La estirpe de la mariposa Magdalena Lasala,2023 *Contemporary Spanish Women's Narrative and the Publishing Industry* Christine Henseler,2003 As in other countries the effects of commercialization in Spain are changing the direction of publishing Arguing that women face a particularly complex situation because the inclusion of their work is still considered a novelty in a male dominated field Christine Henseler examines the strategies of Spanish women authors in the face of market forces In a consumer economy that places books in supermarkets and mega bookstores and in which novels are promoted and read more for entertainment than for their literary merit women s books tend to be more highly regarded when they cater to feminist erotic or commercial niche markets Henseler examines the visual creation of the seductive female body inside and outside the texts and the verbal application of this female figure on a narrative level in the works of authors including Paloma D az Mas Lourdes Ortiz Cristina Peri Rossi Esther Tusquets Almudena Grandes and Luc a Etxebarr a She looks at novels of seduction award winning novels and novels sold on the basis of an author s prior reputation as well as advertisements literary prizes and reviews She also draws on interviews with authors to provide insider views of contemporary Spanish publishing Contemporary Spanish Women s Narrative and the Publishing Industry reveals the ways women writers are reacting both textually and promotionally to the changing demands of the publishing industry and the construction of a literary canon

The Return of the Moor Daniela Flesler,2008 With the intense economic development and accelerated modernization experienced by Spain since the 1970s and especially following its entrance to the European Economic Community in 1986 the country has undergone a rapid inversion in migratory patterns After being an exporter of economic migrants for almost a century in the last 20 years Spain has seen itself on the receiving end of immigration Coinciding with a time when Spain is highlighting its belonging to Europe the growing presence of Moroccan immigrants in particular confronts Spanish society with the repressed non European African and Oriental aspects of its national identity The Return of the Mooreexamines the anxiety over symbolic and literal boundaries permeating the Spanish reception of these immigrants through an interdisciplinary analysis of social fictional and performative texts It argues that Moroccans constitute a problem to Spaniards not because of their cultural differences as many claim but because they are not different enough Perceived as Moors they conjure up past ghosts that continue to haunt the Spanish imaginary revealing the acute tensions inherent to Spain s tenuous position between Europe and Africa
