Rybolt,2014-10-01 THE SUBTITLE OF THIS VOLUME is An Era of Expansion 1878 1919 It reflects the reality of the Congregation of the Mission under the leadership of Antoine Fiat the superior general who governed the Community longer than St Vincent de Paul Like the founder Fiat was a man of both prayer and action Also like the founder Fiat was often hesitant and delayed final decisions His confreres spread to new missions such as the republics of Central America and Argentina and several missions or provinces had grown large enough to be given more autonomy such as the two American provinces the Antilles Barcelona Ecuador Belgium and Holland Madagascar and Colombia China continued to attract many missionaries as well as local Chinese vocations despite war and unrest This volume then relates not only that the Vincentians members of the Congregation of the Mission grew in number and influence but how they exercised their ministry Persecution was their lot in some regions but they forged ahead As always they sought to align their ministries at the end of the nineteenth and the beginning of the twentieth centuries with the original mission entrusted to them by the Church through Vincent de Paul to bring the Gospel to the poor **The Spanish language, la gramática inglesa, and the English reader** Nicolas Gouin

Duffie, 1811 **The Body of the Conquistador** Rebecca Earle, 2012-04-23 This fascinating history explores the dynamic relationship between overseas colonisation and the bodily experience of eating. It reveals the importance of food to the colonial project in Spanish America and reconceptualises the role of European colonial expansion in shaping the emergence of ideas of race during the Age of Discovery. Rebecca Earle shows that anxieties about food were fundamental to Spanish understandings of the new environment they inhabited and their interactions with the native populations of the New World. Settlers wondered whether Europeans could eat New World food, whether Indians could eat European food, and what would happen to each if they did. By taking seriously their ideas about food, we gain a richer understanding of how settlers understood the physical experience of colonialism and of how they thought about one of the central features of the colonial project. The result is simultaneously a history of food colonialism and race. *Between the Maternal Aegis and the Abyss* Michelle C. Geoffrion-Vinci, 2002 Rosalia de Castro 1837-85 wrote five volumes of poetry before succumbing to cancer of the uterus at the age of forty-eight. While she is perhaps best known for her more introspective and intimate poetry, Castro's mature works are also highly feminist and political in thematic orientation. This book examines the fascinating system of poetic techniques Castro employs in her works to link the compelling issues surrounding femaleness and identity both national and individual to the construction of a system of gendered symbolic language that has been vastly understudied by contemporary scholars. **Public Sphere and Religion** Carl Antonius Lemke Duque, 2020-11-17 Das Verhältnis zwischen Öffentlichkeit und Religion ist einer der großen Klassiker der Geistesgeschichte, der bis heute nichts von seiner Bedeutung eingebüßt hat. Mit großer Regelmäßigkeit rekurrieren Soziologen und Politikwissenschaftler auf eine Rückkehr der Religionen in den öffentlichen Raum. Im Zuge von Säkularisierung, Globalisierung und Digitalisierung stehen moderne Öffentlichkeiten und Religionen in einem stetig komplexeren Netz wechselseitiger Transformation. Einen besonderen Kristallisationspunkt dieses intensiven Wechselverhältnisses bilden die beiden großen Schlüsselthemen öffentliche Bildung und universitäre Forschung. Die im vorliegenden Band versammelten Beiträge beleuchten schlaglichtartig einige ausgewählte Aspekte in diesem weiten Feld vom Ende des 18. Jahrhunderts bis in die Gegenwart. The relationship between the public sphere and religion is one of the great classics of the history of humanities. To this day it has lost none of its topicality. Sociologists and political scientists continue to refer with great frequency to a return of religions to the public sphere. In the course of secularization, globalization and digitalization, modern public spheres and religions find themselves in an increasingly complex web of mutual transformation. Public education and university research represent two key issues of this intensive interrelation. The contributions collected in the present volume illuminate selected aspects of this broad field from the end of the 18th century to the present.
