La Place De La Concorde Suisse:

La Place de la Concorde Suisse John McPhee, 1984-05-07 In admirable disregard for the orthodoxy of public relations the Swiss Army has chosen Luc Massy to be the soldier companion of the American observer John McPhee during various exercises of a refresher course among the high Alps of the Canto de Valais *La place de la Concorde suisse* John MacPhee, Béatrice Moulin, 1985 **La Place de la Concorde Suisse** John McPhee, 1985 *Swiss Army: la Place de la Concorde Suisse* John McPhee, 1984 **After the end** David L. Pike, 2024-04-09 After the End argues that the cultural imaginaries and practices of the Cold War continue to deeply shape the present in profound but largely unnoticed ways across the global North and in the global South The argument draws examples from literature and literary criticism film music the historical and social scientific record and past and present physical sites to consider the bunker as a material form an image and as a fantasy that took shape in the global North in the 1960s and that spread globally into the twenty first century After the End reminds us not only that most of the world's peoples have lived with or died from apocalyptic conditions for centuries but that the Cold War imaginaries that grew from and fed those conditions continue to survive as well **Going Places** Robert Burgin, 2013-01-08 Successfully navigate the rich world of travel narratives and identify fiction and nonfiction read alike with this detailed and expertly constructed guide Just as savvy travelers make use of guidebooks to help navigate the hundreds of countries around the globe smart librarians need a guidebook that makes sense of the world of travel narratives Going Places A Reader's Guide to Travel Narratives meets that demand helping librarians assist patrons in finding the nonfiction books that most interest them It will also serve to help users better understand the genre and their own reading interests The book examines the subgenres of the travel narrative genre in its seven chapters categorizing and describing approximately 600 titles according to genres and broad reading interests and identifying hundreds of other fiction and nonfiction titles as read alike and related reads by shared key topics The author has also identified award winning titles and spotlighted further resources on travel lit making this work an ideal guide for readers advisors as well a book general readers will enjoy browsing Looking for a Story Noel Rubinton, 2025-05-13 An annotated bibliography that documents the work of the longtime New Yorker writer journalist Pulitzer Prize winner and Princeton professor John McPhee **A Strategy For Terminating A Nuclear War** Clark C Abt, 2021-11-28 Avoiding a nuclear war or ending one if avoidance fails is an important but relatively unexplored aspect of nuclear doctrine Dr Abt examines the feasibility of antagonists agreeing to exclude their open cities from nuclear targeting and to replace strategic bombardment with retaliatory invasion to create less of a hair trigger deterrent Critical net assessments by U S strategists and the effects of such a strategy on the Soviet Union and on U S allies are considered along with problems implementation might pose The author contends that both deterrence and the potential for limiting damage are strengthened by pre war plans for a nuclear ceasefire and stalemate short of holocaust **The Genevan Reformation and the American Founding** David W. Hall, 2005-01-01 In this provocative study

David W Hall argues that the American founders were more greatly influenced by Calvinism than contemporary scholars and perhaps even the founders themselves have understood Calvinism's insistence on human rulers' tendency to err played a significant role in the founders' prescription of limited government and fed the distinctly American philosophy in which political freedom for citizens is held as the highest value. Hall's timely work countervails many scholars' doubt in the intellectual efficacy of religion by showing that religious teachings have led to such progressive ideals as American democracy and freedom.

The Routledge Companion to Military Research Methods Alison J. Williams, Neil Jenkins, Rachel Woodward, Matthew F. Rech, 2016-04-28 This new handbook is about the practices of conducting research on military issues. As an edited collection it brings together an extensive group of authors from a range of disciplinary perspectives whose chapters engage with the conceptual, practical and political questions raised when doing military research. The book considers a wide range of questions around research about on and with military organisations, personnel and activities from diverse starting points across the social sciences, arts and humanities. Each chapter in this volume describes the nature of the military research topic under scrutiny and explains what research practices were undertaken and why. Discusses the author's research activities addressing the nature of their engagement with their subjects and explaining how the method or approach under scrutiny was distinctive because of the military context or subject of the research. Reflects on the author's research experiences and the specific, often unique negotiations with the politics and practices of military institutions and military personnel before, during and after their research fieldwork. The book provides a focussed overview of methodological approaches to critical studies of military personnel and institutions and processes and practices of militarisation and militarism. In particular, it engages with the growth in qualitative approaches to military research, particularly research carried out on military topics outside military research institutions. The handbook provides the reader with a comprehensive guide to how critical military research is being undertaken by social scientists and humanities scholars today and sets out suggestions for future approaches to military research. This book will be of much interest to students of military studies, war and conflict studies and research methods in general.

In Suspect Terrain John McPhee, 2011-04-01 From the outwash plains of Brooklyn to Indiana's drifted diamonds and gold, John McPhee's *In Suspect Terrain* is a narrative of the earth told in four sections of equal length, each in a different way reflecting the three others: a biography, a set piece about a fragment of Appalachian landscape, in illuminating counterpoint to the human history there, a modern collision of ideas about the origins of the mountain range and in contrast, a century-old collision of ideas about the existence of the Ice Age. The central figure is Anita Harris, an internationally celebrated geologist who went into her profession to get out of a Brooklyn ghetto. The unifying theme is plate tectonics, here concentrating on the acceptance that all aspects of the theory do not universally enjoy. As such, *In Suspect Terrain* is a report from the rough spots at the front edge of a science. *In Suspect Terrain* is the second book in a series on geology and geologists presenting a cross section of North America along the fortieth parallel and gathered under

the overall title *Annals of the Former World* The other books in the series are *Basin and Range* *Rising from the Plains* and *Assembling California*
