Middle School Joseph S. Krajcik, Charlene M. Czerniak, 2025-09-11 This essential science methods resource integrates principles of learning and motivation with practical teaching ideas for the elementary and middle school science classroom. It employs project based learning (PBL) to enable educators to engage their students in meaningful real world questioning about the world. It provides concrete strategies for meeting the Framework for K-12 Science Education. Chapters offer examples of project based lessons to help teachers support children in varying modes of inquiry such as asking critical questions, designing investigations, constructing models, and developing evidence based explanations. Features in the Sixth Edition include: Instruction on using PBL to make connections to Common Core Standards for Mathematics and English Language Arts; An increased attention to assessment for learning; A focus on three dimensional learning. This book is ideal for pre-service and in-service elementary and middle school science and STEM teachers and is designed for use in related methods courses or professional learning opportunities.

Dialogic Collaborative Action Research in Science Education Allan Feldman, Jawaher Alsultan, Katie Laux, Molly Nation, 2023-08-17 This engaging and practical book offers science teacher educators and K-12 science teachers alike the tools to engage in a dialogic mode of collaborative action research (D-CAR), a collaborative mode of action research focused on teachers' experiences with students' reflection upon these experiences and peer learning. Renowned science educator Allan Feldman and co-authors from across numerous settings in K-12 science education present the theory, methodology, case studies, and practical advice to support the use of D-CAR as a means to enhance teachers' normal practice and address the problems, dilemmas, and dissonances that science teachers must negotiate as they work to meet the needs of an increasingly diverse student population and engage with complex science teaching challenges that disproportionately affect marginalized students. The book will be of use to science teacher educators, pre-service and in-service science teachers, professional development specialists, or any science educator invested in developing creative, reflective, and thoughtful teachers.
