The Hand Reveals Dylan Warren-Davis,2021-03-31 Cheiromancy is the art of handreading in which all aspects of a person s hand are considered in order to gain an accurate picture of their inner nature Cheiromancy is distinct from the fortune telling of palmistry What has come down to us as palmistry today is a rather degenerate and effete form of this ancient discipline The word cheiromancy comes from the Greek chir meaning hand and manteia meaning divination literally meaning divination through the hand The Hand Reveals is written as a practical guide to reading hands it is not merely theoretical As various points are described through out the book try to apply this knowledge at every opportunity to find confirmation of the ideas There is a considerable amount of knowledge and information compressed into these pages and even the most diligent student would have difficulty in digesting it in one reading It is recommended that you refer back as often as necessary to go the material you have read to allow your understanding of cheiromancy to grow gradually Originally published in 1990 this edition has been revised and updated with new material
