Handbook of Biblical Hebrew William Sanford LaSor, William Sanford La Sor, 1989-01-26 This is a print on demand book and is therefore non returnable The Handbook designed as a complete tool for the student of Biblical Hebrew is the result of over twenty five years of teaching the language While it is primarily intended for use in Hebrew courses it is also an excellent tool for a refresher course or useful as a basic grammatical reference work to aid the exegete Similar in format to the author's Handbook of New Testament Greek it combines reading lessons vol 1 with grammar paradigms and basic vocabulary vol 2 William LaSor uses the inductive method studying directly from the text rather than the conventional method of language study in which beginning students learn the rules of grammar and syntax and memorize vocabulary often without reading the actual text Instead of memorizing numerous forms that will never be encountered in actual reading the student learns only what he or she encounters The lessons are based on the Hebrew text of Esther chosen because it presents little difficulty in theological or textual matters and has an excellent vocabulary LaSor has included readings from other portions of the Bible such as several chapters from Genesis to introduce the student to Hebrew other than that found in Esther The diligent student of this method will learn not only the elements of Hebrew but also how to inductively study the language and how to learn by induction what the Hebrew text says An Introduction to Biblical Hebrew Syntax Bruce K. Waltke, Michael Patrick O'Connor, 1990 Meeting the need for a textbook for classroom use after first year Hebrew grammar Waltke and O Connor integrate the results of modern linguistic study of Hebrew and years of experience teaching the subject in this book In addition to functioning as a teaching grammar this work will also be widely used for reference and self guided instruction in Hebrew beyond the first formal year Extensive discussion and explanation of grammatical points help to sort out points blurred in introductory books More than 3 500 Biblical Hebrew examples illustrate the points of grammar under discussion Four indexes Scripture Authorities cited Hebrew words and Topics provide ready access to the vast array of information

found in the 40 chapters Destined to become a classic work this long awaited book fills a major gap among modern publications on Biblical Hebrew **Handbook of Biblical Hebrew** William Sanford La Sor,1979 Biblical Hebrew Grammar Visualized Francis I. Andersen,A. Dean Forbes,2012-04-01 In Biblical Hebrew Grammar Visualized Andersen and Forbes approach the grammar of Biblical Hebrew from the perspective of corpus linguistics Their pictorial representations of the clauses making up the biblical texts show the grammatical functions subject object and so on and semantic roles surrogate time interval and so on of clausal constituents as well as the grammatical relations that bind the constituents into coherent structures The book carefully introduces the Andersen Forbes approach to text preparation and characterization It describes and tallies the kinds of phrases and clauses encountered across all of Biblical Hebrew It classifies and gives examples of the major constituents that form clauses focusing especially on the grammatical functions and semantic roles The book presents the structures of the constituents and uses their patterns of incidence both to examine constituent order word order and to characterize the relations among verb corpora It expounds in detail the characteristics of quasiverbals verbless clauses discontinuous and double duty clausal constituents and supra clausal structures The book is intended for students of Biblical Hebrew at all levels Beginning students will readily grasp the basic grammatical structures making up the clauses because these are few and fairly simple Intermediate and advanced students will profit from the detailed descriptions and comparative analyses of all of the structures making up the biblical texts Scholars will find fresh ways of addressing open problems while gaining glimpses of new research approaches and topics along the way **Exegetical Gems from Biblical Hebrew** H. H. Hardy, II,2019-07-16 After spending countless hours studying Hebrew vocabulary paradigms and grammar students may wonder how they can begin to reap the rewards of their hard work H H Hardy II presents 30 grammatical concepts and their exegetical payoff to demonstrate the importance of learning Hebrew for interpreting the Old Testament In the process students will realize the practical value of what they have learned This book is perfect for students looking to apply their Hebrew and for past students who wish to review the essentials of Hebrew grammar
