Wiehe, 1996-06-24 How do you intervene in abusive and neglectful families or prevent maltreatment in families at risk How can you find the answers you need in the overwhelming array of information now available on the subject In *Working with Child Abuse and Neglect* author Vernon R. Wiehe helps you focus by evaluating a wealth of references to current published literature and pinpointing the practical applications that put these findings into action Condensing the explosion of knowledge about child maltreatment into one provoking yet accessible primer Wiehe first offers a historical perspective on child maltreatment and an assessment of the scope of the problem He also discusses theoretical perspectives for understanding the problem and specific treatment and prevention techniques Information on state and national organizations working in the field illustrates not only the size of the problem but also the mobilized efforts to stem child abuse and neglect As well as a balanced introduction *Working with Child Abuse and Neglect* serves as a springboard to important sources of additional knowledge Ideal for upper division undergraduates as well as graduate students and anyone in the helping professions who is beginning to work with victimized children *Working with Child Abuse and Neglect* provides a sound assessment of the state of the literature and application in this expanding area of study and practice In addition the handy reference value of this volume will appeal in particular to social workers counseling and clinical psychologists and nurses Solution-based Casework William C. Barrett, 2020-08-13 Solution based casework is an approach to assessment case planning and case management that combines what we know from clinical social work with what we value about sound social

work practice It is grounded in family centered social work and draws from clinical approaches within social work and mental health By integrating problem and solution focused approaches that form the clinical and social work traditions treatment partnerships are more easily formed between family caseworker and service provider Solution Based Casework is a skill based practice oriented text that provides the specific guidance that students and new practitioners need in order to make sense quickly of the complex tasks of assessment and case planning in child welfare The book flows out of a long practice experience and was developed in consultation with workers and supervisors who were attempting to remedy problems viewed as contributing to recurrent abuse and neglect It seeks to end adversarial relationships in casework and advocates case plans based on specific outcome skills rather than on those written with vague outcome goals measuring attendance in counseling It serves as a common conceptual framework for integrating disparate segments of a response network thereby allowing all providers in a therapeutic system to work toward common goals The text is divided into three sections In Section I the conceptual history and theoretical foundations of solution based casework are presented so that the reader can place this approach to casework within the ongoing professional conversation about what constitutes sound practice Section II addresses issues of assessment and case planning Section III focuses on case management issues and how treatment team members experience a solution based casework approach
