## **Labor Migration Eu Enlargement And The Great Recession:**

Labor Migration, EU Enlargement, and the Great Recession Martin Kahanec, Klaus F. Zimmermann, 2016-05-11 This volume extends and deepens our knowledge about cross border mobility and its role in an enlarged EU More specifically its main purpose is to enlighten the growing and yet rather uninformed debate about the role of post enlargement migration for economic adjustment in the crisis stricken labor markets of the Eurozone and the EU as a whole The book addresses the political economy aspects of post enlargement migration including its broader political contexts redistributive impacts but also nationalization of the enlargement agenda It also covers the experience of receiving and sending countries with post enlargement migration and its role during the current crisis Renowned experts in the field study whether and how post enlargement mobility has enabled the EU to absorb asymmetric economic shocks how it has affected the European welfare systems and whether it has contributed to the sustainability of the Eurozone The authors also evaluate brain circulation as a sought after vehicle of improved allocative efficiency of EU labor markets and propose a policy agenda for mobility in an enlarged EU

**The Routledge Handbook to Regional Development in Central and Eastern Europe** Gábor Lux, Gyula Horváth, 2017-07-06 Twenty five years into transformation Central and Eastern European regions have undergone substantial socio economic restructuring integrating into European and global networks and producing new patterns of regional differentiation and development Yet post socialist modernisation has not been without its contradictions manifesting in increasing social and territorial inequalities Recent studies also suggest there are apparent limits to post socialist growth models accompanying a new set of challenges within an increasingly uncertain world Aiming to deliver a new synthesis of regional development issues at the crossroads between post socialism and post transition this book identifies the main driving forces of spatial restructuring in Central and Eastern Europe and charts the different regional development paths which take shape against the backdrop of post crisis Europe A comparative approach is used to highlight common development challenges and the underlying patterns of socio economic differentiation alike The issues investigated within the Handbook extend to a discussion of the varied economic consequences of transition the social structures and institutional systems which underpin development processes and the broadly understood sustainability of Central and Eastern Europe s current development model This book will be of interest to academics and policymakers working in the fields of regional studies economic geography development studies and policy

**A Second Chance for Europe** Jo Ritzen, 2017-05-18 This book calls upon us to rethink and reboot the European Union The authors dissect the EU s many vulnerabilities how some Member States are backsliding on the rule of law freedom of the press and control of corruption and how globalization s discontents are threatening the liberal international order It examines the need for a common immigration policy the need to rethink the unsustainable debt overhang of some Eurozone countries and the need to use education to foster a European identity Given the sum total of these vulnerabilities the book argues the EU may not survive beyond 2025 in its present form

that is unless decisive action is taken In turn the book puts forward a number of workable solutions a European economic model to secure full employment a stronger European Court of Human Rights to counter systemic violations a points based immigration policy clear exit options for the Eurozone and an Open Education Area with a common second language These solutions may reduce the number of EU countries but would increase cohesion and overall survivability *Migration in the Western Balkans* Russell King, Nermin Oruc, 2020-05-21 Migration in the Western Balkans rectifies the under investigation by migration scholars of the Western Balkans region by bringing together recent research at a time when migration is a hot topic for the future of Europe The book explores issues such as the complex geopolitics of the region the relationship between migration and development diasporas and refugees and humanitarianism Expert contributors present new research on economic migration forced migration diaspora formation and return migration at a time when migration is of crucial relevance for the future of Europe The chapters shed new light on the multiple migration dynamics of a region which has had a troubled past yet stands on the threshold of EU membership As a theatre of multiple migration processes Migration in the Western Balkans reveals new information on the region and will be of great interest to scholars of migration the Balkans and geopolitics The chapters were originally published as a special issue of the Journal of Balkan and Near Eastern Studies

The Unnoticed Effects of EU Accession Vesela Kovacheva, 2021-03-08 This study provides empirical evidence on the considerable but often unnoticed impact of EU accession on the mobility and integration of migrants from Bulgaria in Germany Original data from a time location sampling survey in Hamburg reveal that free movement not only induced a high level of mobility among EU citizens from Bulgaria after 2007 but also enabled their more permanent settlement in Germany The study also provides statistical evidence that EU citizenship contributed to better legal integration of Bulgarian migrants in Germany but national policies shaped to a greater extent their integration in terms of participation in the core areas of life Restrictive policies such as transitional periods in the freedom of work hampered labour market integration and created more disadvantaged positions for workers Inclusive policies such as the dual citizenship policy facilitated the naturalisation of settled migrants and led to exceptionally high naturalisation rates for Bulgarians that point to their successful integration in society However integration successes remain almost unnoticed in public discourse which is dominated by the image of Bulgarian migration as a challenge The Economic Geography of Cross-Border Migration Karima Kourtit, Bruce

Newbold, Peter Nijkamp, Mark Partridge, 2020-12-07 This handbook presents a collection of high quality authoritative scientific contributions on cross border migration written by a carefully selected group of recognized migration experts from around the globe In recent years cross border migration has become an important and intriguing issue from both a scientific and policy perspective In the age of migration the volume of cross border movements of people continues to rise while the nature of migration flows in terms of the determinants length of stay effects on the sending and host countries and legal status of migrants is changing dramatically Based on a detailed economic geographical analysis this handbook studies the

motives for cross border migration the socio economic implications for sending countries and regions the locational choice determinants for cross border migrants and the manifold economic geographic consequences for host countries and regions Given the complexity of migration decisions and their local or regional impacts a systematic typology of migrants motives legal status level of education gender age singles or families etc is provided together with an assessment of push factors in the place of origin and pull factors at the destination On the basis of a solid analytical framework and reliable empirical evidence it examines the impacts of emigration for sending areas and of immigration for receiving areas and provides a comprehensive discussion of the policy dimensions of cross border migration

**Emerging European Economies after the Pandemic** László Mátyás, 2022-02-07 This edited volume examines the development path of eight Central and Eastern European countries with an overlapping historical background that joined the European Union between 2004 and 2013 and identifies the main similarities and differences between the countries concerned Based on wide comparative data analysis of Bulgaria Croatia The Czech Republic Hungary Poland Romania Slovakia and Slovenia each chapter in the volume provides detailed information about the state of the economy in a specific area preceding the pandemic shock The book offers a detailed snapshot of the state of the different areas of the economy starting from the time when the countries concerned came out of the 2008 financial crisis up to the date when COVID 19 hit Further each chapter analyzes the effects of this unprecedented shock on a particular field which is followed by highlighting the main problems the countries are facing at present and in the near future together with identifying the available policy options Finally before concluding and making general and country specific policy recommendations some thoughts will be given to longer term prospects More specifically the question of how the subject area could contribute to avoiding the middle income trap that this region may be facing will be addressed The comprehensive approach makes this volume a must read for scholars and students of economics as well as policy decision makers in Europe interested in a better understanding of the region s economic development

Cultures of Transnationality in European Migration Karolina Bargłowski, 2019-06-05 Transnational mobility in the EU has become a key factor for supranational integration equal life chances and socioeconomic prosperity This book explores the cultural and social patterns that shape people s migration the historical and contemporary patterns of their movement and the manifold consequences of their migration for themselves and their families Exploring the links between social and spatial mobility the book draws attention to the complexity of moving and staying as ways in which social inequalities are shaped and reinforced Grounded in research conducted in Germany and Poland the book develops the concept of cultures of transnationality to analytically frame the variety of expectations involved in migration and how they shape migration dispositions opportunities and outcomes Cultures of Transnationality in European Migration will be of broad interest to scholars and students of transnational migration European development cultural sociology intersectionality and subjectivity Specifically it will appeal to scholars interested in the cultural ramifications of moving and staying as well as those interested in the interplay of

gender ethnicity and class in the making of social inequality

study of the science of population aging in the late 1970s      *Migration to and from Welfare States* Oleksandr Ryndyk, Brigitte Suter, Gunhild Odden, 2021-04-08 This open access book explores the role of family public market and third sector welfare provision for individual and households decisions regarding geographical mobility It challenges the state centred approach in research on welfare and migration by emphasising migrants own reflections and experiences It asks whether and in which ways different welfare concerns are part of migrants decisions regarding or aspirations for mobility Employing a transnational and a translocal perspective the book addresses different forms of geographical mobility such as immigration emigration and re migration circular and return migration By bringing in empirical findings from across a variety of Western and non Western contexts the book challenges the Eurocentric focus in current debates and contributes to a more nuanced and more integrated global account of the welfare migration nexus      **Gender, Family, and Adaptation**

**of Migrants in Europe** Ionela Vlase, Bogdan Voicu, 2018-05-31 This volume documents the life uncertainties revealed by migrants biographies For international migrants life journeys are less conventional or patterned while their family work and educational trajectories are simultaneously more fragmented and intermingled The authors discuss the challenges faced by migrants and returnees when trying to make sense of their life courses after years of experience in other countries with different age norms and cultural values The book also examines the ways to reconcile competing cultural expectations of both origin and destination societies regarding the timing of transitions between roles to provide a meaningful account of their life courses Migration is itself a major life event with profound implications for the pursuit of migrants life goals organization of family life and personal networks and it can affect to a considerable degree their subjective well being Chapter 9 is available open access under a Creative Commons Attribution 4.0 International License via link [springer.com](https://www.springer.com)

**Handbook of Human Mobility and Migration** Ettore Recchi, Mirna Safi, 2024-01-18 While mobility trajectories and experiences are key in migrants lives they are relatively neglected in the field of migration studies Using mobility as a unique angle of approach the Handbook of Human Mobility and Migration is a pioneering assessment of the theoretical concerns empirical questions and issues of governance surrounding international mobility and migration today      **International Residential Mobilities** Josefina Dominguez-Mujica, Jennifer McGarrigle, Juan Manuel Parreño-Castellano, 2021-10-04 This book assesses the drivers and impacts of new international residential mobilities by considering a range of mobilities in different countries across the globe from investment amenity and retirement mobilities to those of the new global middle class and the transnational elites It examines the intersection of these mobilities with the increase in the volume of global tourism the advent of the sharing economy and peer to peer platforms and the effects of transnational property investment The consequent transformations are considered in urban environments where tourism pressure coexists with gentrification increasing house prices and processes of social and ethnic segregation By offering a broad perspective based on different case studies the book portrays the contradictory consequences of international residential mobilities both favouring local

opportunities for development and disrupting housing markets through the disassociation from local demand As a result this book is a great resource for academics and students in tourism urban and migration studies as well as policy makers and practitioners involved in urban planning social affairs and tourism management **The Diaspora and Returnee**

**Entrepreneurship** Nick Williams,2021 The Diaspora and Returnee Entrepreneurship analyzes the role that the diaspora play when returning as entrepreneurs to their homeland Through an analysis of the post conflict economies of Bosnia Herzegovina Kosovo and Montenegro Nick Williams demonstrates the importance of emotional attachment in migration and investment decisions and argues for effective strategies to improve political and economic integration *Routledge Handbook of International Family Law* Barbara Stark,Jacqueline Heaton,2019-01-30 Globalisation and the vast migrations of capital and labour that have accompanied it in recent decades has transformed family law in once unimaginable ways Families have been torn apart and new families have been created Borders have become more porous allowing adoptees and mail order brides to join new families and women fleeing domestic violence to escape from old ones People of different nationalities marry have children and divorce not necessarily in that order They file suits in their respective home states or third states demanding support custody and property Otherwise law abiding parents risk jail in desperate efforts to abduct their own children from foreign ex spouses The aim of this Handbook is to provide scholars postgraduate students judges and practioners with a broad but authoritative review of current research in the area of International Family Law The contributors reflect on a range of jurisdictions and legal traditions and their approaches vary Each chapter has a distinct subject matter and was written by an author who was invited because of his or her expertise on that subject This volume provides a valuable contribution to emerging understandings of the subject *Handbook of Return Migration* King, Russell,Kuschminder, Katie,2022-01-18 This authoritative Handbook provides an interdisciplinary appraisal of the field of return migration advancing concepts and theories and setting an agenda for new debates **Bridging the Gaps** Martin Ruhs,Kristof Tamas,Joakim Palme,2019-03-28 What is the use of research in public debates and policy making on immigration and integration Why are there such large gaps between migration debates and migration realities and how can they be reduced Bridging the Gaps Linking Research to Public Debates and Policy Making on Migration and Integration provides a unique set of testimonies and analyses of these questions by researchers and policy experts who have been deeply involved in attempts to link social science research to public policies Bridging the Gaps argues that we must go beyond the prevailing focus on the research policy nexus by considering how the media public opinion and other dimensions of public debates can interact with research and policy processes The chapters provide theoretical analyses and personal assessments of the successes and failures of past efforts to link research to public debates and policy making on migration and integration in six different countries Germany the Netherlands Norway Sweden the United Kingdom and the United States as well as in European and global governance debates Contrary to common public perceptions and political demands Bridging the Gaps

argues that all actors contributing to research public debates and policy making should recognize that migration integration and related decision making are highly complex issues and that there are no quick fixes to what are often enduring policy dilemmas When the different actors understand and appreciate each other's primary aims and constraints such common understandings can pave the way for improved policy making processes and better public policies that deal more effectively with the real challenges of migration and integration

*Domestic Contestation of the European Union* Sara B. Hobolt, Toni Rodon, 2021-06-29 This book examines how Europe wide issues such as immigration cross national redistribution and further European integration have reshaped electoral democracy and party competition across Europe After decades of scholars and commentators bemoaning the limited politicization of the EU nationally European issues have come to dominate domestic electoral politics From the Eurozone crisis to the struggle of dealing with growing numbers of migrants and refugees entering Europe EU wide issues now occupy a salient part of the domestic political debate This book examines what drives public opinion towards some of the key Europe wide issues of the day and how these EU issues shapes electoral behaviour and party competition It brings together leading scholars from different fields to explore what shapes preferences towards Europe wide policy issues how they influence electoral behaviour and party fortunes and what the implications are for the quality of European democracy Overall this book deepens our understanding of the state of European democracy domestically in an era in which national and Europe wide problems and policy solutions are inextricably linked The chapters in this book were originally published in the Journal of European Public Policy
