La Terre Collection Jeunesse:

Jewish Youth and Identity in Postwar France Daniella Doron, 2015-09-28 Highlights the debates surrounding family and identity as French Jewish communities slowly recovered and reestablished their place in the French nation. Choice At the end of World War II French Jews faced a devastating demographic reality: thousands of orphaned children, large numbers of single parent households and families in emotional and financial distress. Daniella Doron suggests that after years of occupation and collaboration, French Jews and non Jews held contrary opinions about the future of the nation and the institution of the family. At the center of the disagreement was what was to become of the children. Doron traces emerging notions about the postwar family and its role in strengthening Jewish ethnicity and French republicanism in the shadow of Vichy and the Holocaust. Doron's book appears at a key moment. Its emphasis on children emerging from hunger, displacement and war should render it standard reading for policymakers, NGOs and others interested in shaping the destinies of today's abandoned children. French History Raises fundamental questions for the understanding of not only Jewish reconstruction in post World War II France but also Holocaust memory, postwar French society and culture and the history of postwar European families and children. French Politics, Culture and Society. Doron's deftly argued and well researched book is an important intervention into a growing body of scholarship on the postwar decade. She convincingly documents the central role that the rehabilitation of Jewish children and the reconstruction of Jewish families played in post war French Jewish reconstruction and underscores the importance of the decade following the war in shaping Jewish historical evolution in France. Maud Mandel, author of *Muslims and Jews in France*, **The Free World** Louis Menand, 2021-04-20 An engrossing and impossibly wide ranging project. In *The Free World*, every seat is a good one. Carlos Lozada, *The Washington Post*. *The Free World* sparkles. Fully original, beautifully written. One hopes Menand has a sequel in mind. The bar is set very high. David Oshinsky, *The New York Times* Book Review. Editors' Choice. One of *The New York Times*'s 100 best books of 2021. One of *The Washington Post*'s 50 best nonfiction books of 2021. A Mother Jones best book of 2021. In his follow up to the Pulitzer Prize winning *The Metaphysical Club*, Louis Menand offers a new intellectual and cultural history of the postwar years. The Cold War was not just a contest of power. It was also about ideas in the broadest sense: economic and political, artistic and personal. In *The Free World*, the acclaimed Pulitzer Prize winning scholar and critic Louis Menand tells the story of American culture in the pivotal years from the end of World War II to Vietnam and shows how changing economic, technological and social forces put their mark on creations of the mind. How did elitism and an anti totalitarian skepticism of passion and ideology give way to a new sensibility defined by freewheeling experimentation and loving the Beatles? How was the ideal of freedom applied to causes that ranged from anti communism and civil rights to radical acts of self creation via art and even crime? With the wit and insight familiar to readers of *The Metaphysical Club* and his *New Yorker* essays, Menand takes us inside Hannah Arendt's Manhattan, the Paris of Jean Paul Sartre and Simone de Beauvoir. Merce

Cunningham and John Cage's residencies at North Carolina's Black Mountain College and the Memphis studio where Sam Phillips and Elvis Presley created a new music for the American teenager. He examines the post-war vogue for French existentialism, structuralism and post-structuralism, the rise of abstract expressionism and pop art, Allen Ginsberg's friendship with Lionel Trilling, James Baldwin's transformation into a Civil Rights spokesman, Susan Sontag's challenges to the New York Intellectuals, the defeat of obscenity laws and the rise of the New Hollywood. Stressing the rich flow of ideas across the Atlantic, he also shows how Europeans played a vital role in promoting and influencing American art and entertainment. By the end of the Vietnam era, the American government had lost the moral prestige it enjoyed at the end of the Second World War, but America's once despised culture had become respected and adored. With unprecedented verve and range, this book explains how that happened.

Reference Laure Gardelle, Laurence Vincent-Durroux, Hélène Vinckel-Roisin, 2023-02-02. This volume provides an innovative approach to the referential process thanks to its focus on the relationship between conventions and discourse pragmatics. It brings together a cross-section of current research on referential conventions and pragmatic strategies in a number of different fields: formal and theoretical linguistics, semantics, discourse analysis, psycholinguistics, interactional linguistics, natural language processing in a variety of verbal and non-verbal languages, English, German, different varieties of French, Indonesian, French, Belgian Sign Language, and in a diversity of contexts: the coining of names, language acquisition, second language learning, and various genres such as news articles, narratives, satire, or game playing. The volume is meant as a series of thought-provoking studies which place speakers and addressees at the core of the referential act, thus providing evidence on how they negotiate and adjust depending on the context.

Ralph Waldo Emerson Marie Dugard, 1907. **French Today** Carol Sanders, 1993-04-08. French Today is a profile of the French language in its social context. British and French linguists examine trends in French throughout the French-speaking world and address issues around prescriptivism, gender and language, and regional languages and dialects. The collection includes overviews of work done in particular areas and deeper analyses of sociolinguistic questions. One theme is how to represent and interpret data relating to language varieties that have been marginalised. Another concerns the ways in which French is adapting to the future, whether as a language of new technology or as a vehicular language on the continent. All chapters of this book are in English, with examples and quotations in French, and a mixture of references given in both languages. At the end of each chapter, there are also texts in French serving as illustration and as pointers to further reading.
