Treatise on Geomorphology ,2013-02-27 The changing focus and approach of geomorphic research suggests that the time
 is opportune for a summary of the state of discipline The number of peer reviewed papers published in geomorphic journals
 has grown steadily for more than two decades and more importantly the diversity of authors with respect to geographic
 location and disciplinary background geography geology ecology civil engineering computer science geographic information
 science and others has expanded dramatically As more good minds are drawn to geomorphology and the breadth of the peer
 reviewed literature grows an effective summary of contemporary geomorphic knowledge becomes increasingly difficult The
 fourteen volumes of this Treatise on Geomorphology will provide an important reference for users from undergraduate
 students looking for term paper topics to graduate students starting a literature review for their thesis work and
 professionals seeking a concise summary of a particular topic Information on the historical development of diverse topics
 within geomorphology provides context for ongoing research discussion of research strategies equipment and field methods
 laboratory experiments and numerical simulations reflect the multiple approaches to understanding Earth s surfaces and
 summaries of outstanding research questions highlight future challenges and suggest productive new avenues for research
 Our future ability to adapt to geomorphic changes in the critical zone very much hinges upon how well landform scientists
 comprehend the dynamics of Earth s diverse surfaces This Treatise on Geomorphology provides a useful synthesis of the
 state of the discipline as well as highlighting productive research directions that Educators and students researchers will find
 useful Geomorphology has advanced greatly in the last 10 years to become a very interdisciplinary field Undergraduate
 students looking for term paper topics to graduate students starting a literature review for their thesis work and
 professionals seeking a concise summary of a particular topic will find the answers they need in this broad reference work
 which has been designed and written to accommodate their diverse backgrounds and levels of understanding Editor in Chief
 Prof J F Shroder of the University of Nebraska at Omaha is past president of the QG G section of the Geological Society of
 America and present Trustee of the GSA Foundation while being well respected in the geomorphology research community
 and having won numerous awards in the field A host of noted international geomorphologists have contributed state of the
 art chapters to the work Readers can be guaranteed that every chapter in this extensive work has been critically reviewed for

consistency and accuracy by the World expert Volume Editors and by the Editor in Chief himself No other reference work exists in the area of Geomorphology that offers the breadth and depth of information contained in this 14 volume masterpiece From the foundations and history of geomorphology through to geomorphological innovations and computer modelling and the past and future states of landform science no stone has been left unturned **The South American Handbook** ,1997
