Hermeneutics, Scriptural Politics, and Human Rights Bastiaan de Gaay Fortman, Kurt Martens, Mohamed Abdel Rahim Mohamed Salih, 2009 This book articulates the relationships involving hermeneutics and scriptural politics in the complex fields of religious freedom and human rights with particular focus on women and minorities in Christianity Judaism and Islam It traverses the conventional notions of religious hermeneutics by explicating the capacity of hermeneutics broadly understood as the act of interpretation of in transforming scripture into meaning and meaning into political or social action in the name of religion or God

Political Economy of Human Rights Bas de Gaay Fortman, 2011-06-15 The plethora of literature produced over the past decade in response to the perceived failure of the human rights project to deliver results for billions of people living in adverse environments has usually focused on international legal standards and mechanisms with little regard for the root structural realities that constrain their implementation Hence a text that primarily focuses on the major challenge of realisation of human rights in the context of diverse realities is urgently needed This book then provides an analytical as well as inspirational text on human rights from a contextual perspective it offers a reconceptualisation of human rights as not merely legal resources but political tools as well After an introduction that familiarizes the reader with some of the key concepts used throughout the book is divided into six chapters The first two combine a critique of the overly legal use of human rights with a reconceptualisation of their potential as powerful tools outside of the legal context The next two chapters examine the nature of the structural challenges that face realisation both on the global and on the local level The last two chapters analyse two major areas of the human rights deficit the structural non implementation of the rights of the poor and the failing protection of non dominant collectivities Finally a concluding chapter elaborates on the main findings and insights gained The book combines rigorous juridical study with a focus on political economic analysis of rights in context Hence it aims at an interdisciplinary treatment of human rights as opposed to current texts that have a tendency to be monodisciplinary The book should be of interest to students of human rights political economy law and conflict studies as well as those who work or research in these areas

Interpretation and Meaning in Philosophy and Religion Dirk-Martin Grube, 2016-06-10 Interpretation and Meaning in Philosophy and Religion synthesizes cutting edge philosophical reflections on interpretation with their application to religion For this new theoretical insights on interpretation by Krausz Lamarque Leddy Hagberg and Gibson are examined Topics cover pluralism i.e. interpretative pluralism the goal of interpretation and its starting point These concepts are then studied in relation to the practice of interpreting religious texts For example Grube proposes that the action relevance of religious interpretations limits the

possibility of tolerating divergent interpretations Karrer Grube challenges Lamarque's insistence on a firm starting point and Gokhale challenges Krausz by arguing that Vedantic practices of interpretation are non multiplist

Reading the Gospel of Mark as a Novel Geert Van Oyen, 2014-11-12 The world is flooded with novels about secret messages or hidden texts. They all pretend to reveal the ultimate truth of Jesus. In this book Geert Van Oyen goes back to the oldest gospel and explores its story as a challenging and revolutionary message for any reader. By employing a narrative critical approach Van Oyen demonstrates how the narrator accompanies readers in their quest for the identity of the protagonist Jesus. Along the way readers will discover that faith in Jesus is not a matter of theoretical truth but of practical experience. Who can remain indifferent when they hear the paradox at the heart of the gospel? Whoever wishes to become great among you must be your servant and whoever wishes to be first among you must be slave of all.

Textiles and Gender in Antiquity Mary Harlow, Cecile Michel, Louise Quillien, 2020-11-12 This volume looks at how the issues of textiles and gender intertwine across three millennia in antiquity and examines continuities and differences across time and space with surprising resonances for the modern world. The interplay of gender identity, textile production and use is notable on many levels from the question of who was involved in the transformation of raw materials into fabric at one end to the wearing of garments and the construction of identity at the other. Textile production has often been considered to follow a linear trajectory from a domestic female activity to a more commercial or industrial male-centred mode of production. In reality many modes of production co-existed and the making of textiles is not so easily grafted onto the labour of one sex or the other. Similarly, textiles once transformed into garments are often of unisex shape but worn to express the gender of the wearer. As shown by the detailed textual source material and the rich illustrations in this volume, dress and gender are intimately linked in the visual and written records of antiquity. The contributors show how it is common practice in both art and literature not only to use particular garments to characterize one sex or the other but also to undermine characterizations by suggesting that they display features usually associated with the opposite gender.

The Bible in Culture Larry W. Caldwell, 2025-07-08 How to Read and Interpret Scripture Across Cultures. How can believers across cultures faithfully read and apply Scripture in a way that honors both the biblical text and their unique cultural contexts? In *The Bible in Culture* Larry Caldwell introduces ethnohermeneutics, a revolutionary yet biblical approach to reading Scripture with rather than for the world. Drawing from decades of experience living overseas, Caldwell demonstrates that every culture has its own tools for understanding meaning and shows how God uses these to communicate the truth of his word. This approach is rooted in observing how Jesus, Paul and others in the early church interpreted Scripture and in following their examples. Through real-life illustrations, interactive activities and case studies, readers will discover how they can also read and interpret God's word in their own cultures. This book will challenge your assumptions about the interpretive task, encouraging and equipping you to rethink how the Bible can be understood across every people group in various cross-cultural, multicultural and multigenerational contexts.

Sexuality in Muslim Contexts Anissa Helie, Homa Hoodfar, 2012-10-11 This groundbreaking book explores resistance against the harsh policing of sexuality in some Muslim societies. Many Muslim majority countries still use religious discourse to enforce stigmatization and repression of those especially women who do not conform to sexual norms promoted either by the state or by non state actors. In this context Islam is often stigmatized in Western discourse for being intrinsically restrictive with respect to women's rights and sexuality. The authors show that conservative Muslim discourse does not necessarily match practices of believers or of citizens and that women's empowerment is facilitated where indigenous and culturally appropriate strategies are developed. Using case studies from Pakistan, Iran, Indonesia, China, Bangladesh, Israel and India they argue persuasively that Muslim religious traditions do not necessarily lead to conservative agendas but can promote emancipatory standpoints. An intervention to the construction of Muslim women as uniformly subordinate, this collection spearheads an unprecedented wake of organizing around sexualities in Muslim communities. *Human Security and International Insecurity* Georg Frerks, Berma Klein Goldewijk, 2023-08-28 Human security is about everyday realities of violent conflict and poverty, humanitarian crises, epidemic diseases, injustice and inequality. It is about freedom from fear and freedom from want. It is much different from state related security with its emphasis on military force, territory and sovereignty. Human security places the security of individuals, communities and global humanity ahead of the security concerns of the state. How does human security relate to international security? Can human security still be advanced in a global climate of intrastate conflict, the war on terror and increasing nuclear tensions? This book challenges prevailing security thinking and explores basic standards of humanity. This multi authored book deals with the origins and developments of human security as a concept and how it is used in policy practice. It presents new approaches by focusing on alternative discourses, the actors involved and the new forms of governance that are required. It outlines the challenges human security faces in different parts of the world due to conflict, terrorism and new wars, globalisation and the resurgence of religion, development, cooperation, environmental problems and the role of science. Facing the challenges, this book aims to raise human security out of the status of a contemporary problematique by bringing it closer to a resolution. I am convinced that this book provides an original contribution and a further impetus to developing well grounded academic and policy responses to world wide problems that so urgently require solutions. M. S. Swaminathan, President, Pugwash Conferences on Science and World Affairs. *Human Rights under State-Enforced Religious Family Laws in Israel, Egypt and India* Yüksel Sezgin, 2013-08-22 About one third of the world's population currently lives under pluri legal systems where governments hold individuals subject to the purview of ethno religious rather than national norms in respect to family law. How does the state enforcement of these religious family laws impact fundamental rights and liberties? What resistance strategies do people employ in order to overcome the disabilities and limitations these religious laws impose upon their rights? Based on archival research, court observations and interviews with individuals from three countries, Yüksel Sezgin shows that governments have

often intervened in order to impress a particular image of subjectivity upon a society while people have constantly challenged the interpretive monopoly of courts and state sanctioned religious institutions re negotiated their rights and duties under the law and changed the system from within He also identifies key lessons and best practices for the integration of universal human rights principles into religious legal systems *Self-determination and Women's Rights in Muslim Societies* Chitra Raghavan, James P.
