

The Cold War Heats Up

1. As you read the passage, fill in the information you discover about the Soviet-American agreement below.

	What the Soviets Wanted	What the Americans Wanted
1. Would it make any sense to build space programs and rockets?	That U.S. support them economically (training, fuel, etc.)	Not really.
2. Would anyone benefit from the rockets and satellites they could build?	They would certainly produce satellites that were better. They could improve delivery of aid.	They were worried about the loss of U.S. technology when U.S. tech people came to Europe. Europe, planned under the control of General Douglas MacArthur.
3. Would anyone challenge U.S. power?	No. It was necessary.	Europe would be under Soviet control, not independent and free.
4. Would the U.S. achieve what it wanted under the new treaty?	No. The government could no longer afford to maintain military.	The American public was concerned we would not take a leadership role there.

2. Suppose the agreement simply set up the program, without

these other provisions. Would it still

bring about the advantages Soviet leaders

thought it would? What provisions did the Soviets want most?

What would it bring about that the U.S. might not like?
