Golf For Enlightenment The Seven Lessons For The Game Of Life:

Golf for Enlightenment Deepak Chopra, M.D.,2003-03-04 Deepak Chopra has discovered the delights and frustrations of golf and he is passionate about the game Confronted by the wild ups and downs of his own play he consulted with golf professionals and developed a new approach to the game that any golfer can follow from the novice to the expert The results can be measured not only in increased enjoyment and skill but also in greater wisdom about life beyond the 18th hole Chopra s own game has improved dramatically since incorporating the elements of his program Instead of focusing on the mechanics of a perfect swing Chopra reveals how golf can be mastered through mindfulness a form of awareness that combines sharp focus and relaxation at the same time Expanded awareness he tells us can accomplish much more than external mechanics to improve one s game But *Golf for Enlightenment* is also an engrossing story about Adam an Everyman who is playing a terrible round of golf when he meets a mysterious young teaching pro named Leela In seven short but profound lessons detailing spiritual strategies she teaches Adam the essence of a game that has much to explain about life itself Chopra has spent the last year taking the unique message in *Golf for Enlightenment* nationwide teaching the essential tenets of his program at lectures and seminars to golfers everywhere His message continues to help players turn an obsession into a positive life path

GOLF FOR ENLIGHTENMENT is the fable of Adam Seaver an ordinary person with a terrible game Adam meets a mysterious young teaching pro named Wendy who in seven crisp short yet profound lessons teaches him things that seem baffling at first You and the ball are one Find the now and you will find the shot Let the game play you From the moment they begin to put these lessons into practice what was previously a humiliation turns into a transforming experience not just for Adam s score but for his whole life Long a famous writer on spiritual subjects hailed as the poet philosopher of mind body medicine Deepak Chopra found himself fascinated by the game of golf He could not escape its parallels to life Golf is like lightning caught in a bottle It can turn triumph into disaster in a split second Faced with the wild ups and downs of his own game Chopra crystallised a teaching based on mindfulness the ability to remain calm and focused relaxed and powerful at the same time Mindfulness can improve any golf game from the beginner s to the tour professional s And it can improve anybody s life no matter what game they play or none

Golf for Enlightenment Deepak Chopra, M.D.,2003-03-04 Deepak Chopra has discovered the delights and frustrations of golf and he is passionate about the game Confronted by the wild ups and downs of his own play he consulted with golf professionals and developed a new approach to the game that any golfer can follow from the novice to the expert The results can be measured not only in increased enjoyment and skill but also in greater wisdom about life beyond the 18th hole Chopra s own game has improved dramatically since incorporating the elements of his program Instead of focusing on the mechanics of a perfect swing Chopra reveals how golf can be mastered through mindfulness a form of awareness that combines sharp focus and relaxation at the same time Expanded awareness he tells us

can accomplish much more than external mechanics to improve one's game. But *Golf for Enlightenment* is also an engrossing story about Adam an Everyman who is playing a terrible round of golf when he meets a mysterious young teaching pro named Leela. In seven short but profound lessons detailing spiritual strategies she teaches Adam the essence of a game that has much to explain about life itself. Chopra has spent the last year taking the unique message in *Golf for Enlightenment* nationwide, teaching the essential tenets of his program at lectures and seminars to golfers everywhere. His message continues to help players turn an obsession into a positive life path. Books Out Loud, 2007 Magical Beginnings, Enchanted Lives Deepak Chopra, M.D., David Simon, M.D., Vicki Abrams, 2005-03-22 A much needed antidote to our modern assembly line approach to childbirth, this new book is designed as a guide for all who wish to participate in the wondrous process of bringing new life into the world. Its ideas derive from two sources: the ancient wisdom of Ayurveda with its emphasis on body, mind, and spirit, and the latest Western scientific prenatal research. By integrating the best information from these two very different perspectives, this remarkable book gives readers the tools to ensure that our children are nourished by thoughts, words, and actions from the very moment of conception. *Magical Beginnings, Enchanted Lives* is rich in practical information including strategies to help enliven the body intelligence of unborn babies by nourishing each of their five senses as well as through Ayurvedically balanced nutrition and eating with awareness. Specific yoga poses and meditation techniques reduce the mother's stress and improve the infant's emotional environment, as do tips for conscious communication with a partner. Exercises prepare parents for the experience of childbirth itself, followed by natural approaches to dealing with the first weeks of parenting, from healing herbs to enhancing your milk supply to coping with postpartum depression. Inspiring, expansive, and remarkably informative, this unique book from acclaimed experts in mind/body medicine will profoundly enhance the experience of pregnancy and birth for both parents and baby. The End of Two Illusions Hamid Dabashi, 2022-04-19 Dabashi demonstrates how the West was an ideological

commodity and civilizational mantra invented during the European Enlightenment serving as an epicenter for the rise of globalized capitalist modernity In turn Orientalist ideologues went around the world manufacturing equally illusory abstractions in the form of inferior civilizations in India China Africa Latin America and the Islamic world The result was the projection of Islam and the West as the prototype of a civilizational hostility that has given false explanations and flawed prognoses of our contemporary history with weaponized Islamophobia on one side and militant Islamism on the other as its most palpable manifestations Dabashi argues it is long past time to dismantle this dangerous liaison expose and overcome its perilous delusions and reimagine the world beyond its shimmering mirage The Publishers Weekly ,2003 **The**
