Fort,2010-02-16 Once again our nation has a powerful need for a revolution devoted to creating scientists As we face the challenges of climate change global competitiveness biodiversity loss energy needs and dwindling food supplies we find ourselves in a period where both scientific literacy and the pool of next generation scientists are dwindling To solve these complex issues and maintain our own national security we have to rebuild a national ethos based on sound science education for all from which a new generation of scientists will emerge The challenge is how to create this transformation Those shaping national policy today in 2009 need look no further than what worked a half century ago In 1957 Sputnik circled and sent a clarion call for America to become the world's most technologically advanced nation In 1958 Congress passed the National Defense Education Act which focused the national will and called for scholars and teachers to successfully educate our youth in science math and engineering It was during this time period that Paul F Brandwein emerged as a national science education leader to lay the foundation for the changes needed in American education to create the future scientists essential to the nation's well being **Harcourt Science: Earth science, [grade] 3, units C and D, teacher's ed ,2000** Harcourt Science: Earth science, [grade] 2, units C and D, teacher's ed ,2000 Catalog of Copyright Entries.
