Singapore, Spirituality, and the Space of the State Joanne Punzo Waghorne, 2020-03-19 This book examines spirituality in Singapore showing how important the city state is for understanding contemporary global configurations of urban space religion and spirituality Joanne Punzo Waghorne highlights how the formal religious spaces temples churches and mosques have been confined to allotted sites on the map of Singapore whereas various spiritual organizations particularly of Hindu origins and headed by a guru still continue to operate as societies classified by the government with other clubs These unconventional religiosities are not confined but ironically make their own places meeting in ostensive secular venues high rise flats malls businesses and community centers thus existing in the overall space of religion commerce and the state The book argues that State of Singapore also operates between the secular and the religious constructing an overarching spatial regime that both accommodates and yet rivals the alternate spheres that spiritual movements construct under its umbrella Both spatial configurations challenge the presumed relationships between myth and reality religion and commerce the ethereal and the concrete the sacred and the secular on the levels of self community and polity Singapore now deemed a model for urban development in Asia also offers an understanding of a new post secularity and perhaps reveals where the urbanized world is headed

Tucker, 2020-10-27 This sweeping reference work covers every aspect of the Cold War from its ignition in the ashes of World War II through the Berlin Wall and the Cuban Missile Crisis to the collapse of the Soviet Union in 1991 The Cold War superpower face off between the Soviet Union and the United States dominated international affairs in the second half of the 20th century and still reverberates around the world today This comprehensive and insightful multivolume set provides authoritative entries on all aspects of this world changing event including wars new military technologies diplomatic initiatives espionage activities important individuals and organizations economic developments societal and cultural events and more This expansive coverage provides readers with the necessary context to understand the many facets of this complex conflict The work begins with a preface and introduction and then offers illuminating introductory essays on the origins and course of the Cold War which are followed by some 1 500 entries on key individuals wars battles weapons systems diplomacy politics economics and art and culture Each entry has cross references and a list of books for further reading The text includes more than 100 key primary source documents a detailed chronology a glossary and a selective bibliography Numerous illustrations and maps are inset throughout to provide additional context to the material **Sesame Street** Helle Strandgaard Jensen, 2023 In *Sesame Street A Transnational History* author Helle Strandgaard Jensen tells the story of how the American television show became a global brand Jensen argues that because the show's domestic production was not financially viable from the beginning *Sesame Street* became a commodity that its producers assertively marketed all over the world *Sesame Street A Transnational History* combines archival research from seven countries bolstering an insightful analysis of how local reception and rejection of the show related to the global sales strategies and American ideals it was built upon Contrary to the producers oft publicized claims of *Sesame Street*'s universality the show was heavily shaped by a fixed set of assumptions about childhood education and commercial entertainment This made sales difficult as *Sesame Street* met both skepticism and direct hostility from foreign television producers who did not share these ideals Drawing on insights from new histories about childhood education and transnational media the book lays bare a cultural clash of international proportions rooted in divergent approaches to children's television In doing so it provides a reflective backdrop to the many ongoing debates about children's media In contrasting the positive receptions and renunciations of *Sesame Street* Jensen demonstrates that it was only after a substantial rethinking of *Sesame Street*'s aims and business model that this program ended up on numerous broadcasting schedules by the mid 1970s Along the way this rethinking and the constant negotiations with potential international buyers created and shaped the business and corporate

brand that paved the way for the Sesame Street we know today *The Four Dignities* Cain Carroll,2014-09-21 Based on the author's long experience of Yogic and Daoist traditions this book explores the embodiment of spiritual practice in the most basic functions of daily life The author shows how to bring the consciousness to bear on the body in lying sitting standing and walking with transformational consequences **An Index to Articles Published in The Etude Magazine, 1883-1957,**

Periods in Pop Culture Menstruation in Film and Television by Lauren Rosewarne turns the spotlight on period portrayals in media examining the presence of menstruation in a broad range of contemporary pop culture Drawing on a vast collection of menstruation scenes from film and television this study examines and categorizes representations to unearth what they reveal about society and about our culture s continually fraught relationship with female biology Written from a feminist perspective menstrual representations are analyzed for what they reveal about sexual politics and society Rosewarne s thorough investigation covers a range of topics including menstrual taboos stigmas and fears as well as the inextricable link between periods and femininity sexuality ageing and identity Periods in Pop Culture highlights that the treatment of menstruation in the media remains an area of persistent gender inequality Litpop: Writing and Popular Music Rachel Carroll,Adam Hansen,2016-05-13 Bringing together exciting new interdisciplinary work from emerging and established scholars in the UK and beyond Litpop addresses the question how has writing past and present been influenced by popular music and vice versa Contributions explore how various forms of writing have had a crucial role to play in making popular music what it is and how popular music informs literary writing in diverse ways The collection features musicologists literary critics experts in cultural studies and creative writers organised in three themed sections Making Litpop explores how hybrids of writing and popular music have been created by musicians and authors Thinking Litpop considers what critical or intellectual frameworks help us to understand these hybrid cultural forms Finally Consuming Litpop examines how writers deal with music s influence how musicians engage with literary texts and how audiences of music and writing understand their own role in making Litpop happen Discussing a range of genres and periods of writing and popular music this unique collection identifies theorizes and problematises connections between different forms of expression making a vital contribution to popular musicology and literary and cultural studies **Beyond the Slave Narrative** Deborah Jenson,2012-01-01 The Haitian Revolution has generated responses from commentators in fields ranging from philosophy to historiography to twentieth century literary and artistic studies But what about the written work produced at the time by Haitians This book is the first to present an account of a specifically Haitian literary tradition in the Revolutionary era Beyond the Slave Narrative shows the emergence of two strands of textual innovation both evolving from the new revolutionary consciousness the remarkable political texts produced by Haitian revolutionary leaders Toussaint Louverture and Jean Jacques Dessalines and popular Creole poetry from anonymous courtesans in Saint Domingue s libertine culture These textual forms though they differ from each other both demonstrate the increasing cultural autonomy and literary voice of non white populations in the colony at the time of revolution Unschooled generals and courtesans long presented as voiceless are at last revealed to be legitimate speakers and authors These Haitian French and Creole texts have been neglected as a foundation of Afro diasporic literature by former slaves in the Atlantic world for two reasons because they do not fit the generic criteria of the slave narrative which is rooted in the autobiographical experience of enslavement and because they

are mediated texts relayed to the print cultural Atlantic domain not by the speakers themselves but by secretaries or refugee colonists. These texts challenge how we think about authorial voice, writing, print culture, and cultural autonomy in the context of the formerly enslaved and demand that we reassess our historical understanding of the Haitian Independence and its relationship to an international world of contemporary readers.
