the Study Guide has no index no big picture no study strategies no exam day tips not enough cross references and few of the forms notaries use that they test It s notoriously hard to follow It doesn t explain most tested subjects past exams or recent changes It s got the law and notary rules but it s missing essentials for any such textbook The Sidepiece has all that and much more that anyone contemplating the exam should read It even includes crucial information about notary practice for the newbie notary and is useful to experienced notaries for its expanded cross references complete index and summary lists Basically it s the rest of the official Study Guide they somehow omitted Why would they leave out the index of all things Reminder a 20% pass rate Previous editions of this resource earned 200 5 star ratings and comments that it s essential and invaluable to passing the exam whether or not you take a prep class too Read the reviews to get the scope coverage and necessity of adding this book into your study program The author s tips on what to expect on test day were worth the cost of the book alone Get This Book As a senior law teacher and member of two state bars Prof Childress still needed to pass the Louisiana Notary Exam to practice as one It s a challenging exam for everyone yet he found in the Study Guide lots of trees but little forest and even less real guidance Determined that current test takers can do better with more real help he wrote this book and geared the page numbers including an index cross references lists and illustrated explanation of successions community property and authentic acts to the latest edition of the state s official text *Fundamentals of Louisiana Notarial Law and Practice* *Fundamentals of Louisiana Notarial Law and Practice* C.
