might very well be happening again in our own time With more than 120 photos and graphics it is richly illustrated Its helpful bibliography and extensive index add to its usefulness **Forgotten Civilization** Robert M. Schoch, 2012-08-10 Scientific confirmation of advanced civilization at the end of the last ice age the solar catastrophe that destroyed it and what the evidence means for our future Demonstrates based on the 12 000 year old megalithic complex of G bekli Tepe that advanced civilization extends thousands of years further back than generally acknowledged Examines the catastrophic solar outbursts

that ended the last ice age wiping out antediluvian civilization and incinerating much of the evidence of that period Reveals data that show solar outbursts powerful enough to devastate modern society could return in the future Building upon his revolutionary theory that the Sphinx dates back much further than 2500 BCE geologist Robert Schoch reveals scientific evidence of advanced civilization predating ancient Egypt Sumeria and Greece as well as the catastrophe that destroyed it nearly 12 000 years ago and what its legacy can teach us about our own future Combining evidence from multiple scientific disciplines Schoch shows how the last ice age ended abruptly in 9700 BCE due to coronal mass ejections from the Sun These solar outbursts unleashed electrical plasma discharges upon Earth and triggered volcanic activity earthquakes fires and massive floods as glaciers melted and lightning strikes released torrential rains from the oceans He explains how these events eradicated the civilization of the time and set humanity back thousands of years only to reemerge around 3500 BCE with scattered memories and nascent abilities He explores within this framework how many megalithic monuments underground cities and ancient legends fall logically into place as well as the reinterpreted Easter Island rongorongo texts and the intentional burial 10 000 years ago of the G bekli Tepe complex in Turkey Schoch reveals scientific evidence that shows how history could repeat itself with a coronal mass ejection powerful enough to devastate modern society Weaving together a new view of the origins of civilization the truths behind ancient wisdom and the dynamics of the planet we live on Schoch maintains we must heed the megalithic warning of the past and collectively prepare for future events *The Conflict of the Ages Student Edition IV Ice Age Civilizations* Michael J Findley, 2015-05-24 Set the record straight on the Ice Age Stone Age Bronze Age Iron Age The rise of civilizations and ancient technology occurred rapidly Find out the real reasons people lived in caves moved frequently or collected in a single location *A Brief History of Archaeology* Nadia Durrani, Brian M. Fagan, 2016-06-17 This short account of the discipline of archaeology tells of spectacular discoveries and the colorful lives of the archaeologists who made them as well as of changing theories and current debates in the field Spanning over two thousand years of history the book details early digs as well as covering the development of archaeology as a multidisciplinary science the modernization of meticulous excavation methods during the twentieth century and the important discoveries that led to new ideas about the evolution of human societies *A Brief History of Archaeology* is a vivid narrative that will engage readers who are new to the discipline drawing on the authors extensive experience in the field and classroom Early research at Stonehenge in Britain burial mound excavations and the exploration of Herculaneum and Pompeii culminate in the nineteenth century debates over human antiquity and the theory of evolution The book then moves on to the discovery of the world s pre industrial civilizations in Egypt Mesopotamia and Central America the excavations at Troy and Mycenae the Royal Burials at Ur Iraq and the dramatic finding of the pharaoh Tutankhamun in 1922 The book concludes by considering recent sensational discoveries such as the Lords of Sip n in Peru and exploring the debates over processual and postprocessual theory which have intrigued archaeologists in the early 21st century The second edition

updates this respected introduction to one of the sciences most fascinating disciplines *Forgotten Worlds* Patrick Chouinard, 2012-05-29 An examination of the mythological historical and archaeological evidence for lost civilizations throughout the world Explores unexplained mysteries such as the Caucasian mummies of China the pyramids of Caral in Peru and the genetically unique X woman of Siberia Examines evidence of lost ancient civilizations in Asia Europe and the Americas including extensive investigation into Atlantis Shows that Siberia and the Amazon may have been cradles of humanity before Africa Over and over again mainstream views of early history which state that the first civilizations arose around 3500 BCE are plagued by evidence of much older civilizations evidence ranging from artifacts and inexplicable remains to pyramids and ubiquitous myths that clearly speak of great empires prior to the rise of the Sumerian city states and pharaonic Egypt Viewing Atlantis and its many related myths as a metaphor for a long lost global civilization Patrick Chouinard explores the mythological cultural religious and archaeological evidence for many forgotten civilizations in Europe Asia and the Americas He addresses unexplained mysteries from around the world such as Caucasian mummies found in China the pyramids of Caral in Peru the hobbit remains on Flores Island the giant heads of Easter Island the lost legacy of Lemuria the ideology and occult mysticism behind Nazi theory and the genetically unique X woman of Siberia He also examines evidence of ancient alien visits and other supernatural phenomena in the distant past Using recent archaeological findings he shows that Siberia and the Amazon may have been cradles of humanity millennia before Africa Sounding the call to continue searching ancient remote and formerly forbidden regions for lost cultures and genetic root races Chouinard offers a new chronology for the emergence of human life and civilization as well as a new mechanism for how and why societies and species change over time By finding lost peoples and their forgotten worlds we can truly begin to understand the human race and learn from its long history *Empire Saga* Michael J. Findley, Look at the future of persecution One day soon the only refuge for the faithful may be Space Follow a desperate couple fighting isolation and equipment malfunction to pilot a gas collecting balloon ship to the outer planets Michael crown prince of the Space Empire hopes to save his people from external attack with an internal rebellion and a battle cruiser like no other His plans are shaken by a forbidden romance political turmoil and the discovery of Earth's Fourth Empire Michael and his best friend Randolph might save or shatter the Space Empire's last hope for the future **The Baron's Ring** Mary C. Findley, The handsome prince is desperate to save the damsel in distress but has no idea what it will cost him or what more he will have to pay to save his kingdom Tristan despairs for his kingdom on his drunken bullying idolatrous brother Dunstan's coronation day After a raging river whips him a hundred miles away into an impoverished isolated village he sees no way to get back home and has to be content to work with and serve these people instead of his own On one agonizing night Tristan thinks he has lost his last hope of saving his beloved and ever returning to his kingdom He cannot see how God can still use him but love and courage prepare him to face an old enemy and a new opportunity to rescue the damsel in distress and win the kingdom Ephron Son of Zohar Michael

J. Findley, Ephron's father Zohar chooses him to lead their family. He not only has vital skills to ensure the security and growth of their tribe but he is still unmarried. Zohar plans to unite the Hittite tribes using Ephron and his sister as peace children in arranged marriages. Marauding enemies and rising waters threaten the homelands of fellow Hittites but no one wants to sacrifice autonomy just for safety, food, clothing, and shelter. Family patriarch Heth's arrival might settle the unrest but when he does not appear, his representatives find rising tensions and a need for desperate action to show strength, unity, and prosperity. Ephron can't force Shelometh, his intended bride, to marry him. Will she make his tireless work pay off or destroy his future and her own? **Send a White Rose** Mary C. Findley, 2011-09-22

Shattered by an assassin's attack, Bart Durant's got no stomach to face a mail order mistake. New Mexico federal judge Bart Durant can solve everyone's problems but his own. Left to die and forced to depend on others for the smallest things, he prepares to step down and step away from a woman who crossed the country just to meet him. He never considers that she'll wait as long as it takes to prove him wrong about that unfortunate first impression. That is unless there's more than one assassin and more at stake than anyone suspects. Leah Masters waits patiently for Judge Durant's return after he suddenly disappears. The night they meet in Santa Fe, learning her brother is the prime suspect in a brutal attack and that a woman she trusted might have her own reasons for keeping secrets, Leah has to decide if she has really fallen in love with a man nobody seems to want her to get close to and somebody's trying to kill. *His Sign 2: The Ezra Solution* Mary C. Findley, 2019-09-28

Drew Goddard and Nomie Harker land headfirst in the middle of a supernatural war over an ancient evil. Nomie gets a sign of her own but they aren't sure it can stop the self-destruction of an ancient race. The Sethites are locked in civil war with their far-gone dragon kin. Ordinaries are the bait to trap and remove the only obstacle to the ultimate act of rebellion. Hope may lie in the wedding of a most unlikely couple. A traitor tries to destroy the peace but they might be wrong about the real enemy. Drew is about to relive the history of a certain Bible king coming face to face with a giant race out for blood. *The Oregon Sentinel* Mary C. Findley, Ben Carlisle's longtime dream has been to travel west with his family. When he is offered a newspaper job in Detroit, he is forced to question whether moving west is really God's will for him. Can he leave behind his grandfather, the girl he thought he loved, and an opportunity few writers could even dream about? Can he risk the life of one of his best friends or face an old enemy head-on? What price will he have to pay just to make his writing live? **The Conflict of the Ages Student Edition I: the Scientific History of Origins** Michael J. Findley, Mary C. Findley, The Conflict of the Ages is a Multi-Part exploration of History, Science, and ancient Literature. This first installment covers the concepts of God, time, Creation, physics, cosmology, and specifics about each day of Creation. We make comparisons with ancient sources to see where they agree with the Scriptural account. We reference classic and modern scientific views, exposing errors, preconceptions, presuppositions, and falsehoods taught as fact by the mainstream scientific community. God is the first witness and the Bible the first eyewitness account of beginnings and origins. Other ancient documents contain at least some truths and parallel accounts.
