The Oxford Handbook of Women, Peace and Security Sara E. Davies,Jacqui True,2019 Passed in 2000 the United Nations Security Council Resolution 1325 and subsequent seven Resolutions make up the Women Peace and Security WPS agenda This agenda is an international policy framework addressing the gender specific impacts of conflict on women and girls including protection

against sexual and gender based violence promotion of women s participation in peace and security processes and support for women s roles as peace builders in the prevention of conflict and rebuilding of societies after conflict The handbook addresses the concepts and early history behind WPS international institutions involved with the WPS agenda the implementation of WPS in conflict prevention and connections between WPS and other UN resolutions and agendas

National, European and Human Security Mary Martin,Mary Kaldor,Narcís Serra,2013 This book examines how national security strategies relate to an emerging common European or global vision of security and to human security ideas Human security and national security are often regarded as competing and mutually antagonistic the former was proposed and has been operationalised in ways which represent a paradigm shift away from state centric approaches and the dominance of national security perspectives This has led to human security being associated with a broadening of the security agenda to encompass not only physical security the use of force and military capabilities but also the provision of material well being and dignity to vulnerable communities This edited volume seeks to identify key concepts and themes in the national discourse of several European countries addressing security at a meta narrative and conceptual level illustrating the changes taking place in approaches to security and in particular mapping moves away from a paradigm of national security to one which might be called human security It also enables an assessment of whether national security is currently converging at either European or global levels This book will be of much interest to students of human security European politics discourse analysis war and conflict studies and IR security studies in general

Serial Authorship and New Directions in Spanish Female

Detective Fiction Inmaculada Pertusa-Seva,Melissa A. Stewart,2024-10-11 This collection of essays expands our understanding and appreciation of the body of work by established female authors of Spanish crime fiction series by analyzing recent narratives that in some cases contribute in novel ways to the ongoing reformulation of the genre and in others provide readers with a temporary hiatus from it The studies offer students and scholars of crime fiction new perspectives on the works of well known authors as well as analyses of their often less known narratives that may not fit within the genre Readers will engage in an exploration of gender dynamics and sexuality a variety of psychological and social

issues and the consequences of the indiscriminate consumption of media and abuse of the environment and animals in narratives that exhibit the versatility of these outstanding authors The volume will appeal to a wide audience of literary and cultural studies critics as well as crime fiction enthusiasts and newcomers to this popular genre

corpus of literary works shaped by the Renaissance and the Baroque that appeared in Spain during the sixteenth and seventeenth centuries had a transforming effect on writing throughout Europe and left a rich legacy that scholars continue to explore. For four decades after the Spanish Civil War the study of this literature flourished in Great Britain and Ireland where many of the leading scholars in the field were based. Though this particular Golden Age was followed by a decline for many years there have recently been signs of a significant revival. The present book seeks to showcase the latest research of established and younger colleagues from Great Britain and Ireland on the Spanish Golden Age. It falls into four sections in each of which works by particular authors are examined in detail: prose (Miguel de Cervantes, Francisco de Quevedo, Baltasar Gracian, poetry (The Count of Salinas, Luis de Góngora, Pedro Soto de Rojas), drama (Cervantes, Calderón, Lope de Vega) and colonial writing (Bernardo Balbuena, Hernando Domínguez, Camargo, Alonso de Ercilla). There are essays also on more general themes, the motif of poetry as manna, rehearsals on the Golden Age stage, proposals put to viceroys on governing Spanish Naples. The essays taken together offer a representative sample of current scholarship in England, Scotland and Ireland.

Emma Spanish Version Jane Austen, *Emma* de Jane Austen es una brillante comedia de costumbres centrada en una joven que le encanta hacer de casamentera aunque no tan hábil como ella cree. Emma Woodhouse rica, hermosa y un poco demasiado segura de sí misma se encarga de organizar las vidas románticas de quienes la rodean. Pero a medida que sus interferencias llevan a malentendidos y consecuencias inesperadas, Emma empieza a aprender lecciones importantes sobre el amor, la humildad y la autoconciencia. Con aguda ironía y un ingenioso estilo, Austen ofrece una exploración encantadora y perspicaz del romance, el estatus social y el crecimiento personal. *Emma* sigue siendo una de sus novelas más queridas y duraderas.

[Acoso laboral o mobbing](#) Camacho-Ramírez, Adriana, 2018-12-10. Esta obra describe los avances y las falencias del desarrollo normativo jurisprudencial y práctico del acoso laboral, el todo acompañado de la doctrina más ilustre que existe por el momento. La doctrina a la que nos referimos es en su gran mayoría proveniente de disciplinas distintas a la jurídica, como la psicología, la psiquiatría y la sociología. La estructura de la presente investigación se encuentra dividida en cinco capítulos, desde nociones generales y básicas hasta los problemas que se genera y propuestas de solución a los mismos. El libro está dirigido a aquellos trabajadores que puedan considerarse víctimas y también a abogados, jueces y personal de recursos humanos entre otros.
