## **Governing Agrobiodiversity Plant Genetics And Developing Countries Global Environmental Governance:**

Governing Agrobiodiversity Dr Regine Andersen, 2013-03-28 Plant genetic diversity is crucial to the breeding of food crops and is therefore a central precondition for food security. Diverse genetic resources provide the genetic traits required to deal with crop pests and diseases as well as changing climate conditions. Plant genetic diversity is also essential for traditional small scale farming and is therefore an indispensable factor in the fight against poverty. However, the diversity of domesticated plant varieties is disappearing at an alarming rate while interest in the commercial use of genetic resources has increased in line with bio technologies followed by demands for intellectual property rights. This important book contributes to our understanding of how international regimes affect the management of plant genetic resources for food and agriculture in developing countries. It identifies entry points to shape a better governance of agrobiodiversity and provides the first comprehensive analysis of how the international agreements pertaining to crop genetic resources affect the management of these vital resources for food security and poverty eradication in developing countries. **Governing**

Pattberg, Fariborz Zelli, 2015-11-27

The *Encyclopedia of Global Environmental Governance and Politics* surveys the broad range of environmental and sustainability challenges in the emerging Anthropocene and scrutinizes available concepts, methodological tools, theories and approaches as well as overlaps with adjunct fields of study. This comprehensive reference work, written by some of the most eminent academics in the field, contains 68 entries on numerous aspects across 7 thematic areas including concepts and definitions, theories and methods, actors, institutions, issue areas, cross-cutting questions and overlaps with non-environmental fields. With this broad approach, the volume seeks to provide a pluralistic knowledge base of the research and practice of global environmental governance and politics in times of increased complexity and contestation. Providing its readers with a unique point of reference as well as stimulus for further research, this Encyclopedia is an indispensable tool.

for anyone interested in the politics of the environment particularly students teachers and researchers

**Global Governance of Genetic Resources** Sebastian Oberthür, G. Kristin Rosendal, 2013-10-30 This book analyses the status and prospects of the global governance of Access Benefit Sharing ABS in the aftermath of 2010's Nagoya Protocol to the Convention on Biological Diversity CBD The CBD's initial 1992 framework of global ABS governance established the objective of sharing the benefits arising from the use of genetic resources fairly between countries and communities Since then ABS has been a contested issue in international politics not least due to the failure of effective implementation of the original CBD framework The Nagoya Protocol therefore aims to improve and enhance this framework Compared to the slow rate of progress on climate change it has been considered a major achievement of global environmental governance but it has also been coined a masterpiece of ambiguity This book analyses the role of a variety of actors in the emergence of the Nagoya Protocol and provides an up to date assessment of the core features of the architecture of global ABS governance This book offers a central resource regarding ABS governance for those working on and interested in global environmental governance This is achieved by focusing on two broad themes of the wider research agenda on global environmental governance namely architecture and agency Furthermore individual chapter contributions relate and link ABS governance to other prominent debates in the field such as institutional complexes compliance market based approaches EU leadership the role of small states the role of non state actors and more Partly due to its seeming technical complexity ABS governance has so far not been at the centre of attention of scholars and practitioners of global environmental governance In this book care is taken to provide an accessible account of key functional features of the governance system which enables non specialists to gain a grasp on the main issues involved allowing the issue of ABS governance to move centre stage and be more fully recognised in discussions on global environmental governance

Global Energy Governance in a Multipolar World Dries Lesage, Thijs Van de Graaf, 2016-04-22 Multipolar governance permits a number of important states to have significantly more economic and political clout than others but among them there is hardly any hierarchy The new energy challenge with its intricate socio economic ecological and international political considerations is a multi dimensional multi level and multi actor issue that requires a minimum of central political steering because neither the invisible hand of the market nor unilateral or bilateral power politics are capable to bring about sustainable solutions Global Energy Governance in a Multipolar World investigates the relationship between the emergence of a multipolar world order and the enormous challenges of global energy governance that the world is facing in the 21st century It reflects on fundamental questions such as how the main consuming countries can avoid conflict over scarce resources how they will cooperate to bring about open energy markets energy conservation and efficiency and how they can promote renewable energy sources

**The Intergovernmental**

**Platform on Biodiversity and Ecosystem Services (IPBES)** Marie Hrabanski, Denis Pesche, 2016-10-04 Twenty years after the Convention on Biological Diversity CBD entered into force the founding of the Intergovernmental Platform on Biodiversity and Ecosystem Services IPBES in 2012 was the outcome of a long process of setting biodiversity issues at the top of the global environmental agenda With contributions from more than a dozen well renowned researchers in political science law and sociology this book analyzes IPBES functioning and challenges in terms of the knowledge selection process and actors involved The book reveals that through its conceptual framework IPBES promotes a pluralistic view of nature that calls for a broadening of the disciplinary frontiers It combines natural science and social science research and also includes indigenous and local knowledge IPBES is considered to represent the institutionalization of a permanent knowledge assessment on biodiversity and is often referred to as an IPCC success story constituting a new stage in global environmental governance In analyzing the knowledge selection process for IPBES decision making the book better situates IPBES within the biodiversity and global governance domain It ultimately argues that the establishment of IPBES provides a new opportunity to coordinate the different international conventions CBD RAMSAR CITES etc and initiatives international assessment of marine biology scientific programs funding etc

**Innovation in Global Health Governance** Andrew F. Cooper, 2016-05-23 Analyzing twenty first century innovations in global health governance this volume addresses questions of pandemics essential medicines and disease eradication through detailed case studies of critical and rapidly spreading infectious diseases such as HIV AIDS and SARS and lifestyle illnesses such as tobacco related illnesses all of which are at the centre of the current global health challenge Given its contemporary focus and wide range of world leading experts this study is highly suitable for courses on global governance generally and global public health specifically across political science economics law medicine nursing and related fields Scholars practitioners and clinicians seeking a context for their front line health care provision will find this volume invaluable

VanDeveer, 2019-07-11 The new edition of this award winning volume reflects the latest events in the in global environmental politics and sustainable development while providing balanced coverage of the key institutions environmental issues treaties and policies The book highlights global environmental institutions major state and non state actors and includes a wide range of cases such as climate change biodiversity hazardous chemicals ozone layer depletion nuclear energy and resource consumption

**The EU as International Environmental Negotiator** Dr Tom Delreux, 2013-03-28 Delreux examines how the EU functions when it participates in international environmental negotiations In particular this book looks at the internal EU decision making process with regard to international negotiations that lead to multilateral environmental agreements By studying eight such decision making processes the book analyses how much negotiation autonomy or discretion the EU negotiator the European Commission or the Council Presidency enjoys vis vis the member states it represents and how this particular degree of discretion can be explained The book s empirical evidence is based on extensive literature review primary and semi

confidential document research as well as interviews with EU decision makers It is aimed at a readership interested in EU politics and decision making global multilateral governance environmental policy science and methodological development of Qualitative Comparative Analysis     Routledge Handbook of Food as a Commons Jose Luis Vivero-Pol,Tomaso Ferrando,Olivier De Schutter,Ugo Mattei,2018-12-17 This Handbook provides the first comprehensive review and synthesis of knowledge and new thinking on how food and food systems can be thought interpreted and practiced around the old new paradigms of commons and commoning The overall aim is to investigate the multiple constraints that occur within and sustain the dominant food and nutrition regime and to explore how it can change when different elements of the current food systems are explored and re imagined from a commons perspective The book sparks the debate on food as a commons between and within disciplines with particular attention to spaces of resistance food sovereignty de growth open knowledge transition town occupations bottom up social innovations and organizational scales local food national policies South South collaborations international governance and multi national agreements Overall it shows the consequences of a shift to the alternative paradigm of food as a commons in terms of food the planet and living beings Chapters 1 and 24 of this book are freely available as downloadable Open Access PDFs at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license     Intellectual Property in Global Governance Chidi Oguamanam,2013-03-01 Intellectual Property in Global Governance critically examines the evolution of international intellectual property law making from the build up to the TRIPS Agreement through the TRIPS and post TRIPS era The book focuses on a number of thematic intellectual property issue linkages exploring the formal and informal institutional interactions and multi stakeholder holder intrigues implicated in the global governance of intellectual property Using examples from bio technology bio diversity bio prospecting and bio piracy it investigates the shift or concentration in the focus of innovation from physical to life sciences and the ensuing changes in international intellectual property law making and their implications for intellectual property jurisprudence It examines the character of the reception resistance and various nuanced reactions to the changes brought about by the TRIPS Agreement exploring the various institutional sites and patterns of such responses as well as the escalation in the issue linkages associated with the concept and impact of intellectual property law Drawing upon multiple methodological approaches including law and legal theory regime theory globalization and global governance Chidi Oguamanam explores the intellectual property dynamics in the Global Knowledge Economy focusing on digitization and information revolution phenomenon and the concept of a post industrial society The book articulates an agenda for global governance of intellectual property law in the 21st century and speculates on the future of intellectual property in North South relations     Corporate Responses to EU Emissions Trading Jon Birger Skjærseth,Per Ove Eikeland,2016-05-13 The European Union EU aims to put Europe on track toward a low carbon economy In this striking challenge the EU Emissions Trading System EU ETS has been singled out as the Union s key climate policy instrument

ultimately aimed as a model for a global carbon market The learning effect of the EU ETS could thus be tremendous This study explores how the EU ETS actually works on the ground affecting corporate climate strategies It covers general sector responses as well as systematic comparative studies of companies across the sectors The latter enables improved understanding of causal effects and the role of interaction between different policy instruments and other factors that impact corporate climate strategies The study explores a broad set of mechanisms at play potentially linking the EU ETS to company climate strategies These include how corporate norms of responsibility are affected by the EU ETS and how economic incentives provide opportunities for innovation The book's main contribution lies in its systematic examination of corporate responses to the EU ETS from a broad empirical and analytical social science perspective covering companies in all main EU ETS sectors electric power oil cement steel and pulp and paper **Global Ecopolitics Revisited** Philippe Le

Prestre, 2017-02-10 Faced with worsening environmental indicators cooperation hurdles and the limited effectiveness of current institutions reforming international environmental governance has proven elusive despite various diplomatic initiatives at the United Nations level over the last two decades Overcoming the current dead end however may rest less in devising new arrangements than in challenging how the problem has been approached Presenting a multifaceted exploration of some of the key issues and questions in global ecopolitics this book brings together recent advances in research on global environmental governance in order to identify new avenues of inquiry and action Each chapter questions elements of the current wisdom and covers a topic that lies at the heart of global environmental governance including the reasons for engagement the evolving relationship between science and policy the potential and limits of the European Union as a key actor the role of developing and emergent countries and the contours of a complex governance of international environmental issues Laying the foundation for rethinking at a time of great transformation in global ecopolitics this book will be important reading for students of environmental politics and governance It will also be of relevance to policy makers with an interest in going beyond the prevailing discourse on this crucial topic **Global Perspectives on Indigenous Oral**

**Traditions** Mukuni, Candido, 2025-09-05 Indigenous oral traditions are vital to preserving cultural memory transmitting knowledge and sustaining community identity across generations These rich practices offer alternative ways of knowing that challenge dominant Western paradigms and support efforts to decolonize education As global awareness grows around the importance of indigenous knowledge systems oral traditions play an increasingly prominent role in informing pedagogy cultural resilience and intercultural understanding Exploring their relevance today helps bridge past and present fostering more inclusive and respectful approaches to learning and cultural preservation **Global Perspectives on Indigenous Oral Traditions** provides an interdisciplinary exploration of the functions preservation and educational integration of indigenous oral traditions It presents theoretical frameworks comparative case studies and practical applications from all around the world Covering topics such as colonial debunking intergenerational knowledge and storytelling this book is an excellent

**Implementing the Nagoya Protocol** Brendan Coolsaet, Fulya Batur, Arianna Broggiato, John Pitseys, Tom Dedeurwaerdere, 2015-04-21 The adoption of the Nagoya Protocol on Access and Benefit sharing to the Convention on Biological Diversity in 2010 is a major landmark for the global governance of genetic resources and traditional knowledge The way in which it will be translated into practice will however depend on the concrete implementation in national country legislation across the world Implementing the Nagoya Protocol compares existing ABS regimes in ten European countries including one non EU member and one EU candidate country and critically explores several cross cutting issues related to the implementation of the Nagoya Protocol in the EU Gathering some of the most professional and widely acclaimed experts in ABS issues this book takes a major step towards filling a gap in the vast body of literature on national and regional implementation of global commitments regarding ABS and traditional knowledge

*The Legitimacy of International Regimes* Helmut Breitmeier, 2016-12-05 How legitimate are outcomes outputs and impacts of global environmental regimes Can non state actors contribute to improve the output and input oriented legitimacy of global environmental governance Helmut Breitmeier responds to these questions balancing the volume with both theoretical and empirical chapters The theoretical and conceptual chapters illustrate the relevance and meaning of legitimacy as well as the impact of non state actors on environmental governance They also describe various methodological issues involved with the coding of 23 environmental regimes The empirical chapters are based on the findings of the International Regimes Database IRD They explore whether problem solving in international regimes is effective and equitable and the influence of a regime s contribution to how states comply with international norms These chapters also analyze whether non state actors can improve the output and input oriented legitimacy of global governance systems

*Transatlantic Environment and Energy Politics* Stacy D VanDeveer, Mr Henrik Selin, Professor Miranda A Schreurs, 2013-03-28 Environmental and energy policies have become increasingly significant in European and North American politics This fascinating book uses a wide range of case studies that embrace climate change product standards chemical regulations renewable energy policies food safety and genetically modified organisms to examine areas of conflict and cooperation in the transatlantic relationship While there are many areas where the European Union and the United States are following divergent policy paths there are also many signs that a more cooperative transatlantic relationship could emerge in the future Transatlantic Environment and Energy Politics is highly relevant to understanding how the European Union and North America can cooperate more effectively in meeting today s many global environmental and energy policy challenges It is essential reading for all advanced students and scholars

*Moving Health Sovereignty in Africa* Andrew F. Cooper, Hany Besada, 2016-04-15 Today s era of intense globalization has unleashed dynamic movements of people pathogens and pests that overwhelm the static territorial jurisdictions on which the governance provided by sovereign states and their formal intergovernmental institutions is based This world of movement

calls for new ideas and institutions to govern people's health above all in Africa where the movements and health challenges are the most acute. This book insightfully explores these challenges in ways that put the perspectives of Africans themselves at centre stage. It begins with the long central and still compelling African health challenge of combating the pandemic of HIV/AIDS. It then examines the global governance responses by the major multilateral organizations of the World Bank and the World Trade Organization and the newer informal flexible democratically oriented ones of the Group of Eight. It also addresses the compounding health challenge created by climate change to assess both its intensifying impact on Africa and how all international institutions have largely failed to link climate and health in their governance response. It concludes with several recommendations about the innovative ideas and institutions that offer a way to closing the great global governance gaps and thus improving Africans' health and that of citizens beyond.
