Bruni, 2013-01-01 The recent era of economic turbulence has generated a growing enthusiasm for an increase in new and original economic insights based around the concepts of reciprocity and social enterprise. This stimulating and thought-provoking Handbook not only encourages and supports this growth but also emphasises and expands upon new topics and issues within the economics discourse. Original contributions from key international experts acknowledge and illustrate that markets and firms can be civilizing forces when and if they are understood as expressions of cooperation and civil virtues. They provide an illuminating discourse on a wide range of topics including reciprocity gifts and the civil economy which are especially relevant in times of crisis for financial capitalism. The Handbook questions the current phase of the market economy that arises from a state of anthropological pessimism. Such anthropological cynicism is one of the foundations of the contemporary economic system that is challenged by the contributors. This highly original and interdisciplinary Handbook will provide a fascinating read for academics, researchers and students across a wide range of fields including economics, public sector economics, public policy and social policy.

Accountability and Social Accounting for Social and Non-profit Organizations Michele Andreaus, Ericka Costa, Lee D. Parker, 2014-12-03 This book addresses the issues and functioning of accounting and accountability for social and non-profit organizations. It presents research papers that address the limitations of conventional accounting, the meaning of accountability and the potential of social and environmental accounting for these organizations.

The Collapse of Freedom of Expression Jordi Pujol, 2023-02-15 This book offers a holistic account of the problems posed by freedom of expression in our current times and offers corrective measures to allow for a more genuine exchange of ideas within the global society. The topic of free speech is rarely addressed from a historical, philosophical or theological perspective. In *The Collapse of Freedom of Expression*, Jordi Pujol explores both the modern concept of the freedom of expression based on the European Enlightenment and the deficiencies inherent in this framework. Modernity has disregarded the traditional roots of the freedom of expression drawn from Christianity, Greek philosophy and Roman law, which has left the door open to the various forms of abuse, censorship and restrictions seen in contemporary public discourse. Pujol proposes that we rebuild the foundations of the freedom of expression by returning to older traditions and incorporating both the field of pragmatics of language and theological and ethical concepts on human intentionality as new complementary disciplines. Pujol examines emblematic cases such as Charlie Hebdo, free speech on campus and online content moderation to elaborate on the tensions that arise within the modern concept of freedom of expression. The book explores the main criticisms of the contemporary liberal tradition by communitarians, libertarians, feminists and critical race theorists and analyzes the gaps and contradictions within these traditions. Pujol ultimately offers a reconstruction project that involves bridging the chasm between the secular and the sacred and recognizing that religion is a font of meaning for

Continuous structural evolution within such systems may change the mechanisms descriptors problems and opportunities often negating policy aims We therefore need to redevelop our thinking about interventions policies and policy making moving perhaps to a humbler more learning approach In this Handbook leading thinkers in multiple domains set out these new ideas and allow us to understand how these new ideas are changing policymaking and policies in this new era Peter M Allen Cranfield University UK Handbook of Behavioural Economics and Smart Decision-Making Morris

Altman,2017-05-26 This Handbook is a unique and original contribution of over thirty chapters on behavioural economics examining and addressing an important stream of research where the starting assumption is that decision makers are for the most part relatively smart or rational This particular approach is in contrast to a theme running through much contemporary work where individuals behaviour is deemed irrational biased and error prone often due to how people are hardwired In the smart people approach where errors or biases occur and when social dilemmas arise more often than not improving the decision making environment can repair these problems without hijacking or manipulating the preferences of decision makers This book covers a wide range of themes from micro to macro including various sub disciplines within economics such as economic psychology heuristics fast and slow thinking neuroeconomics experiments the capabilities approach institutional economics methodology nudging ethics and public policy Design Rules, Volume 2 Carliss Y.

Baldwin,2024-12-17 How the innate physical properties of different technologies influence the strategy and structure of the organizations implementing the technologies the sequel to Design Rules The Power of Modularity In Design Rules volume 2 Carliss Baldwin offers a comprehensive view of the digital economy by putting forth an original theory that explains how technology shapes organizations in a market economy The theory claims that complementarities arising from the physical nature of technologies can be arrayed on a spectrum ranging from strong to very weak Two basic types of technologies in turn exhibit different degrees of complementarity between their internal components Flow production technologies which are found in steel mills and auto factories specify a series of steps each of which is essential to the final product In contrast platform technologies which are characteristic of computer hardware software and networks are modular systems designed to provide options Baldwin then investigates the dynamics of strategy for firms in platform ecosystems Such firms create value by solving technical bottlenecks technical barriers to performance that arise in different parts of the system as it evolves They capture value by controlling and defending strategic bottlenecks components that are 1 essential to the functioning of some part of the system 2 unique and 3 controlled by a profit seeking enterprise Strategic bottlenecks can be acquired by solving technical bottlenecks They can be destroyed via tactics such as substitution reverse engineering bypassing the bottleneck and enveloping a smaller bottleneck within a larger one Strategy in platform ecosystems can thus be viewed as the effective management of technical and strategic bottlenecks within a modular technical system

Handbook of Research on Ethnic Minority Entrepreneurship Leo Paul Dana,2007 Professor Dana and his

colleagues have carefully and successfully put together a collection of chapters on ethnic minority entrepreneurship from all parts of the world. The book comprises eight parts and 49 chapters. Undoubtedly given the massive size and content of a 835 page book it is fair to ask is it value for money. The answer is unequivocally yes. A further comment on the content of the book should probably reassure potential readers and buyers of the book. This collection is undoubtedly rich, creative and varied in many respects. Therefore it will be of great benefit to researchers and scholars alike. I will strongly recommend this book to researchers, students, teachers and policy makers.

Aminu Mamman, International Journal of Entrepreneurial Behaviour and Research

The volume presents an impressive panorama of studies on ethnic entrepreneurs ranging from Dalits in India to Roma entrepreneurs in Hungary. B. P. Corrie, Choice

From a focus on middle man minorities in the 1950s, the study of minority ethnic entrepreneurship has evolved into a vast undertaking. A major ingredient in this expansion is the massive population movements of the past thirty years that have created ethnic minority communities in almost all advanced economies. From New York to San Francisco, from Birmingham to Hamburg, from the Chinese in Canada to the Turks in Finland, to the Ghanians in South Africa, to the Lebanese in New Zealand, more than twenty chapters in this volume treat small scale ethnic entrepreneurship and the cultural and institutional resources which support it. At the other end of the spectrum, the ethnic Chinese have created ever larger multi divisional enterprises in the host societies of Southeast Asia. At the mid point of the spectrum, analyzed in an elegant paper by Ivan Light, is the recently identified transmigrant entrepreneur, acculturated in two societies but assimilated in neither, whose special endowments have provided the lynchpin for much of the international trade expansion in the global economy over the past decade. And Dana and Morris provide us with much more.

Afro American entrepreneurship, caste and class, the theory of clubs, women, ethnic entrepreneurs, minority ethnicity and IPOs. In the quality of its contributions and in the reach of its coverage, this Handbook attains a very high standard.

Peter Kilby, Wesleyan University, US

The new Handbook of Research on Ethnic Minority Entrepreneurship, edited by L. o. Paul Dana, constitutes a major contribution to the literature on ethnic enterprise. Unlike previous work which tended to focus on one country or one region of the world, this book is global in scope. You will find chapters on America, Europe and Asia, as well as integrative essays that review important principles and concepts from the literature on ethnic entrepreneurship. I particularly appreciate the historical and evolutionary framework within which the contributions are situated. This book belongs on the shelf of everyone who has an interest in immigration and entrepreneurship, or ethnic entrepreneurship more generally.

Howard Aldrich, University of North Carolina, US

This exhaustive interdisciplinary Handbook explores the phenomena of immigration and ethnic minority entrepreneurship in light of marked changes since the mid twentieth century and the advent of easier, more affordable travel and more open and integrated national economies. The international contributors, key experts in their respective fields, illustrate that myriad ethnic minorities exist across the globe and that their entrepreneurship can and does significantly influence national economies. The contributors go on to promote our understanding of which factors

make for successful entrepreneurship and perhaps more importantly how negative political consequences that members of successful entrepreneurial ethnic minorities might face can be minimized This extensive collection of current research on entrepreneurship
