Dan Goldberg,2020-05-19 The inspiring story of the 13 courageous Black men who integrated the U S Navy during World War II leading desegregation efforts across America and anticipating the civil rights movement Featuring previously unpublished material from the U S Navy this little known history of forgotten civil rights heroes uncovers the racism within the military and the fight to serve Through oral histories and original interviews with surviving family members Dan Goldberg brings thirteen forgotten heroes away from the margins of history and into the spotlight He reveals the opposition these men faced the racist pseudo science the regular condescension the repeated epithets the verbal abuse and even violence Despite these immense challenges the Golden Thirteen persisted understanding the power of integration the opportunities for black Americans if they succeeded and the consequences if they failed Until 1942 black men in the Navy could hold jobs only as cleaners and cooks The Navy reluctantly decided to select the first black men to undergo officer training in 1944 after enormous pressure from ordinary citizens and civil rights leaders These men segregated and sworn to secrecy worked harder than they ever had in their lives and ultimately passed their exams with the highest average of any class in Navy history In March 1944 these sailors became officers the first black men to wear the gold stripes Yet even then their fight wasn't over white men refused to salute them refused to eat at their table and refused to accept that black men could be superior to them in rank Still the Golden Thirteen persevered determined to hold their heads high and set an example that would inspire generations to come In the vein of Hidden Figures The Golden Thirteen reveals the contributions of heroes who were previously lost to history Golden Guide to Hongkong and Macao P. Bulletin and Dairy World ,1915 **Project Puffin** Stephen W. Kress,Derrick Z. Jackson,2015-01-01 The inspiring story of a young ornithologist who reintroduced puffins where none had been seen for a century Project Puffin is the inspiring story of how a beloved seabird was restored to long abandoned nesting colonies off the Maine coast As a young ornithology instructor at the Hog Island Audubon Camp Dr Stephen W Kress learned that puffins had nested on nearby islands until extirpated by hunters in the late 1800s To right this environmental wrong he resolved to bring puffins back to one such island Eastern Egg Rock Yet bringing the plan to reality meant convincing skeptics finding resources and inventing restoration methods at a time when many believed in letting nature take its course Today Project Puffin has restored more than 1 000 puffin pairs to three Maine islands But even more exciting techniques developed during the project have helped to restore rare and endangered seabirds worldwide Further reestablished puffins now serve as a window into the effects of global warming The success of Dr Kress s project offers hope that people can restore lost wildlife populations and the habitats that support them The need for such inspiration has never been greater *Resources in Education* ,1996

Golden Years James Chappel,2024-11-19 The surprising history of old age in modern America showing how we created unprecedented security for some and painful uncertainty for others On farms and in factories Americans once had little choice but to work until death As the nation prospered a new idea was born the right to a dignified and secure old age That project has benefited millions but it remains incomplete and today it s under siege In Golden Years historian James Chappel shows how old age first emerged as a distinct stage of life and how it evolved over the last century shaped by politicians choices activists demands medical advancements and cultural models from utopian novels to The Golden Girls Only after World War II did government subsidies and employer pensions allow people to retire en masse Just one generation later this model crumbled Older people streamed back into the workforce and free market policymakers pushed the burdens of aging back onto older Americans and their families We now confront an old age mired in contradictions ever longer lifespans and spiraling health care costs 401 k s and economic precarity unprecedented opportunity and often disastrous instability As the population of older Americans grows Golden Years urges us to look to the past to better understand old age today and how it could be better tomorrow The Golden Harp Luther Orlando Emerson,1858
