**Introduction to Generalized Linear Models** George H. Dunteman, Moon-Ho R. Ho, 2006 Do you have data that is not normally distributed and don't know how to analyze it using generalized linear models GLM Beginning with a discussion of fundamental statistical modeling concepts in a multiple regression framework the authors extend these concepts to GLM including Poisson regression logistic regression and proportional hazards models and demonstrate the similarity of various regression models to GLM Each procedure is illustrated using real life data sets and the computer instructions and results will be presented for each example Throughout the book there is an emphasis on link functions and error distribution and how the model specifications translate into likelihood functions that can through maximum likelihood estimation be used to estimate the regression parameters and their associated standard errors This book provides readers with basic modeling principles that are applicable to a wide variety of situations Key Features Provides an accessible but thorough introduction to GLM exponential family distribution and maximum likelihood estimation Includes discussion on checking model adequacy and description on how to use SAS to fit GLM Describes the connection between survival analysis and GLM This book is an ideal text for social science researchers who do not have a strong statistical background but would like to learn more advanced techniques having taken an introductory course covering regression analysis **Making Sense of Social Theory**

Charles H. Powers, 2010-01-16 Making Sense of Social Theory opens by carefully exploring what it means to follow the scientific method in a field like sociology The author goes on to analyze sociology as a genuine science with a body of explanatory insights It does this by a considering the major insights of key thinkers including Marx Durkheim Weber and Mead among others b distinguishing different analytical frameworks especially exchange symbolic interactionism conflict and structural functionalism in terms of their underlying assumptions and c revealing compelling social science explanatory insights in the form of predictive principles that can be applied in understanding processes of change at work in the social world from face to face encounters to major historical trends Sociological theory is applied in ways that make its relevance and power apparent In reading this book theory no longer stands divorced from real world research or practice Making

Sense of Social Theory clearly establishes the pertinence of sociology's great theoretical insights for all social science researches and practitioners Book jacket Individual Behaviors and Technologies for Financial Innovations Wesley Mendes-Da-Silva, 2018-07-26 This book offers comprehensive examination of research on the relevance of individual behavior and technology to financial innovations The chapters cover current topics in finance including integrated reporting people finance crowdfunding and corporate networks It provides readers with an organized starting point to explore individual behaviors and new technologies used in financial innovations The explicit and growing speed of the spread of new technologies has hastened the emergence of innovation in the field of finance Topics like the Internet of Things semantic computing and big data finance are motivating the construction of financial tools that translate into new financial mechanisms This book strives help readers better understand the dynamic of the changes in financial systems and the proliferation of financial products Individual Behaviors and Technologies for Financial Innovations is organized in 16 chapters organized in three parts Part I has eight chapters that review the research on gender differences in attitudes about risk and propensity to purchase automobile insurance financial literacy models for college students wellness and attitude of university students in the use of credit cards impact of programs income distribution and propensity to remain in employment financial literacy and propensity to resort to informal financing channels risk behavior in the use of credit cards by students Part II reviews the research on financing for startups and SMEs exploring funding through crowdfunding platform operating credit unions and using networks of friends to finance small businesses outside the domestic market The four chapters of Part III describe contexts of financial innovation in listed companies including society's demands on their behavior we discuss motivations for companies to participate in corporate sustainability indexes corporate performance through their profile of socially responsible investments influence of networks of social relations in the formation of boards and management of companies and also the precariousness of financial decisions in large companies as well as the role of the internet in corporate communication with the market Manitoba High School Students and Drop-outs Emmit F.
