Combining social history with literary criticism James Krippner Mart nez shows how a historiographically sensitive rereading of contemporaneous documents concerning the sixteenth century Spanish conquest and evangelization of Michoac n and of later writings using them can challenge traditional celebratory interpretations of missionary activity in early colonial Mexico The book offers a fresh look at religion politics and the writing of history by employing a poststructuralist method that engages the exclusions as well as the content of the historical record The moments of doubt contradiction and ambiguity thereby uncovered lead to deconstructing a coherent conquest narrative that continues to resonate in our present age Part I The Politics of Conquest deals with primary sources compiled from 1521 to 1565 Krippner Mart nez here examines the execution of Cazonci the indigenous ruler of Michoac n as recounted in the trial record produced by his executioners explores the missionary Indian encounter as revealed in the Relaci n de Michoac n and assesses the writings of Michoac n s first bishop the legendary Vasco de Quiroga and their complex interplay of authoritarian paternalism and reformist hope Part II Reflections looks at how the memory of these historical figures is represented in later eras A key text for this discussion is the Cr nica de Michoac n written in the late eighteenth century by the Franciscan intellectual Pablo de Beaumont Krippner Mart nez concludes with a critique of the debate that initiated his investigation the controversy between Latin Americans and Europeans over the colonialist legacy beginning with the Latin American Bishops Conference in 1992 **Continuum**

Narrative Mutations Rudyard Alcocer, 2005-08-16 Given the welcomed shift throughout the academy away from essentialist and biologically fixed understandings of race and the body it is a curiosity worth exploring that so many sophisticated and even radical narratives retain physical and behavioral heredity as a guiding trope The persistence of this concept in Caribbean literature informs not only discourses on race ethnicity and sexuality but also conceptions of personal and regional identity in a postcolonial societies once dominated by slavery and the plantation In this book Rudyard Alcocer offers a theory of Caribbean narrative accounting for the complex interactions between scientific and literary discourses while expanding the horizons of narrative studies in general Covering works from Jean Rhys's *Wide Sargasso Sea* through contemporary fiction from the Hispanic Caribbean Narrative Mutations analyzes the processes and concepts associated with heredity in exploring what it means to be Caribbean Manufacturing Otherness Sergio Botta, 2014-01-14 The discovery of the New World offered European civilisation the chance to generate a process of circulation of its own cultural values the spiritual conquest that has no comparable precedents The missionary orders played an important role during this Westernisation of the world not only as key players in the spread of Christian values but also as mediators between different worlds Indeed missionary practices imposed the dominating culture's values and institutions on the vanquished peoples At the same time they also promoted the circulation of new knowledge and the negotiation between different cultures during the age of a global integration of space This book looks at the vast field of study concerning the history of missions from a specific viewpoint Firstly it focuses on local processes singling out specific case studies to be used for a general reflection On the other hand it refocuses the attention on the Indigenous cultures which the missionaries helped to bring to light in the field of Western history showing how they succeeded in entering the areas of negotiation created by missionaries and in producing their own cultural subjectivity

Indigenous Cosmolectics Gloria Elizabeth Chacón, 2018-09-28 Latin America's Indigenous writers have long labored under the limits of colonialism but in the late twentieth and twenty first centuries they have constructed a literary corpus that moves them beyond those parameters Gloria E Chacón considers the growing number of contemporary Indigenous writers who turn to Maya and Zapotec languages alongside Spanish translations of their work to challenge the tyranny of monolingualism and cultural homogeneity Chacón argues that these Maya and Zapotec authors reconstruct an Indigenous literary tradition rooted in an Indigenous cosmolectics a philosophy originally grounded in pre Columbian sacred conceptions of the cosmos time and place and now expressed in creative writings More specifically she

attends to Maya and Zapotec literary and cultural forms by theorizing kab awil as an Indigenous philosophy Tackling the political and literary implications of this work Chac n argues that Indigenous writers use of familiar genres alongside Indigenous language use of oral traditions and new representations of selfhood and nation all create space for expressions of cultural and political autonomy Chac n recognizes that Indigenous writers draw from universal literary strategies but nevertheless argues that this literature is a vital center for reflecting on Indigenous ways of knowing and is a key artistic expression of decolonization

The Desertmakers Javier Uriarte, 2019-10-29 This book studies how the rhetoric of travel introduces different conceptualizations of space and time in scenarios of war during the last decades of the 19th century in Argentina Brazil Paraguay and Uruguay By examining accounts of war and travel in the context of the consolidation of state apparatuses in these countries Uriarte underlines the essential role that war in connection to empire and capital has played in the Latin American process of modernization and state formation In this book the analysis of British and Latin American travel narratives proves particularly productive in reading the ways in which national spaces are reconfigured reimagined and reappropriated by the state apparatus War turns out to be a central instrument not just for making possible this logic of

appropriation but also for bringing temporal notions such as modernization and progress to spaces that were described albeit problematically as being outside of history The book argues that wars waged against deserts as Patagonia the sert o Paraguay and the Uruguayan countryside were described and imagined were in fact means of generating empty spaces real voids that were the condition for new foundations The study of travel writing is an essential tool for understanding the transformations of space brought by war and for analyzing in detail the forms and connotations of movement in connection to violence Uriarte pays particular attention to the effects that witnessing war had on the traveler s identity and on the relation that is established with the oikos or point of departure of their own voyage Written at the intersection of literary analysis critical geography political science and history this book will be of interest to those studying Latin American literature Travel Writing and neocolonialism and Empire writing From Viracocha to the Virgin of Copacabana Verónica

Salles-Reese,2010-07-05 Surrounded by the peaks of the Andean cordillera the deep blue waters of Lake Titicaca have long provided refreshment and nourishment to the people who live along its shores From prehistoric times the Andean peoples have held Titicaca to be a sacred place the source from which all life originated and the site where the divine manifests its presence In this interdisciplinary study Ver nica Salles Reese explores how Andean myths of cosmic and ethnic origins centered on Lake Titicaca evolved from pre Inca times to the enthronement of the Virgin of Copacabana in 1583 She begins by describing the myths of the Kolla pre Inca people and shows how their Inca conquerors attempted to establish legitimacy by reconciling their myths of cosmic and ethnic origin with the Kolla myths She also shows how a similar pattern occurred when the Inca were conquered in turn by the Spanish This research explains why Lake Titicaca continues to occupy a central place in Andean thought despite the major cultural disruptions that have characterized the region s history This book will be a touchstone in the field of Colonial literature and an important reference for Andean religious and intellectual history **La**
