Handbook of Research on Gender and Leadership Susan R. Madsen, 2024-01-18 Although some progress has been made in recent decades in getting women into top positions in government, business, and education, there are persisting challenges with efforts to improve opportunities for women in leadership. This book unveils the significant impact of the European integration process on the political thinking of European citizens. With close attention to the interrelation between social and political divisions, it shows that an integrated Europe promotes consensus but also propagates growing dissent among its citizens with both objective inequalities and the subjective perception of these inequalities fuelling political dissent. Based on original data sets developed from two EU funded projects across eight and nine European countries, the volume demonstrates the important role played by the social structure of European social space in conditioning political attitudes and preferences. It shows in particular that Europeans are highly sensitive to unequal living conditions between European countries, thus affecting their political support of national politics and the European Union. As such, it will appeal to scholars of sociology and politics with interests in Europe and the European Union, European integration, and political sociology. **Perspectives on Contemporary Professional Work** Adrian Wilkinson, Donald Hislop, Christine Coupland, 2016-01-29 How is the world of professions and professional work changing? This book offers both an overview of current debates surrounding the nature of professional work and the implications for change brought about by the managerialist agenda. The relationships professionals have with their organizations are variable, indeterminate, and uncertain, and there is still debate over the ways in which these should be characterized and theorized. The contributors discuss these implications with topics including hybrid organizations and hybrid professionalism, the changing nature of professional and managerial work, profession and identity, and the emergence of HRM as a new managerial profession. This book will be of interest to academics and postgraduate students seeking a
