Why Hardboiled Web Design is the must buy web book of the year

With Hardboiled Web Design, Andy Clarke says it loud and clear. He goes all hard-ass and with reason! We should not follow a wait-and-see policy anymore when it comes down to using CSS3. We should be brave, ambitious, and not hold our creativity back because not everyone will experience the a site the same in every browser. We should to push graceful degradation further. Just like the man states himself "To hell with being graceful!"
