Alexander Soifer

Het Parool 8 Feb 1946:

Soldiers and Students Rob Kroes, 2023-08-18 *Soldiers and Students* 1975 adopts an original approach to the confrontation of deprived and possessing parties under conditions of scarcity With reference to the course of conflict the actions of the competing parties are shown to be interlinked yet the difference between their strategies are clearly defined Right wing radicalism is treated through a study of military intervention in domestic politics left wing radicalism through analysis of student radicalism The case studies are centred on recent Dutch history but the theoretical perspective underlying the argument is essentially comparative Thus Dutch military responses to the decolonisation of Indonesia serve to illustrate the strategies of a military apparatus on the brink of politicisation radicalism among Dutch students in the sixties offers the empirical reference for the analysis of left wing radicalism

The New Mathematical Coloring Book Alexander Soifer, 2024-03-11 *The New Mathematical Coloring Book* TNMCB includes striking results of the past 15 year renaissance that produced new approaches advances and solutions to problems from the first edition A large part of the new edition Ask what your computer can do for you presents the recent breakthrough by Aubrey de Grey and works by Marijn Heule Jaan Parts Geoffrey Exoo and Dan Ismailescu TNMCB introduces new open problems and conjectures that will pave the way to the future keeping the book in the center of the field TNMCB presents mathematics of coloring as an evolution of ideas with biographies of their creators and historical setting of the world around them and the world around us A new thing in the world at the time TMCB I is now joined by a colossal sibling containing more than twice as much of what only Alexander Soifer can deliver an interweaving of mathematics with history and biography well seasoned with controversy and opinion Peter D Johnson Jr Auburn University Like TMCB I TMCB II is a unique combination of Mathematics History and Biography written by a skilled journalist who has been intimately involved with the story for the last half century The nature of the subject makes much of the material accessible to students but also of interest to working Mathematicians In addition to learning some wonderful Mathematics students will learn to appreciate the influences of Paul Erd s Ron Graham and others Geoffrey Exoo Indiana State University The beautiful and unique Mathematical coloring book of Alexander Soifer is another case of good mathematics containing a lot of similar examples it is not by chance that Szemer di s Theorem story is included as well and presenting mathematics as both a science and an art Peter Mih k Mathematical Reviews MathSciNet A postman came to the door with a copy of the masterpiece of the century I thank you and the mathematics community should thank you for years to come You have set a standard for writing about mathematics and mathematicians that will be hard to match Harold W Kuhn Princeton University I have never encountered a book of this kind The best description of it I can give is that it is a mystery novel I found it hard to stop reading before I finished in two days the whole text Soifer engages the reader s attention not only mathematically but emotionally and esthetically May you enjoy the book as much as I did Branko Gr nbaum University of Washington I am in absolute awe of your 2008 book Aubrey D N J de Grey LEV Foundation

Fragments of the Holocaust David Duindam, 2025-10-01 Why do we attach so much value to sites of Holocaust memory if all we ever encounter are fragments of a past that can never be fully comprehended David Duindam examines how the Hollandsche Schouwburg a former theater in Amsterdam used for the registration and deportation of nearly 50 000 Jews fell into disrepair after World War II before it became the first Holocaust memorial museum of the Netherlands Fragments of the Holocaust The Amsterdam Hollandsche Schouwburg as a Site of Memory combines a detailed historical study of the postwar period of this site with a critical analysis of its contemporary presentation by placing it within international debates concerning memory emotionally fraught heritage and museum studies A case is made for the continued importance of the Hollandsche Schouwburg and other comparable sites arguing that these will remain important in the future as indexical fragments where new generations can engage with the memory of the Holocaust on a personal and affective level *The Mathematical Coloring Book* Alexander Soifer, 2008-10-13 This is a unique type of book at least I have never encountered a book of this kind The best description of it I can give is that it is a mystery novel developing on three levels and imbued with both educational and philosophical moral issues If this summary description does not help understanding the particular character and allure of the book possibly a more detailed explanation will be found useful One of the primary goals of the author is to interest readers in particular young mathematicians or possibly pre mathematicians in the fascinating world of elegant and easily understandable problems for which no particular mathematical knowledge is necessary but which are very far from being easily solved In fact the prototype of such problems is the following If each point of the plane is to be given a color how many colors do we need if every two points at unit distance are to receive distinct colors More than half a century ago it was established that the least number of colors needed for such a coloring is either 4 or 5 or 6 or 7 Well which is it Despite efforts by a legion of very bright people many of whom developed whole branches of mathematics and solved problems that seemed much harder not a single advance towards the answer has been made This mystery and scores of other similarly simple questions form one level of mysteries explored In doing this the author presents a whole lot of attractive results in an engaging way and with increasing level of depth **No Bicycle, No Bus, No Job** Patrick Bek, 2025-10-01 For working people the cost of getting to work in terms of time and expense is a crucial aspect of daily life In the twentieth century people's opportunity to travel increased This did not however apply to everyone The absence of affordable housing near job locations combined with the lack of safe efficient and affordable mobility options aggravated social exclusion for some No Bicycle No Bus No Job details how power relations have historically enabled or restricted workers mobility in twentieth century Netherlands Blue collar workers industrial employers and the state shaped workers everyday commute in a changing playing field of uneven power relations that shifted from paternalism to neo liberalism **Studies Presented at Varna International Sociological Association Conference 1970 ,1971 Dutch Neorealism, Cinema, and the Politics of Painting, 1927-1945** Stephanie Lebas Huber, 2024-08-12 This study offers a

radically new perspective on Dutch Neorealism one that emphasizes the role of film as an apparatus the effects of which when emulated in painting can reproduce the affective experience of film watching More of a tendency than a tightly defined style or ism Neorealism is the Dutch variant of Magic Realism an uncanny mode of figurative painting identified with Neue Sachlichkeit in Germany and Novecento in Italy Best represented by the Dutch artists Pyke Koch Carel Willink Charley Toorop Raoul Hynckes Dick Ket and Wim Schuhmacher Neorealism as demonstrated in this book depicted societal disintegration and allegories of looming disaster in reaction to the rise of totalitarian regimes and eventually the Nazi Occupation of The Netherlands The degree to which these artists exhibited either revolutionary or reactionary sentiments usually corresponding with their political affiliation is one of the central problematics explored in this text The book will be of interest to scholars working in art history World War II history and film studies The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Western and Northern Europe 1940-June 1942 Katja Happe, Michael Mayer, Maja Peers, 2021-12-31 Executive editors Katja Happe Michael Mayer and Maja Peers with Jean Marc Dreyfus English language edition prepared by Caroline Pearce Johannes Gamm Georg Felix Harsch and Dorothy Mas In April May 1940 the German Wehrmacht invaded Northern and Western Europe The subsequent occupation of Norway Denmark the Netherlands Belgium Luxembourg and France brought the Jewish population of these countries both established residents and refugees under German control From autumn 1941 in Luxembourg and from spring summer 1942 in Belgium the Netherlands and occupied France Jews were required to wear the Jewish star and many were subjected to forced labour By mid 1942 deportations from Luxembourg and France to the ghettos and extermination camps in occupied Eastern Europe had already begun while in the other occupied countries they were imminent In April 1942 Alfred Oppenheimer the Jewish elder in Luxembourg wrote A dreadful fate hangs over our community again The worst that can happen has now happened and the Poland transport is a certainty This volume covers Norway and Western Europe during the period from the German invasion to mid 1942 developments in Denmark for this period are documented in vol 12 and records how Jews in these parts of Europe were excluded from society and stripped of their rights livelihoods and property Letters and diary entries by the persecuted Jews detail life under German occupation and the attempts by many Jews to emigrate The sources show how Jewish organizations sought to alleviate the impact of persecution and how the German occupiers and local collaborators targeted Jews with increasingly stringent measures and clamped down on any form of resistance Learn more about the PMJ on <https://pmjdocuments.org>

Anne Frank Ronald Wilfred Jansen, 2015-07-08 Ronald Wilfred Jansen visited Anne Frank's home addresses in Frankfurt am Main Aachen and Amsterdam her hiding place the Secret Annex and the Westerbork Auschwitz Birkenau and Bergen Belsen concentration camps where Anne Frank was imprisoned His book describes her history and the objects that today still remind us of the environment in which she lived His motivation for writing this book is

that it was one of the last opportunities he would have to contact the people who knew Anne these people revealed some new facts about her and her world Other contemporaries of Anne Frank also contributed fascinating information about her surroundings By tracing her footsteps he gained a more complete picture of Anne Frank and her environment *The Wiener Library Bulletin* ,1974 Southeast Asia Catalog Cornell University. Search for New Guinea's Boundaries Paul W. Van der Veur,2012-12-06 The paucity of published material on the borders of New Guinea and the international significance of the Irian boundary led me to bring together the information I had gathered over the past few years Ideally a book of this kind should cover the subject in its total historical and geographical context The aim of this work is more modest it intends merely to throw some light on the birth and development of New Guinea s boundaries With this purpose in mind after an introductory chapter attention is given to the historical events leading up to the parti tion of New Guinea among three European powers In subsequent chapters the development of the boundaries between the various parts of the island is discussed It is realized that this approach may tend to convey the impression that each particular border is in some way unique This however is not intended and it is hoped that the reader will recognize some of the common underlying themes and problems which are given attention in the introductory and concluding chapters It was intended originally to present in a brief appendix those docu ments which define the borders It

soon appeared desirable to include also the unpublished records of more recent border conferences and relevant correspondence leading up to the actual treaties exchange of notes Orders in Council or as the case might be lack of action

Confronting Memories of World War II Daniel Chirot, Gi-Wook Shin, Daniel Sneider, 2014-04-01 The legacy of the Second World War has been like the war itself an international phenomenon In both Europe and Asia common questions of criminality guilt and collaboration have intersected with history and politics on the local level to shape the way that wartime experience has been memorialized reinterpreted and used By directly comparing European and Asian legacies Confronting Memories of World War II provides unique insight into the way that World War II continues to influence contemporary attitudes and politics on a global scale The collection brings together experts from a variety of disciplines and perspectives to explore the often overlooked commonalities between European and Asian handling of memories and reflections about guilt These commonalities suggest new understandings of the war s legacy and the continuing impact of historical trauma

Battleground Western Europe Beatrice de Graaf, Ben de Jong, Wies Platje, 2007 This book throws light on a lesser known aspect of the history of Western Europe and looks at Germany and the Netherlands as the terrain on which some crucial intelligence battles were fought throughout the last century Beatrice de Graaf is a historian and assistant professor at the Center for Terrorism and Counterterrorism at Leiden University in the Hague the Netherlands Ben de Jong is a historian and lecturer at the Department of Russian and East European studies at the University of Amsterdam the Netherlands Wies Platje is a retired lieutenant commander of the Royal Dutch Navy with a long career in the Netherlands Navy Intelligence Service

Sax Expat Con Chapman, 2025-04-15 Don Byas 1913 1972 may be lesser known than the counterparts he played with Count Basie Duke Ellington and Dizzy Gillespie among others but he was an enigma He never stayed with a band for long and eventually went solo partly to make more money and partly due to his inability to work with bandleaders Often drinking to excess alcohol fueled his sometimes erratic behavior on and off the bandstand He went through at least thirteen different groups in fifteen years of professional play before leaving for Europe in 1946 Despite his fractious personality in Europe he found peace and contentment as a family man in the Netherlands where he lived out his days with his second wife and their four children He learned at least seven languages during his years in Europe and on traveling to a new country could pick up a few phrases in short order soon speaking to the locals and even composing songs in their native tongue In Sax Expat Don Byas author Con Chapman argues that Byas s relative obscurity arises from his choice to live in Europe where he missed out on recording opportunities and exposure in the US that would have made him renowned and wealthier His numerous achievements including his solo on Count Basie s *Harvard Blues* which is a model of restrained invention his interpretation of the sentimental movie theme *Laura* and his duets with bassist Slam Stewart were included in the Smithsonian Collection of Classic Jazz and secured Byas s place in jazz history This biography brings to life an amazing jazz story

The Fighter of Auschwitz Erik Brouwer, 2023-08-17 A SUNDAY TIMES BESTSELLER He had the dream again last

night He taps the gloves of his unbeaten Polish opponent There are rumours that the loser will be sent to the gas chamber In 1943 the Dutch champion boxer Leen Sanders was sent to Auschwitz His wife and children were put to death while he was sent to the left with the others who were fit enough for labour Recognised by an SS officer he was earmarked for a privileged post in the kitchens in exchange for weekly boxing matches for the entertainment of the Nazi guards From there he enacted his resistance to their limitless cruelty With great risk and danger to his own life Leen stole concealed and smuggled food and clothing from SS nursing units for years to alleviate the unbearable suffering of the prisoners in need He also regularly supplied extra food to the Dutch women in Dr Mengele's experiment Block 10 To his fellow Jews in the camp he acted as a rescuer leader and role model defending them even on their bitter death march to Dachau towards the end of the war A story of astonishing resilience and compassion The Fighter of Auschwitz is a testament to the endurance of humanity in the face of extraordinary evil
