Ford Tractors David Pearson,2019-10-01 David Pearson spent more than four decades working for Ford s tractor business starting on the production line at the maker s Dagenham factory before moving to the Basildon tractor plant opened in 1964

He went on to become the maker's UK sales manager and earned a reputation among farmers and dealers as the man who knew all there was to know about Ford tractors. Along the way he was involved in the development of some of the most famous machines to bear the blue livery from the Dexta to the 7000 and the FW articulated tractors to the 7810. Edited by agricultural journalist Martin Rickatson, *Forty Years with Ford Tractors* builds on a series of recollections which originally featured in *Classic Tractor* magazine and includes additional material to tell David's fascinating story in full. It includes a comprehensive selection of black and white and colour photographs many of which have never before been published and will be of interest to all Ford fans and tractor fans more generally. The Writing's on the Truck John Corah, 2019-10-01 *The Writing's on the Truck* is a pictorial look at the traditional art of signwriting on commercial vehicles by renowned signwriter John Corah. John began signwriting in 1982 working for Brian Harris Transport Ltd. Brian's well-turned-out trucks were regularly seen on the roads between the Southwest and the North of Scotland and with this excellent showcase for his skills John quickly built up a large customer base. Since then he has written on ERFs, Leylands, Guys, Fodens, Atkinsons, Albions and AECs to name but a few and he is responsible for the distinctive livery of a number of traditional family-run haulage companies. In some cases he worked on the vehicles when brand new and then again when restored some 20-30 years later. Sadly many of the once familiar and iconic companies have disappeared over the years and today computer-generated vinyl lettering has almost completely taken over the art and few modern fleets are signwritten. *The Writing's on the Truck* includes 210 fully captioned and previously unpublished photos of the vehicles he worked on many of which will be remembered by transport fans UK-wide. The book tells the story of the development of John's business, the methods he uses to create particular effects and numerous anecdotes from his working life. It will be of interest to anyone involved with road haulage and the preservation of classic trucks.

Leyland Comet Graham Edge, 2019-10-01 This book is about one of Leyland Motors' famous models, the Leyland Comet. It covers the period from the introduction of the lorry in 1947 to its withdrawal from the British market in the mid-1970s. This illustrious name continued to be used in the Leyland DAF era such is the high regard and respect earned by one of Leyland's finest vehicles not only here but also overseas. *Leyland Comet* presents the initial development of the model and the various types which evolved in subsequent years. When it was first introduced the Leyland Comet was an immediate success and soon became the market leader in the high-quality medium-weight lorry sector. In the 30 years of production history described in these pages the Comet was only seriously challenged by its great rival the AEC Mercury. In its heyday the Leyland Motors name was synonymous with top quality. Their Comet range maintained and enhanced the company's reputation. Many small haulage firms building a business in the post-war years aspired to a Leyland lorry and felt a great sense of achievement when able to acquire one. This book has been out of print for many years and has been brought back in 2016 to make this fascinating story available again to Leyland enthusiasts and those with an interest in general transport.

production until the late 1970s and as AEC authority Graham Edge writes For most of its productive life the Leyland Octopus was the definitive British eight wheeler lorry The many superb photographs in this book range from shots from the 1930s including what is probably the first Octopus chassis and a rare TEW tipper to 1979 and an Octopus 2 which started service that year with a compacting refuse body The text covers the full production story and there are Appendices which give chassis and engine details Starks' Harvesters Robert S. White,2019-10-01 For Rob and Charlie this was the start of memorable years driving Massey Ferguson combines the length and breadth of the American wheat belt This is Rob's story a vivid account of endless hours of work rattlesnakes truck wrecks summer lightning tornados favourite bars and the honeys at the grain elevators Rob went on to do five years harvesting with Dale Starks who comes to life in these pages with all his wisdom and cussedness This is the man who starred in Yellow Trail from Texas the BBC documentary that first inspired Rob and Charlie to make the trip In England Rob was working as an agricultural contractor For him machines and harvesting were more than a way of life they were a passion This enthusiasm which brought Rob long lasting friendships from his American days illuminates every page of his book *Keep on Truckin': 40 Years on the Road* Mick Rennison,2016-03-16 Did the Good Old Days ever really exist Mick Rennison is not so sure After miraculously passing his test in an Atkinson Borderer way back in 1974 Mick drove in the days when crooks and con men seemed to run the haulage industry And Mick worked for most of them Earning crap wages from arrogant bosses with the constant threat of your P45 hanging over your head he learned his trade through trial and error many trials and lots of errors His career took him all over Europe and Scandinavia taking musical shows to Norway JCBs to Greece and supermarket deliveries down to Gibraltar Driving for a variety of firms he double manned trucks with his wife Jo for nearly 10 years Along the way he has been blown over in high winds outwitted hijackers and held hostage by striking Spanish drivers Now living on a narrow boat on the Grand Union Canal Mick is approaching retirement and reflects on his varied career With humour and not a little sarcasm he concludes that as good as those days were he certainly wouldn't want to go back The Long Haul Pioneers Ashley Coghill,2020-02-01 It all started in 1964 when two friends gave up promising medical careers to embark upon a journey which few hardened truckers would have considered In so doing they were solely responsible for creating the first long haul overland route across Europe and deep into the Middle East to Kabul The men had started the Middle East Run was to become a phenomenon in the road haulage industry an image which it still holds today This book is about the company founded by one of those men from its fledgling days as Asian Transport to the thriving Astran Cargo Services Ltd that it is today In this book Ashley Coghill documents the complete history of the company to date with the focus predominantly on the early days when the men were fighting for something and revelling in the adventure These early long haul drivers would think nothing of a 10 000 mile round trip to Iran or the Arabian Gulf and being stranded at 6 000 feet on a mountain pass with temperatures below 40 was just all in a day's work Ashley Coghill has an immense enthusiasm for his subject and has given his research total dedication

He has also tracked down past and present employees to gather first hand information which he has illustrated with over 300 carefully selected images The end result is a detailed comprehensive and fascinating account of an extraordinary company
