Estelle Plantation Partnership Municipal Golf Course and Housing Development, Jefferson Parish, 1996 **The New Middle Classes** Hellmuth Lange, Lars Meier, 2009-06-10 With respect to the developing and threshold economies it is no longer the poor who are the only focus of media attention. Today the new middle classes are about to take centre stage too. With their lifestyles and attitudes the new middle classes are considered to be both the products as well as the promoters of globalization. They are a highly heterogeneous group in socio economic terms as well as in habits and preferences including their societal role as consumers and citizens. The first wave of scholarly and political attention can be traced back to the mid nineties. The focal

point was surprise and unease about indubitable symptoms of consumerism which until then had been seen as a characteristic of the richest western societies However since the nineties consumerism has run rampant in velopingcountriestoo This has particularly been noted with respect to the emerging middle classes in South East Asia The will to consume seemed inexhaustible and appetites insatiable This rage to consume was both celebrated and feared by political leaders and other social moral gatekeepers who began to condemn the process as Westernization and even westoxication Chua 2000 xii Ever since the debate about the lifestyles of the new middle classes and their role in society has gained momentum
