Klein, 2020-04-01 In golf the playing field is also landscape where nature and the shaping of it conspire to test athletic prowess As golf courses move away from the big business pristine lawn approach of recent times Bradley S Klein a leading expert on golf course design and economics finds much to contemplate and much to report in the way these wide open spaces function as landscapes that inspire us stimulate our senses and reveal the special nature of particular places A meditation on what makes golf courses compelling landscapes this is also a personal memoir that follows Klein's own unique journey across the golfing terrain from the Bronx and Long Island suburbia to the American prairie and the Pacific Northwest Whether discussing Robert Moses and Donald Trump and the making of New York City or the role of golf in the development of the atomic bomb or the relevance of Willa Cather to how the game has taken hold in the Nebraska Sandhills Klein is always looking for the freedom and the meaning of golf's wide open spaces And as he searches he offers a deeply informed and absorbing view of golf courses as cultural markers linking the game to larger issues of land use ecology design and imagination Purchase the audio edition **Golf University** Scott Weems, 2019-05-07 In Golf University Scott Weems offers comprehensive advice to excelling on the golf course that takes readers beyond traditional tips on putting and driving Divided into four academic years this book incorporates the disciplines of physics math medicine sociology geology economics and more to help golfers maximize their success and have the most fun Some of the many lessons that Weems offers include Achieving maximum efficiency in the golf swing meaning no loss of kinetic energy from club to ball would require a driver 72 feet long And a club the same weight as the ball Twelve percent of business executives rate golf as more important than sex Players shot half a stroke higher when paired with Tiger Woods in his prime The effect was even worse on the final day of competition Putting against the direction of the grain i.e. opposite the most recent mowing leaves the ball 15 percent shorter than putting in the opposite direction Closing your eyes occasionally while putting will leave your ball almost 10 percent closer to the pin And more Golf University uses a mixture of research interviews and Weems's own experiences as a scientist and golfer to introduce readers to the latest discoveries in the sport **Links to the Past** Patricia Kuhn Babin, 2018-06-29 In summer 2016 the U.S. National Park Service began a study on the history and design of the National Park Service golf courses at East Potomac Park Rock Creek Park and Langston As enthusiasm for the sport began in the early 20th century the District of Columbia's public golf courses were built by the federal government for those who could not afford to play at the area's private clubs and as part of the expansion of parks and recreation facilities in the nation's capital Initially built between 1918 and 1939 the three courses hosted numerous tournaments Presidents of the United States renowned American golfers as well as countless local citizens The golf courses also played a role in the city's Civil Rights movement the National Park Service's position against segregation and the integration of the city's recreational facilities
