**The Routledge History of the First World War** Paul R. Bartrop, 2024-08-27 The Routledge History of the First World War is a work which in a single volume covers a range of major themes and issues relating to that conflict Providing a comprehensive but readily accessible reference work examining the First World War in accordance with a broad range of themes this book presents the many ways in which study of the First World War can take place and introduces readers to new areas of research often untouched in other studies of the war With a scholarly Introduction and 60 chapters by specialist authors who come from 14 different countries across four continents the book is also intended to open lines of further inquiry from its solid base of academic knowledge The volume demonstrates the war's global and total nature examining the conflict in all major theatres and through the lens of the key combatants and neutrals It also fully engages with issues of race gender ideology and society during the war This book will appeal to students of all levels scholars and general readers alike interested in the First World War from several different perspectives and research areas The 60 chapters cover topics from numerous angles and provide detailed information about all aspects relating to the First World War

**The Vanquished** Robert Gerwarth, 2016-11-15 An epic groundbreaking account of the ethnic and state violence that followed the end of World War I and shaped the course of the twentieth century Winner of the Tomlinson Book Prize A Times Literary Supplement Best Book of 2016 In *The Vanquished* a highly original and gripping work of history Robert Gerwarth asks us to think again about the true legacy of the First World War In large part it was not the fighting on the Western Front that proved so ruinous to Europe's future but the devastating aftermath as countries on both sides of the original conflict were savaged by revolutions pogroms mass expulsions and further major military clashes In the years immediately after the armistice millions would die across central eastern and southeastern Europe before the Soviet Union and a series of rickety and exhausted small new states would come into being It was here in the ruins of Europe that extreme ideologies such as fascism would take shape and ultimately emerge triumphant As absorbing in its drama as it is unsettling in its analysis *The Vanquished* is destined to transform our understanding of not just the First World War but the twentieth century as a whole

*Against the World* Tara Zahra, 2023-01-24 A brilliant eye opening work of history that speaks volumes about today's battles over international trade immigration public health and global inequality Before the First World War enthusiasm for a borderless world reached its height International travel migration trade and progressive projects on matters ranging from women's rights to world peace reached a crescendo Yet in the same breath an undercurrent of reaction was growing one that would surge ahead with the outbreak of war and its aftermath In *Against the World* a sweeping and ambitious work of history acclaimed scholar Tara Zahra examines how nationalism rather than internationalism came to ensnare world politics in the early twentieth century The air went out of the globalist balloon with the First World War as quotas were put on immigration and tariffs on trade not only in the United States but across Europe where war and disease led to mass societal upheaval The Spanish flu heightened

anxieties about porous national boundaries The global impact of the 1929 economic crash and the Great Depression amplified a quest for food security in Europe and economic autonomy worldwide Demands for relief from the instability and inequality linked to globalization forged democracies and dictatorships alike from Gandhi s India to America s New Deal and Hitler s Third Reich Immigration restrictions racially constituted notions of citizenship anti Semitism and violent outbursts of hatred of the other became the norm coming to genocidal fruition in the Second World War Millions across the political spectrum sought refuge from the imagined and real threats of the global economy in ways strikingly reminiscent of our contemporary political moment new movements emerged focused on homegrown and local foods domestically produced clothing and other goods and back to the land communities Rich with astonishing detail gleaned from Zahra s unparalleled archival research in five languages *Against the World* is a poignant and thorough exhumation of the popular sources of resistance to globalization With anti globalism a major tenet of today s extremist agendas Zahra s arrestingly clear sighted and wide angled account is essential reading to grapple with our divided present

*Spain and the Great Powers in the Twentieth Century* Sebastian Balfour, Paul Preston, Professor Paul Preston, 2002-01-31 *Spain and the Great Powers in the Twentieth Century* examines the international context to and influences on Spanish history and politics from 1898 to the present day Spanish history is necessarily international with the significance of Spain s neutrality in the First World War and the global influences on the outcome of the Spanish Civil War Taking the Defeat in the Spanish American war of 1898 as a starting point the book includes surveys on the crisis of neutrality during the First World War foreign policy under the dictatorship of Primo de Rivera the allies and the Spanish Civil War Nazi Germany and Franco s Spain Spain and the Cold War relations with the United States This book traces the important topic of modern Spanish diplomacy up to the present day

**Spain and Argentina in the First World War** Maximiliano Fuentes Codera, 2021-03-22 This is the first book that analyzes the transnational impact of the Great War simultaneously on two countries Spain and Argentina that remained neutral throughout the conflict Both countries were very relevant in the conception of propaganda and policies of belligerent countries such as France Germany and Great Britain and showed that the conflict had a global influence and affected deeply local political and cultural processes even in areas geographically distant from the trenches Within this framework this book is focused on three aspects that are analyzed dynamically throughout the whole war from a transnational perspective neutrality as a space of dispute between pro Allies and pro German sectors and its relation with local politics the debate about what positions should be assumed in order to guarantee a world without war and the polemics on the ideas of nations and supra nations Hispanism Latinism Pan Americanism The conclusions of the book highlight that the radicalization that exploded in 1917 in both countries was fundamental in shaping the political radicalization of the last months of the conflict and the postwar period As happened in Europe the Great War did not finish in 1918 and its traces continued in the 1920s and 1930s

*Living War, Thinking Peace (1914-1924)* Bruna Bianchi, Geraldine Ludbrook, 2016-04-26 This volume is the result

of a long commitment of the online journal DEP Deportate esuli profughe to the themes of women pacifists thought and activism in the 1900s The volume is a collection of contributions centred around three main themes The first part Living War Women s Experiences during the War brings together first hand accounts from women s lives as they face the horrors of war drawn mainly from original sources such as diaries letters memoirs and writings The second Thinking Peace Feminist Thought and Activism explores the lives and thought of several key women activists who challenged inequalities and sought to create new opportunities for women contributing to the definition of a transnational culture of peace The final section International Relations Toward Future World Peace examines the work of a group of women who saw the outbreak of the First World War and the emergence of an international women s movement for peace as an opportunity to act for their personal emancipation and in some cases for a different idea of politics The volume fills a notable gap in international history studies providing a selection of contributions from little known European contexts such as Italy Poland and Austria The presence and contribution of African American women which has been neglected in the history of women s pacifism is also explored Particular attention is given to the Women s International League for Peace and Freedom and to the International Congress of Women held in The Hague in 1915

**Defeat and Memory** J. Macleod, 2008-11-03 The legacy of defeat in war reverberates through private and collective memory and remains a sub text in international relations and political discourse This book examines the manner in which a series of military defeats have been understood and remembered by individuals and societies in the era of modern industrialised warfare

European Police Forces and Law Enforcement in the First World War Jonas Campion, Laurent López, Guillaume Payen, 2019-11-08 This book offers a global history of civilian military and gendarmerie style policing around the First World War Whilst many aspects of the Great War have been revisited in light of the centenary and in spite of the recent growth of modern policing history the role and fate of police forces in the conflict has been largely forgotten Yet the war affected all European and extra European police forces Despite their diversity all were confronted with transnational factors and forms of disorder and suffered generally from mass conscription During the conflict societies and states were faced with a crisis situation of unprecedented magnitude with mass mechanised killing on the battle field and starvation occupation destruction and in some cases even revolution on the home front Based on a wide geographical and chronological scope from the late nineteenth century to the interwar years this collection of essays explores the policing of European belligerent countries alongside their empires and neutral countries The book s approach crosses traditional boundaries between neutral and belligerent nations centres and peripheries and frontline and rear areas It focuses on the involvement and wartime transformations of these law enforcement forces thus highlighting underlying changes in police organisation identity and practices across this period

*The Impact of the First World War on the Basque Country* Eneko Bidegain, 2025-03-01 This book tells the story of the First World War from the perspective of the Basque Country It recounts the background to the First World War to set context and talks about how this war was experienced in

the Basque Country including the after effects it left behind especially the human devastation wrought by the war The social economic and political consequences it had in the Basque Country are discussed in this work as it is clear that this conflict had a decisive influence on the future of the Northern Basque Country and its ties with France Dynamic of Destruction,2008-11-06 On 26 August 1914 the world famous university library in the Belgian town of Louvain was looted and destroyed by German troops The international community reacted in horror Holocaust at Louvain proclaimed the Daily Mail and the behaviour of the Germans at Louvain came to be seen as the beginning of a different style of war without the rules that had governed military conflict up to that point a more total war in which enemy civilians and their entire culture were now legitimate targets Yet the destruction at Louvain was simply one symbolic moment in a wider wave of cultural destruction and mass killing that swept Europe in the era of the First World War Using a wide range of examples and eye witness accounts from across Europe at this time award winning historian Alan Kramer paints a picture of an entire continent plunging into a chilling new world of mass mobilization total warfare and the celebration of nationalist or ethnic violence often directed expressly at the enemy s civilian population *The Great War for Peace* William Mulligan,2014-05-27 Offers an assessment of the first two decades of the twentieth century and especially the First World War that argues that these years played an essential part in the creation of a peaceful global order *With Our Backs to the Wall* David Stevenson,2013-11-18 Why did World War I end with a whimper an arrangement between two weary opponents to suspend hostilities Why did the Allies reject the option of advancing into Germany and taking Berlin Most histories of the Great War focus on the avoidability of its beginning This book focuses on Germany s inconclusive defeat and its ominous ramifications

**Filippo Tommaso Marinetti** Ernest Ialongo,2015-03-06 Filippo Tommaso Marinetti The Artist and His Politics explores the politics of the leader of the Futurist art movement Emerging in Italy in 1909 Futurism sought to propel Italy into the modern world and is famously known for outlandish claims to want to destroy museums and libraries in order to speed this transition Futurism however also had a much darker political side It glorified war as the solution to many of Italy s ills and was closely tied to the Fascist Regime In this book Ialongo focuses on Marinetti as the chief determinant of Futurist politics and explores how a seemingly revolutionary art movement at one point having some support among revolutionary left wing movements in Italy could eventually become so intimately tied to the repressive Fascist regime Ialongo traces Marinetti s politics from before the foundation of Futurism through the Great War and then throughout the twenty year Fascist dictatorship using a wide range of published and unpublished sources Futurist politics are presented within the wider context of developments in Italy and Europe and Ialongo further highlights how Marinetti s political choices influenced the art of his movement 1917 and the Consequences Gerhard Besier,Katarzyna Stokłosa,2019-09-30 The Russian Revolution of 1917 has been one of the most important events of modern history It changed the course of the events not only in Russia but on a wider scale across the world while it influenced the flow of history throughout the twentieth century until the fall of

the Soviet Union and to some extent well beyond this time Radical change in Russia triggered social revolutions and reformations across Europe while authoritarian systems shaped their societies according to the Russian model This book analyses these forces particularly at the European periphery which has been underexplored until this volume **Military Review** ,1927 **Review of Current Military Literature** ,1926 *The Role of Banks in the Interwar Economy* Harold James,Hekan Lindgren,Alice Teichova,2002-08-22 This 1991 volume examines the financing of industry by banks and the banks credit intermediation in industrial economies **The War of Guns and Mathematics** David Aubin,Catherine Goldstein,2014-10-07 For a long time World War I has been shortchanged by the historiography of science Until recently World War II was usually considered as the defining event for the formation of the modern relationship between science and society In this context the effects of the First World War by contrast were often limited to the massive deaths of promising young scientists By focusing on a few key places Paris Cambridge Rome Chicago and others the present book gathers studies representing a broad spectrum of positions adopted by mathematicians about the conflict from militant pacifism to military scientific or ideological mobilization The use of mathematics for war is thoroughly examined This book suggests a new vision of the long term influence of World War I on mathematics and mathematicians Continuities and discontinuities in the structure and organization of the mathematical sciences are discussed as well as their images in various milieux Topics of research and the values with which they were defended are scrutinized This book in particular proposes a more in depth evaluation of the issue of modernity and modernization in mathematics The issue of scientific international relations after the war is revisited by a close look at the situation in a few Allied countries France Britain Italy and the USA The historiography has emphasized the place of Germany as the leading mathematical country before WWI and the absurdity of its postwar ostracism by the Allies The studies presented here help explain how dramatically different prewar situations prolonged interaction during the war and new international postwar organizations led to attempts at redrafting models for mathematical developments »**Then Horror Came Into Her Eyes...**« Claudia Junk,Thomas F. Schneider,2014-08-13 Die Beitr ge des Bandes besch ftigen sich im Schwerpunkt mit dem Ersten Weltkrieg aus der Gender Perspektive wobei das komplexe Verh ltnis zwischen Front und Heimatfront ebenso thematisiert wird wie die Erfahrungen von Gewalt die Formen der Visualisierung und Literarisierung des Ersten Weltkrieges sowie die Auswirkungen des Krieges auf Konzepte von Soldatentum und B rgertum Erg nzt wird dieser Schwerpunkt durch die von William D Erhart besorgte Edition eines Erinnerungsberichtes eines US Bomber Piloten des Zweiten Weltkrieges sowie einen Essay von Franz Karl Stanzel zum Zusammenhang zwischen Nemesis und dem Untergang von Schlachtkreuzern im Zweiten Weltkrieg Writing the Great War Christoph Cornelissen,Arndt Weinrich,2022-11-11 From the Treaty of Versailles to the 2018 centenary and beyond the history of the First World War has been continually written and rewritten studied and contested producing a rich historiography shaped by the social and cultural circumstances of its creation Writing the Great War provides a

groundbreaking survey of this vast body of work assembling contributions on a variety of national and regional historiographies from some of the most prominent scholars in the field By analyzing perceptions of the war in contexts ranging from Nazi Germany to India s struggle for independence this is an illuminating collective study of the complex interplay of memory and history

## **La Gran Guerra 1914 1918 13 Or** Book Review: Unveiling the Magic of Language

In a digital era where connections and knowledge reign supreme, the enchanting power of language has become much more apparent than ever. Its capability to stir emotions, provoke thought, and instigate transformation is actually remarkable. This extraordinary book, aptly titled "**La Gran Guerra 1914 1918 13 Or**," published by a highly acclaimed author, immerses readers in a captivating exploration of the significance of language and its profound impact on our existence. Throughout this critique, we will delve into the book's central themes, evaluate its unique writing style, and assess its overall influence on its readership.
